SILVER PLATED ON NICKEL SILVER | TRADE R.&B. MARK | FINISHED IN FRENCH GRAY

$5.95 = For this chest of silver containing twenty-six pieces of silver plated tableware.

The Jewel Pattern

THE chest of silver which we offer here consists of a beautiful case made of Solid Oak with white lining, and twenty-six pieces of R. & B. "Jewel Pattern" tableware, six tea spoons, six table spoons, six solid handle medium size knives, six medium size forks, one butter knife and one sugar shell. All of these pieces are finished in French Gray. This finish is very popular in the highest grades of plated ware. A few years ago only the highest priced tableware was finished in this attractive pattern; however, our large contract with the manufacturer enabled us to secure this pattern on a popular priced set of twenty-six pieces. You will be delighted with it as it is comparatively new and very rich and delicate in finish. The chest is equipped with handle and catch as shown, shipped complete by parcel post, charges collect.

Everything for the Home

"ALADDIN HOMECRAFT" products have come to play a very large part in the *finishing* and *furnishing* of the better American homes through our unceasing efforts to bring all "Aladdin" products to the highest standard of quality.

Every article bearing the name "Aladdin," whether manufactured by us or for us, is given the same careful thought and consideration as if it were going into our own home.

The Aladdin organization was, for seven years, confined to the designing and manufacturing of Readi-Cut Houses, and had no thought of adding to this until in July, 1913, we received a letter suggesting the adding of a department to handle heating, plumbing and lighting fixtures for Aladdin Homes. To which we replied that there were so many places where these articles were sold that we did not feel that we could be of any great service to Aladdin customers in that way. In reply to our letter, we received the following:

The Aladdin Co., Aug. 12, 1913
Bay City, Mich.

Gentlemen:—I know that there is a real service to be offered to Aladdin customers in home furnishings.

In every locality in this country, there are people with refined tastes and artistic instincts who want good furnishings, but are unable to buy them in their local markets. I also know that it costs very little more to manufacture a *good, artistic appearing* piece of furniture than a cheap, shoddy appearing one. It takes no more material to make an artistic electric fixture than the ordinary kind. The idea is to get the best designers possible and then have these articles manufactured in such a way as to maintain your "Aladdin" standard. While possibly we could never sell the same quantity of material that the houses who look to price only, do, we can always be assured that each customer would be a satisfied one. If this thought appeals to you, I would be pleased to present my ideas more in detail and to show you why I believe I can bring this feature of your business to a success.

Very truly yours,
FRED A. KARR.

Thus "Aladdin Homecraft" merchandise was originated, and with the idea foremost QUALITY FIRST AND SATISFIED CUSTOMERS ALWAYS, we are offering this, our latest and best catalog, for your approval.

A few days ago, we were asked by a large publisher, who, by the way, is a customer, to what extent we would extend this service. Our reply was that from time to time we would, thru our own little magazine, show new lines to our customers. If our friends agreed with us that they were bargains and worthy of patronage, we would enlarge on these lines.

OUR TERMS are always cash with order and the prices quoted on merchandise are *net* F. O. B. cars shipping point. We will ship merchandise C. O. D. when an order is accompanied by remittance for one-fourth of the amount. But we do not favor this method of handling orders. Everything listed by us is covered by our unconditional guarantee of satisfaction or your money refunded, and thus you are thoroughly *protected*.

ALADDIN MERCHANDISE
Sold by the Golden Rule

1916 Merchandise Catalog—Copyrighted 1916.

WE have worked incessantly to bring this catalog to a point where it will answer every need in the outfitting of your home. Only goods of known and tested quality, goods we are proud to put the name "Aladdin" on, and goods you will be proud to make a part of your home, have been selected.

The "Aladdin" Standard of Quality

The name of "Aladdin" has come to mean "High Standard of Quality" in every household that has come in contact with it. It carries confidence to the buyer. It means satisfaction with the goods. It makes real friends of customers.

Aladdin merchandise in every case shipped to you direct from the factory, and we guarantee

Satisfaction or Your Money Back

You may choose with a feeling of assurance that you will be pleased when you open the package. Satisfaction or your money back is the basis of every transaction. If you can think of any stronger safeguard to you than this, we will be glad to adopt it.

It is you who makes our business possible and knowing this, we want to serve you in the best way and *please you in every way.*

Our services are not confined to selling you goods. This great organization is made up of many bright men and women, real human people, who like to help other people, to give them the benefit of their experience and knowledge along their chosen profession.

We have people trained in contracting, building, carpentering, masonry, plumbing, heating, electric lighting, painting, decorating, gardening, horticulture, and in fact, almost every activity entering into the building and maintenance of a home.

Of course we have skilled engineers, civil and mechanical; experts in finance, banking, freights and the usual experienced men covering every branch of manufacturing and merchandising.

And every one of these men are glad to answer questions on matters which they are qualified to decide. Their advice is of the best kind because it is given without payment and without prejudice.

A Word Regarding
"HOMECRAFT"
and "Aladdin Homecraft" Products

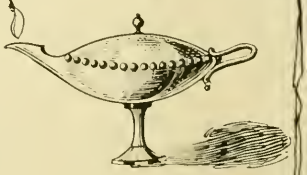
The name stands for *arts* and *crafts in home decorations,* and unlike most trademarks, the name was not made to fit the furniture, but each piece of furniture is made to live up to the name of our high furniture ideals. These three facts stand out pre-eminent above all others.

No piece of furniture bearing this name is finished in imprint, that is, stenciled or printed to imitate Oak, Birds-eye Maple or Mahogany.

Nothing but Genuine Oak or Mahogany, as the case may be, is used in the exposed portions of "Homecraft" furniture.

No enlarged "wash" drawing pictures are used to make the furniture appear more massive than it really is. This is a very noteworthy fact, as nearly all furniture sold from catalogs today is shown in this way, while all "Homecraft" products are shown by pictures made from actual photographs of the merchandise.

Will you let us serve you?



Jacobean Living Room Furniture

Jacobean Period XVII Century

as Reproduced by

The Aladdin "Homecraft" Designers

ON account of the sturdy build and necessarily long life of Jacobean period furniture, there are probably more original pieces of this type of furniture in use to-day than of any other. Made of Oak, massive, sturdy, strong, and withal the graceful turned legs and well-balanced effect, together with the rich appearing cane panels, makes a wonderfully good type of furniture. Our designers have, in this set, preserved all of the good points of the old master.

The Table as shown in the cut is 28 in. wide and 48 in. long with a full-width drawer. Has beautifully turned legs and a wide magazine or book shelf below. A more pleasing design could not be imagined, the whole effect being rich and well-balanced. "The quality will be remembered long after the price is forgotten."

The Settee is 38 in. high, 42 in. long, upholstered in the very best grade of genuine Spanish leather. Has a full-spring auto seat. The back is 22 in. high, arms 4 in. wide, and the legs are 2 in. square. Two cane panels in the back.

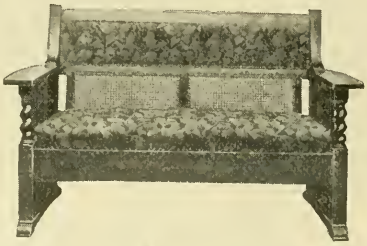
The Rocker like the straight chair is upholstered in genuine Spanish leather of the very best grade. Seat measurements are the same as with the straight chair. The rockers are well proportioned and the chair is swung in such a way as to give the most comfort.

The Straight Chair Upholstered in genuine Spanish leather. Has a full-spring auto seat. 19½x17½ in. The back is 22 in. high with a cane panel 7 in. wide; legs are 2 in. square, arms 4 in. wide. A well proportioned and beautifully finished chair.

The whole suite is a true copy of the best type of Jacobean furniture and must be seen to be appreciated. Furnished regularly in Fumed Oak finish. Samples of the leather used for upholstering will be furnished upon request. We will also be glad to offer suggestions as to wall decorations, etc., to give an artistic tone to your home. For suggestions, write to our Department of Service.

No. 4B-500—Table as shown, each	$19.75
No. 4B-501—Straight Chair as shown, each	8.40
No. 4B-502—Rocker as shown, each	8.65
No. 4B-503—Settee as shown, each	16.80
No. 4B-505—Complete set, Table, Chair, Rocker, and Settee	**$49.50**

"HOMECRAFT" LIVING ROOM FURNITURE



This Beautiful "Homecraft" 3-piece Set, only $77.00

When you get good furniture, you must pay a good price. In our "Homecraft" you get $1.00 worth of furniture for every dollar spent. This outfit is beautifully designed and finished, and is built by honest "Craftsmen." Will stand up in any climate and under any circumstances.

THE SETTEE is 37½ inches high, 50 inches long and 17½ inches deep. The upholstered panel in back is 48x9 inches. The two cane back panels are 21x8½ inches each. The front legs are 2½ inches square. Back legs, 2 inches. The auto seat has 42 Coil Springs. Width of arms, 4¾ inches.

THE CHAIRS stand 37½ inches high, the seat is 20x18 inches, cane panel in the back, 12x8½ inches. Cane in sides, 21x6 inches. Upholstered back panel, 17½x9 inches, front legs are 2 inches square, back legs 1¾ inches, width of arms 4½ inches; have full auto seat.

FINISH—We always send this set finished in fumed Oak unless otherwise ordered, but can furnish it in any special finish. When we say fumed, we do not mean dipped in acid, but a genuine fumed finish.

UPHOLSTERING—This set may be had upholstered in the best imported tapestry or Genuine Spanish leather. We will gladly send samples of the upholstering material upon request.

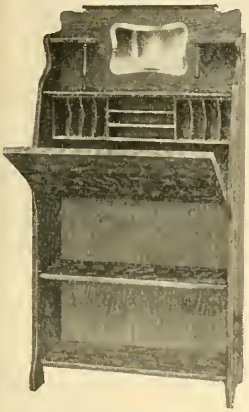
4A-431—Complete set with best Spanish leather..28.80

ALADDIN "HOMECRAFT" BOOKCASES AND WRITING DESKS

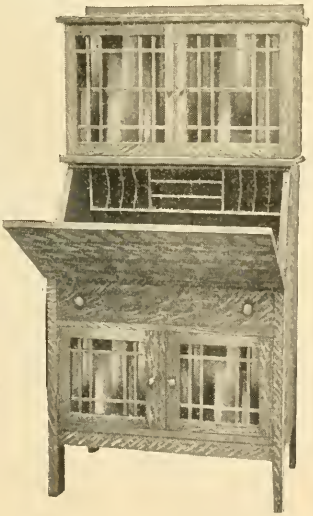


Plain Oak Combined Bookcase and Writing Desk, is 55 inches high and 28 inches wide, has a bevel plate glass mirror 8x12 inches. A drop writing desk which covers a series of pigeon holes for correspondence and writing material. A wire rod underneath this lid arranges for a curtain to be hung over the book section. Finished either Golden Oak or Fumed Oak. Weight, 85 lbs.

4B-3229—Bookcase and Desk, as described **$9.75**

Ladies' Sewing Desk, which when folded occupies very little floor space being only 23 inches by 26 inches when closed, and 23 inches by 48 inches when open, is 25 inches high, has three drawers as shown. A great improvement over the old sewing table. Finished Fumed Oak or Golden Oak. Weight, 95 lbs.

4B-3233—Sewing Table **$9.85**

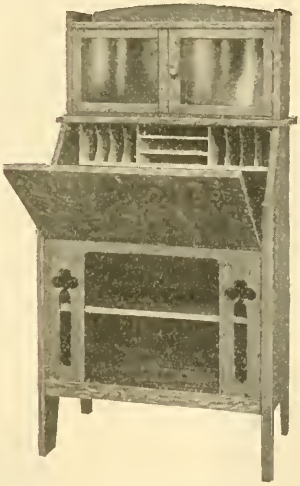


A Mission Design Combination Writing Desk and Bookcase made of quarter sawed Oak. Bookcases below and above the writing desk section. Wood grill over the glass in the doors adds to the attractive appearance of this case. A full width drawer adds to the convenience. 62 inches high, 30 inches wide, 16 inches deep. Finished Fumed or Golden Oak. Weight, 150 lbs.

4B-3237—Case, as described **$18.95**

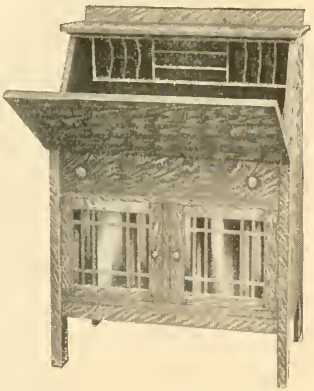
Made of quarter sawed Oak, is 46 inches high over all, and 30 inches wide. Has three full width drawers underneath the drop desk. This drop lid covers the pigeon holes which are for writing material, etc. Can be finished in either Golden Oak or Fumed Oak, is 16 inches deep and weighs 115 lbs.

4B-3231—Writing Desk, as described, **$12.75**



A Mission Design Combination Writing Desk and Bookcase made of quarter sawed Oak, with bookcases below and above the writing desk. The top section being enclosed by two glass doors, the lower section ornamented with two panels. Is 58 inches high over all, 30 inches wide, 16 inches deep, and can be furnished in Fumed or Golden Oak. Weight, 150 lbs.

4B-3235—Combination Writing Desk **$15.50**



A Mission Design Writing Desk with one section for books under the writing section. 44 inches high. 30 inches wide. 16 inches deep. Very similar in every way to case No. 4B-3237, only without the top section. Finished Fumed or Golden Oak. Weight, 112 lbs.

4B-3239—Desk, as described **$12.95**

"HOMECRAFT" LIVING ROOM FURNITURE—CHAIRS

AN INEXPENSIVE UPHOLSTERED ROCKER

$6.75

This chair offers more real value, for the price, than any you have ever seen. Do not pass it up without giving it your careful consideration, for it embodies the true "Homecraft" lines and will be an ornament to any home.

Made of solid Oak, upholstered in either Black or Spanish imitation leather. Finished Early English, Golden Oak or Fumed. Seat, 18x19 in.—six spring construction. Shipped knock-down. Shipping weight, about 46 lbs.

A splendid present for husband or father, and one which will bring more actual enjoyment than anything you could possibly select.

Look at these measurements—Width of back, 31 in.; height of back, 25 in.; width of seat, 22 in.; depth of seat, 22 in.

4B-463 — Upholstered in Imitation leather, either Black or Spanish. Each... **$13.25**

4B-464—Upholstered in Moleskin. Each **$15.50**

FULL UPHOLSTERED ROCKER

$6.85

Here is a chair that our designers have produced to fill a long felt want, an upholstered solid Oak Frame Rocker at a price within reach of everybody.

This rocker is full upholstered as shown, has a seat 20x20 inches square with six special steel coil springs. The back is 27 inches high, a very attractive rocker at an exceptionally low price, upholstered in imitation leather, samples of which will be sent upon request. Shipped knock-down, weight 70 pounds.

4B-465—Upholstered in Imitation leather, Black or Spanish **$6.85**

THIS TURKISH ROCKER $15.10

This big, roomy, Base Rocker was certainly produced by a craftsman who understood the proper blending of beauty and comfort.

It appeals to the love of the beautiful which is part of every normal being, and it seems to extend an invitation to settle back into its padded depths and rest.

This chair would be a credit to any home in the land, and will make a perfect gift to wife, sister or mother. Height of back, 26 in.; width of seat, 22 in.; depth of seat, 21 in.

4B-467—Upholstered in Imitation leather, Black or Spanish..... **$15.10**

4B-468—Upholstered in Moleskin. Each **$17.00**

GENUINE IMPORTED TAPESTRY $16.65

Another beautiful Rocker of slightly different design. The cut shows this Rocker upholstered in imported Tapestry, which is very popular at the present time. Can be furnished in Moleskin if you prefer.

This is another "Homecraft" piece of which we are justly proud, and you can undoubtedly find a place for it in your home.

It will harmonize perfectly with pieces of almost any finish and design. Height of back, 29 in.; width of seat, 22 in.; depth of seat, 21 in.

4B-469—Upholstered in Genuine Imported Tapestry. Each **$16.65**

4B-469—Upholstered in Moleskin. Each **$15.75**

TURKISH ROCKER $13.80

A splendid "Homecraft" Base Rocker at about half what it would cost if purchased in the ordinary way.

No detail has been overlooked that would add to its serviceability or appearance, and it will add tone to any room in which it is placed. Height of back, 27 in.; width of seat, 21 in.; depth of seat, 18 in.

4B-471—Upholstered in Imitation leather, Black or Spanish **$13.80**

4B-470—Upholstered in Moleskin. Each **$14.10**

"HOMECRAFT" ROCKERS

$12.25

An over-stuffed Wing Rocker upholstered in Imitation Spanish Leather or in Genuine Spanish Leather. Height is 39 inches, above seat 25 inches, depth of seat is 21 inches, width inside 19 inches, outside 30 inches. Spring seat, stuffed arms, back and wings. A very attractive and up-to-date rocker.

4C-3721 Rocker, Imitation Leather **$12.25**
4C-3723 Rocker, Genuine Leather **$15.75**

$11.95

A sturdy, well-built over-stuffed Rocker upholstered in Genuine Leather or in Imitation Spanish Leather. Height outside is 38 inches, above seat is 24 inches. The depth of seat is 20 inches, depth over all is 26 inches. Spring seat, stuffed arms and back, one of our latest designs.

4C-3725 Rocker, Imitation Leather **$11.95**
4C-3727 Rocker, Genuine Leather **$15.45**

$11.70

Another very attractive upholstered Rocker. The materials are either Genuine Leather or Imitation Spanish Leather. The height outside is 38 inches, above seat is 25 inches. The depth of seat is 22 inches, depth outside 26 inches. Width of seat is 19 inches, width over all is 28 inches. A few pieces of good furniture make a room more homelike than many cheap pieces.

4C-3729 Rocker, Imitation Leather.. **$11.70**
4C-3731 Rocker, Genuine Leather **$15.25**

$12.45

One of our very latest designs in full upholstered leather Rockers and one which we feel will be a great success. Graceful in design, sturdily built and comfortable. Height outside 35 inches, above seat is 23 inches. Width of seat 18 inches, outside 27 inches. Depth of seat 21 inches, outside 26 inches.

4C-3733 Rocker, Imitation Spanish Leather..... **$12.45**
4C-3735 Rocker, Genuine Leather **$15.95**

$11.70

An attractive over-stuffed Rocker with full spring seat, cushioned arms and back large and comfortable, and one which is worthy a place in any home. Height outside 38 inches, above seat 25 inches. Depth of seat 21 inches, outside 23 inches. Width of seat 18 inches, outside 28 inches.

4C-3737 Rocker, Imitation Spanish Leather..... **$11.70**
4C-3739 Rocker, Genuine Leather **$15.25**

$12.65

Another late design in full upholstered Rocker. A massive appearing and well designed piece of furniture and one which we believe would, if purchased in the regular way, sell for one-third more than our price. Height outside 38 inches, above seat 25 inches. Depth of seat 21 inches, outside 24 inches. Width of seat 18 inches, outside 28 inches.

4C-3741 Rocker, Imitation Spanish Leather..... **$12.65**

4A-2112

4A-2104

4A-2108

4A-2106

4A-2110

This furniture is absolutely unbreakable. All open work and interweaving fibres have steel wire centers. These fibres, to all appearance, are the same as the balance of the fibres used in the construction, but thru the center of each is a premier steel wire. **Therefore we guarantee that this is the strongest woven furniture on the market.**

Widely known as **Bungalow Furniture,** and is unequaled for attractive designs, durability and wearing qualities. It is woven by hand into the dainty and comfort-insuring designs as shown. Is not affected by **heat** or **moisture,** and has a finish that will not scratch, splinter or show the effects of hard usage.

Proof of the strength of Fibre Furniture is found in the fact that the Interstate Commerce Commission recently made a ruling whereby the **freight classification on fibre furniture is one-third less than on ordinary reed furniture.** This is conclusive proof that it is stronger than any form of reed furniture.

The Finish. "Homecraft" Fibre Furniture is finished regularly in **nut brown,** which is adaptable to any decorative scheme. If you prefer, we can furnish at the same price, **natural green or gray.** We can also furnish any piece finished **old ivory, verde green,** or any of the enamel finishes for $1.00 extra.

4A-2100—Table. Fibre top, weight, 16 lbs. **$4.25**

4A-2102—Rocker, weight, 16 lbs. **$5.20**

4A-2104—Table, Oak top, weight, 19 lbs. **$5.95**

4A-2106—Chair, weight, 14 lbs. **$3.55**

4A-2108—Rocker to match, weight, 16 lbs. **$3.55**

4A-2110—Settee to match, weight, 28 lbs. **$5.65**

4A-2112—Rocker, weight, 16 lbs. **$3.95**

HOMECRAFT FIBRE PORCH SUITES.

We show here a possibility of porch arrangement with a suite of our "Homecraft" fibre furniture. The designs are more attractive than any fibre or reed furniture now on the market. Utmost care has been taken in selecting pieces which will harmonize in every way.

The Swing is 5 ft. long and beautifully designed. Has a solid top, back with open work at bottom and beneath the arms.

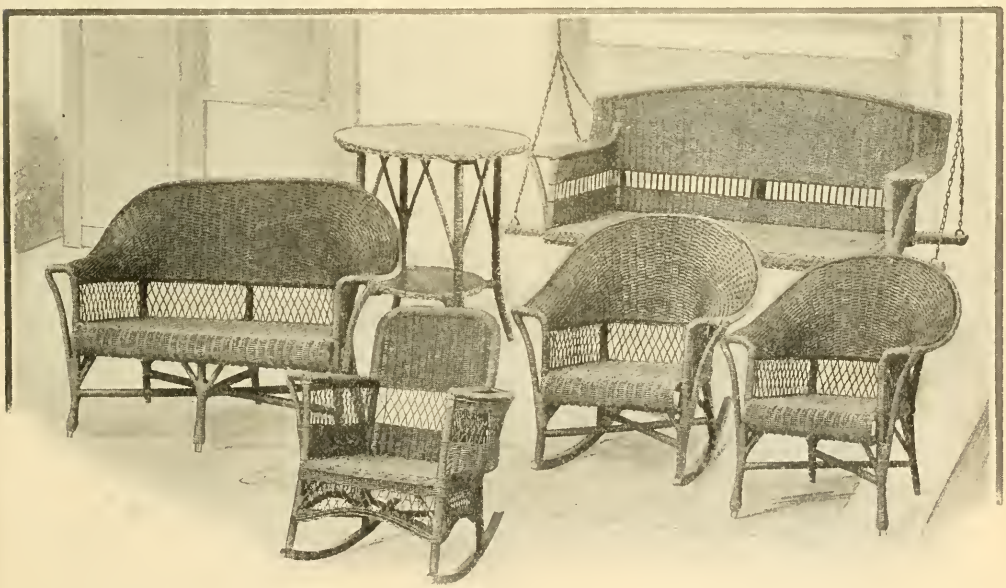
The Basket is 18 in. square and 8 in. deep. Is a very attractive addition to porch furnishing. Equipped with a zinc basin.

No. 4B-2200—The Swing, each $12.05
No. 4B-2202—The Table, each 7.85
No. 4B-2204—The Basket, each 3.15

The Chair, Rocker and Settee are made to match. Have flat arms. Backs are 34 in. high. Chairs are 29 in. wide and settee 48 in. wide.

Finishes Standard finish is nut brown. Natural gray or green can be furnished, if so requested, at the same price.

No. 4B-2206—The Chair, each $8.25
No. 4B-2208—The Rocker, each 8.45
No. 4B-2210—The Settee, each 12.95



Another possible porch arrangement with "Homecraft" fibre furniture. This furniture is not confined to porch use only, but is used largely in living rooms, dens, offices, etc.

The Swing is 5 ft. long. Has an oval back and flat arms and is, we believe, the strongest porch swing on the market.

The Table is 29½ in. high. Top is 29 in. in diameter. Top is quarter-sawed Oak, finished to conform with balance of table.

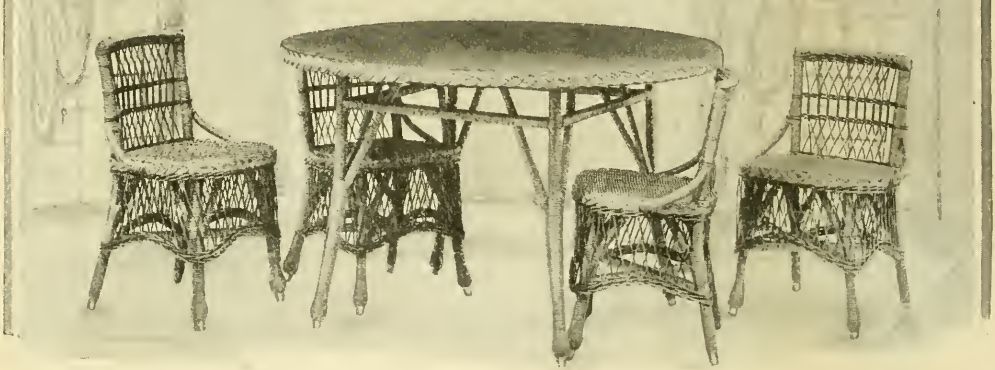
No. 4B-2212—The Swing, as shown $14.10
No. 4B-2214—The Table, as shown 7.15
No. 4B-2216—The Chair, which matches settee... 8.45

The Chair, Rocker and Settee are made to conform with balance of the suite.

Finishes The standard finish is nut brown, but natural green or gray can be furnished at no additional cost, if so requested.

No. 4B-2218—The Rocker, which matches settee..$9.35
No. 4B-2220—The Settee 14.10
No. 4B-2222—The Odd Rocker 9.90

Homecraft Fibre Breakfast and Tea Suites



The most attractive and best proportioned Breakfast Room Suite on the market, low in price, but strong and serviceable. A simple, low priced set of the kind will add more to the appearance of a home than twice the amount of money spent in some conventional furniture. Nor is a suite of this kind restricted to the breakfast room, as an unlimited number of them are sold every day for summer homes, clubhouses, etc.

The Table is 48 in. in diameter, 29 in. high, has a quarter-sawed Oak top, finished to conform with balance of suite.

The Chairs are made with low backs, thus when they are placed under the table, the backs come even with the top of the table.

No. 4C-2240—The Table $12.95
No. 4C-2242—The Chairs (each) 4.25

The Finishes The standard finish is nut brown, which conforms with any decorative scheme. We however, suggest natural gray finish with the table top finished in Kaiser gray, if such finish would not interfere with balance of color scheme in room in which it is used. Nut brown will be furnished, unless otherwise specified.

No. 4C-2243—The suite (consisting of 1 table and 4 chairs)..... **$28.50**

Showing a possible arrangement for a Tea or Breakfast Room or for clubhouse, summer home, or year round home dining room, this suite is very popular, and justly so; the proportions of the table and chairs are perfect, and they are strong and serviceable, finished in natural gray, with a Kaiser gray table top, makes a very handsome appearance. The prices are reasonable, therefore, within the reach of anyone who owns a summer home. This as well as all pieces of "Homecraft" furniture is covered by our binding guarantee of *Satisfaction or Your Money Back.*

The Table has a top 38x48 in., and has two drop leaves, which when up, are firmly supported by a leg bracket. The table, closed, is shown in the lower right hand corner.

FIBRE FURNITURE FOR DINING OR LIVING ROOM

This very attractive Dining Room Suite was originally intended for the breakfast room, but we have sold a great many of these combinations for Summer homes and in many cases for year around use. The furniture is as strong as it is possible to build furniture of this type. The shapes are very attractive and the suite is extremely attractive, described in detail as follows:

The Table has a top 54 inches in diameter made of quarter sawed oak. The bottom is full woven fibre as shown in the cut, brass ferrules on all feet.

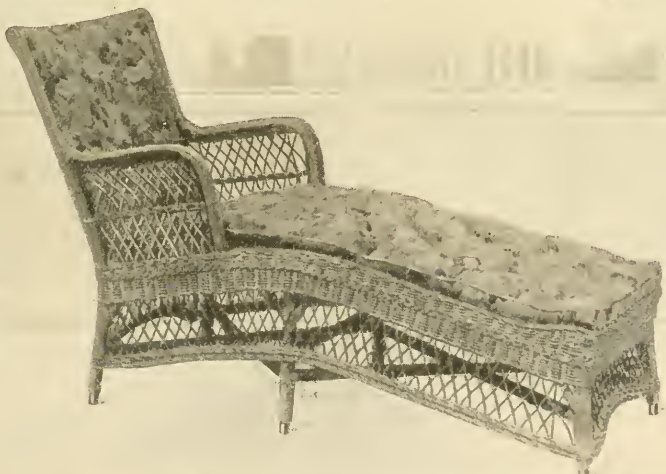
The Chairs have full woven backs. The back posts are reinforced as shown, and double spreaders across bottom, making the chairs exceptionally strong.

The Sideboard has a main top 22x36 inches and it is 42 inches high, has a large linen or silver drawer as shown and a full length shelf below for dishes.

The Tea Wagon has an oak tray top and a basket tray below. Two large wheels behind and a movable caster wheel in front. All wheels have rubber tires.

4W-790—Table as described.....$21.00
4W-791—Chairs, each 5.60
4W-792—Sideboard 19.50
4W-793—Tea Wagon $15.60
4W-794—Suite consisting of Table, Sideboard, Tea Wagon and four Chairs..... 74.00

FULL-UPHOLSTERED FIBRE CHAISE LOUNGE



The Chaise Lounge has become very popular during the last few years. The most popular as well as the most ornamental, is the woven fibre lounge. This is true because fibre lends itself to any shape thereby forming the most comfortable as well as the most attractive in appearance. This is 60 inches long over all, upholstered in genuine imported tapestry.

4W-796—Chaise Lounge, finished gray, nut brown or green.....$26.40
Finished in enamel colors 27.60

"Homecraft" Living Room Furniture — Davenports

$23.75 FOR THIS FULL SPRING SEAT AND BACK DAVENPORT WORTH $35.00

A splendid example of the Tapestry upholstered furniture which is becoming very popular. This davenport is certainly deserving of a prominent place in the "Homecraft" line. Public opinion has gradually eliminated the purely ornamental furniture and now demands more simplicity and solid comfort. Compare this big, roomy, cushioned davenport with the old back-breaking styles so popular a few years ago, and you will appreciate more fully the results achieved by our expert designers. In establishing our furniture department, we have worked toward one simple purpose—to provide the fixtures not merely for a "house" but for a "home." There is a world of difference in the meaning of the two words, and you will find the same difference between our line and others.

This is one of our very best designs, and will be a credit to your home.

Height of back, 28 in.; width of seat, 48 in.; depth of seat, 23 in.

Upholstered in genuine imported tapestry.

Ask for samples of upholstering.

4B-440 DAVENPORT, EACH **$23.75**

MISSION DAVENPORT, UPHOLSTERED IN EITHER GENUINE OR IMITATION SPANISH LEATHER

Made of Quartered Oak throughout. Upholstered in either genuine or imitation Spanish leather. Ask for samples of upholstering. Always shipped in fumed Oak unless otherwise specified.

4B-442—Davenport, genuine Spanish leather, each **$29.25**

4B-444—Davenport, imitation Spanish leather, each **$26.25**

This big, roomy davenport with full length auto spring cushion, breathes beauty and comfort in every line. Its simplicity of design and massive appearance, make it worthy of a place in any home, and it will harmonize with practically any style of furniture. The Mission style, of which this davenport is a splendid example, originated in our own country during recent years. Its chief characteristics are straight lines and heavy, massive construction, and is a slightly more elaborate form of the furniture found in the old Missions of California and the Southwest. Oak is the prevailing wood used, as it is very adaptable to this style of construction and to the many finishes, so deservedly popular at the present time. In this davenport, our designers have carried out the true Mission spirit in every detail, and it offers a splendid value to the discriminating buyer.

Measurements—Length, 66 in.; depth, 23 in.

$34.60 FOR THIS GENUINE JACOBEAN STYLE DAVENPORT, IMPORTED TAPESTRY.

A "Homecraft" design of the "Jacobean" period. This style is a product of the seventeenth century, and to make furniture as solid and sturdy as possible seems to have been the aim of the original designers.

The adaption of these principles to modern ideas by our expert craftsmen has produced a style which possesses a strong individuality of its own.

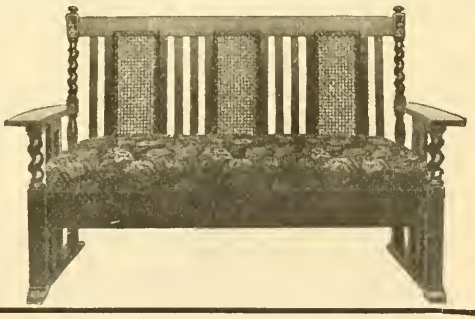
In this davenport the combined spiral and square pedestal legs, slat and cane panel back give it an air of elegance and comfort seldom attained.

Made of solid quartered Oak throughout, with full spring seat, upholstered in genuine imported Tapestry. Can be furnished in Spanish leather if you prefer.

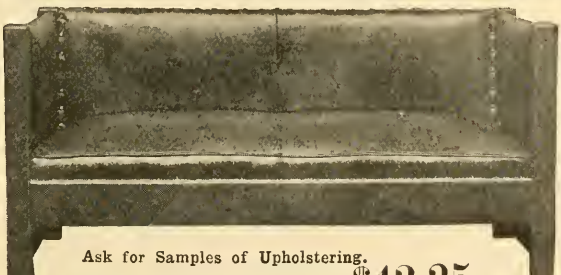
Measurements—Length, 60 inches.

Ask for Samples of Upholstering.

4B-446—Davenport, each **$34.60**



$42.25 FOR THIS 66-INCH DAVENPORT, UPHOLSTERED IN GENUINE SPANISH LEATHER



Ask for Samples of Upholstering.

4B-448—Davenport, each **$42.25**

This is unquestionably one of the best davenports ever offered for the price. Didn't it appeal to you the moment you turned over this page? Just imagine how well it would look in your own home and picture in your mind the solid comfort it offers. It typifies the true Mission spirit, and is the result of an enormous amount of study and careful planning on the part of our most expert designers.

What gift more suitable than something for the home, and where can you find anything that would be more appreciated than this splendid "Homecraft" Davenport?

Made of solid Quartered Oak, with full length spring cushion and full padded sides and back. Upholstered in genuine Spanish leather. Always shipped fumed Oak finish, unless otherwise specified.

Measurements—Length, 66 inches.

ALADDIN HOMECRAFT LIBRARY TABLES

JACOBEAN

A solid Oak Jacobean type Library Table. Has a main top 24x36 in. with a magazine shelf below. Has spiral twisted posts or legs and three panels in each end. These tables are finished either in Fumed Oak or Early English. The usual retail price would be at least 50 per cent more than that which we ask.

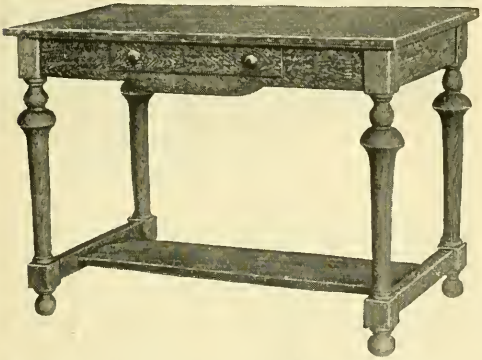
No. 4C-4081—Library Table **$6.80**

MISSION

Solid Oak Mission Library Table with a main top 26x40 in. Has a magazine or book shelf at each end and another beneath, which runs full length of the table. The posts are heavy and square. Furnished with a drawer for writing material, etc. A very handsome table and one which, as a general rule, sells for twice what we ask. Finished Fumed, Golden or Early English.

No. 4C-4083—Library Table **$7.50**

WILLIAM AND MARY



A William and Mary period Library Table, beautifully designed and finished. The top is 26x42 inches. Height is 30 inches. The legs are turned from 3½-inch Solid White Oak Stock. Large drawer under the top and a book or magazine shelf at the bottom. Finished fumed Oak, shipped knockdown from factory. Weight 100 pounds.

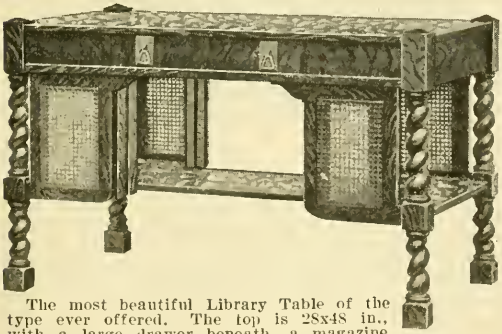
4C-825—Table **$15.65**

JACOBEAN

A large, well proportioned Jacobean Library Table, handsomely designed and beautifully finished and worthy of a place in any home. The spiral twisted legs or posts with square cap and feet, the top apparently suspended between these and the paneled ends are all marks which would be found in very high priced tables, but rarely in a table selling at anywhere near our price. Top is 26x40 in. Finished Fumed or Early English.

No. 4C-4087—Library Table **$10.90**

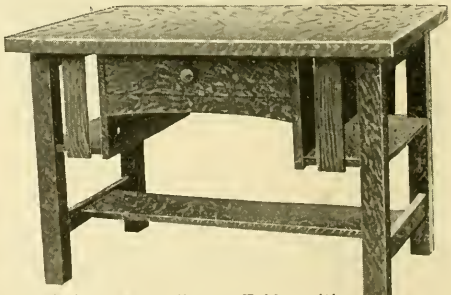
JACOBEAN



The most beautiful Library Table of the type ever offered. The top is 28x48 in., with a large drawer beneath, a magazine shelf with a book shelf at each end adds materially to the appearance. The cane panels at each end of the book shelves make the appearance very pleasing. The finishes are Fumed and Early English. Golden Oak can also be furnished.

No. 4C-4089—Jacobean Library Table **$26.95**

MISSION



A Mission type Library Table with a book shelf at each end. Main top is 28x46 in. Made of heavy Oak throughout. Heavy square posts, large, roomy drawer and magazine shelf below. A well made and well proportioned table, beautifully finished in Fumed Oak, Early English or Golden Oak.

No. 4C-4091—Mission Library Table **$15.95**

THIS COMPLETE FOUR PIECE MISSION LIVING ROOM SUITE $15.25

The suite illustrated above and described in detail here is a rare value at the price quoted—4 pieces at $15.25 and by no means could any one guess its real value. It represents a quality which is usually sold at twice the price which we quote and always sold at a price far greater than ours. Each piece is made of solid white Oak. Upholstered in best grade imitation Spanish leather. This upholstering will last fully as long as and in many cases, longer than genuine leather.

The pieces are well built, strong and sturdy in appearance and construction, well proportioned and great care is taken in the finishing of each piece. Always shipped direct from the factory, thus assuring customers of the minimum freight charges and at the same time eliminating most of the danger of damage in transit.

We **guarantee** that this suite as well as all other furniture sold by us, will be exactly as described by us, and also guarantee safe arrival to our customers, and agree to replace or repair any pieces damaged in transit or to refund full purchase price, together with freight charges paid on any article found otherwise than as described by us and returned to us for that reason. Could anything be fairer? We assume all risk.

PIECES OF WHICH THE SUITE CONSISTS DESCRIBED IN DETAIL

THE LAMP is not included in the price quoted on the suite, but can be furnished at the prices quoted below. Can be furnished for either gas or electricity. Is 21 inches high. Has a 6 inch base and 1⅝ inch shaft. Made of quarter sawed Oak and finished Fumed, Early English or Golden to match balance of suite. The shade is 12 inches square fitted with either green or amber opalescent glass and has a 4 inch glass bead fringe.

THE LIBRARY TABLE has a main top 24x34 inches with book or magazine shelf below. The ends are finished each with two narrow and one broad seat. Posts or legs are two inches square. Is well proportioned and beautifully finished. The finishes are Fumed Oak, Early English or Golden Oak. Shipped knock-down from factory in western Michigan. Shipping weight about 75 lbs.

THE ARM CHAIR is large and roomy, the back being 27 inches high. Seat 21 inches wide, upholstered in best grade imitation Spanish leather. Front posts 1⅞ inches square, copped with a broad flat arm. Finishes are Fumed Oak, Early English or Golden Oak. Weight, about 40 lbs.

STRAIGHT BACK CHAIR to match balance of the suite, has 1⅞ inch square front posts. Back is 27 inches high. Seat 17¼ inches wide, upholstered in best grade imitation Spanish leather. Strong and sturdy built, exceptionally proportioned. Finishes are Fumed Oak, Early English or Golden Oak. Weight about 28 lbs.

ARM ROCKER is made an exact match for the arm chair. Dimensions being the same. Upholstering and finish the same. Bear in mind that this is not a cheap suite of furniture but is well made, well proportioned and would ordinarily be sold at twice the price we are asking. Shipping weight about 46 lbs.

No. 4C-4900—Complete suite, less lamp	$15.25
No. 4C-4901—Library Table	4.65

No. 4C-4906—Aladdin Gas Lamp	3.70

Homecraft Mission Dining Room Suite $60.75

Mission Period
Late XIX and XX Century
As Reproduced by Aladdin Homecraft Designers

THE origin of Mission Furniture was in the old Spanish Missions in Arizona, New Mexico and California. On account of a limited number and variety of tools, this furniture was of necessity, plain in design and by the same token was sturdy and strong in appearance. There is no question but what Mission Period furniture will always be popular, as it is strong, attractive, and lends itself to nearly any surrounding.

Our "Homecraft" designers have marked out a true copy of original Mission furniture in this dining room suite.

THE BUFFET has a main top 22x48 inches, stands 54 inches high over all and has a French Bevel plate mirror, 10x40 inches. Has one full width linen drawer, two small drawers, one of which is for silver, and has two cupboard compartments with paneled doors.

THE CHINA CABINET has a main top 15x 36 inches, and stands 57 inches high over all. The glass in the ends is 8x8 inches on each side and in the doors, 14x40 inches in each. The door knobs or pulls are square and made of Oak.

THE DINING TABLE has a main top 42 inches in diameter, opened to 6 feet and has an 8 inch pedestal. Has solid feet two inches thick. This table is beautifully finished and of true Mission type and one of which any purchaser will be sure to feel proud.

THE SERVING TABLE has a main top 18x 34 inches and stands 35 inches high. Has one full width drawer equipped with two square wood knobs. A beautiful piece of furniture for any dining room.

THE CHAIRS. Six Mission type chairs with solid oak saddle seat are furnished with this suite. The chairs conform in every detail to the balance of the furniture in this suite.

THE SUITE as a whole is strong, sturdy and pleasing to the eye, and we believe will be a source of pleasure to any purchaser. We quote the different pieces separately, as we will sell as few or as many pieces as you wish.

FINISH. Each piece in this group furnished in Golden Oak, Fumed or Early English.

No. 4A-1520 Buffet, Weight 185 lbs.	$19.00
No. 4C-1522 China Closet, Weight 140 lbs.	14.50

No. 4C-1530 Complete Suite as described	**$60.75**

"HOMECRAFT" MISSION DINING ROOM FURNITURE

MISSION PERIOD LATE XIX AND XX TH CENTURY AS REPRODUCED BY ALADDIN HOMECRAFT DESIGNERS.

MISSION STYLE FURNITURE will, no doubt, always be popular in this country. The origin of Mission furniture was in the old Missions of Arizona, New Mexico and California. One of the strongest arguments for Mission furniture is its adaptability to nearly any style of decoration. Its strength is another strong point in its favor. Our Mission furniture is made throughout of Oak, and the designs and workmanship are of the very best. The characters are always straight lines, heavy and massive construction. In this suite we offer an extremely attractive design of dining room furniture. Every detail has been worked out and the finished product will please the most fastidious.

The Buffet has a top, 22x48 in. The French plate glass mirror is 10x40. Has two small top drawers, one lined fo silver and one large linen drawer at the bottom. two cupboards are large and roomy, and are fitte with art paneled doors. The hardware used is as sh of the inverted keystone type and conforms with the Mission style. This, as well as all the pieces in this set, are finished Fumed Oak.

The China Closet is plain Mission type, the style which in China Cabinets gives more available space, for holding and displaying china and cut glass, than any other style. The cabinet is 39 in. wide, 14 in. deep, 59 in. high. The glass in the ends are 8x40 in. each. Glass in the doors, 14x40 in. each. The hardware matches that used on balance of the furniture. Weight, 145 lbs.

The Table like the balance of the pieces in this suite, is Mission pattern. This is one of our most popular designs in dining room tables. The top is 42 in. in diameter. Has heavy 4-ply feet, 3¼ in. wide. Extends 6 ft. with solid pedestal. Described elsewhere as our No. 4A-202. Weight, 165 lbs.

The Serving Table This piece, being somewhat of a novelty, is not included in the suite, as priced below, but can be furnished in the set when so desired by our customers. It is 38 in. wide and 19 in. deep. Has one full length drawer with hardware to match balance of set. Weight, 85 lbs.

The Chairs are made to conform with the balance of the outfit, designed to stand the wear and tear of every day use. Made of quarter-sawed Oak, finished Fumed. The very best Mission chair on the market. Weight, per set of six chairs, 180 lbs.

No. 4C-810—Buffet, as described, each $22.50
No. 4C-811—China Closet, as described 16.75
No. 4C-812—Table, as described 16.75
No. 4C-813—Set of 6 chairs, as described 18.00
No. 4C-814—Complete set, including Buffet, China Closet, Table and six chairs. Shipping weight, 670 lbs. **$69.75**
No. 4C-815—Serving Table, not included in set $9.50

WHEN decorating and furnishing your Dining Room, no better selection could be made than white enamel wood work, mahogany stained doors and mahogany furniture. In selecting the furniture, no better type could be had than originally designed and produced by Sheraton, who, in constructional principle always affected the straight lines. The suite illustrated on this page is a true reproduction of some of his best types.

The designer is often asked if it is not possible today to originate a style that would compare favorably with the period furniture of the past. This question is answered by the suite shown on this page. We are offering furniture as correct in design and as perfect in workmanship as that produced in Europe, and better still, we have studied the art of adapting the harmonious designs of the most famous periods to modern requirements, building the article according to modern methods of construction. The suite described in detail as follows:

This suite is regularly furnished in dark dull mahogany finish, but can be finished, upon request, in figured red gum which has all the appearance of Circassian walnut at the same price, or, finished in Old Ivory enameled at an extra charge of $1.50 per piece with the exception of chairs, which would be $4.50 extra for the six chairs.

The Buffet is 21 inches deep, 50 inches long and is fitted with a bevel plate mirror 10x40 inches, this being supported at each end by turned posts. Two cupboards, one on each side, with linen drawer beneath, and three small linen drawers give ample space for articles ordinarily kept in the buffet.

The China Closet is 61 inches high, 17 inches deep and 39 inches wide. Has three adjustable shelves. Has one 14x39 inch glass in each end.

The Serving Table is 19 inches deep and 38 inches wide. Has one full length drawer with a full length shelf beneath.

The Dining Table has a 48 inch round top and extends to 6 feet long. A pedestal in the center is supported by a built-up platform footing.

The Dining Chairs are of true Sheraton type with spindle back and slip seat. The seat is upholstered in Genuine Leather.

Sheraton Dining Room Suite $97.50

Sheraton Period Late XVIII Century Dining Room Suite

Reproduced by ALADDIN HOMECRAFT DESIGNERS

THIS STYLE OF FURNITURE was conceived during the late eighteenth century by Thomas Sheraton, who was perhaps the last of the great English designers who have left their names as originators of types of furniture which have become permanent works of art.

Our "Homecraft" designers, in adopting this Sheraton style to modern-day requirements, have followed the great originator very closely. Have eliminated entirely the curved lines which have been used in types of furniture called Sheraton style. In fact, this Aladdin Sheraton dining room suite retains only the simple, artistic straight lines of the original Sheraton.

A simple design of this kind is just as much in style to-day as it was one hundred years ago, and in ten, twenty, or one hundred years from now it will be still as popular, and with ordinary care can be perfectly good.

The suite is complete, consisting of the buffet, china closet, table, serving table and chairs.

The Buffet is a most artistic and attractive conception. The main top is 22x54 in., the bevel French plate glass mirror, 10x46 in. It has eight legs tapering to the bottom, with spade feet, three large drawers (one lined for silver) through the center, and two roomy cupboards with slab doors, one at each end. The end panels are beautifully finished and the whole piece is a work of art.

The hardware is something different than usually found in medium-priced furniture. A rich, dull mahogany finish adds greatly to the appearance of this set.

The China Closet is an exact match—design, material, and finish—for the rest of this suite. The graceful but simple lines will appeal when you consider that one hundred years from now this set will be just as it is to-day. The main top is 17x39 in. The glass in doors is 14x42 in. and in the side 10x42 in. The cabinet is furnished with three adjustable shelves, and it is 64 in. high, furnished in dull mahogany.

The Chairs are designed to conform with the balance of the dining room furniture. Finished in mahogany, equipped with a slip seat, covered with genuine leather. "Homecraft" construction throughout.

The Extension Table is simple, yet very artistic. It has six legs as shown, the two center ones being connected. The table top extends very slightly over the apron thus adding to the attractiveness. The main top is 48 in. in diameter and extends to 6 ft. long. Furnished in dull mahogany.

The Serving Table While serving tables are not so much in demand as are some other articles of furniture, yet there are many who wish an article of this kind; and, in fact, for a perfectly appointed dining room one is really necessary. This one has a main top 19x38 in., and is furnished with full length drawer, lower shelf, and low back as shown. Furnished in dull mahogany only.

The whole suite is well appointed, rich, simple, and tasty appearing, and will be a source of pleasure as long as used. Furnished in dull mahogany only, and shipped from factory in Wisconsin.

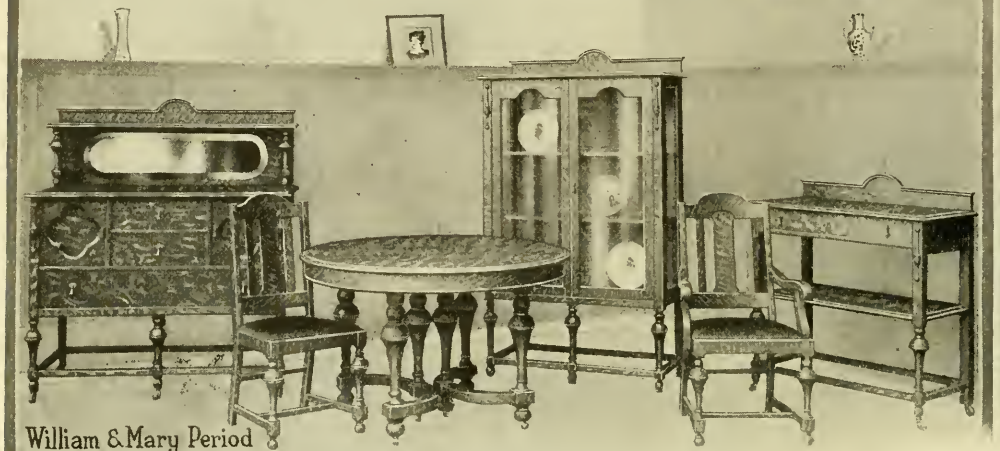
WILLIAM AND MARY PERIOD DINING ROOM SUITE-NINE PIECES $89.50



William & Mary Period
Dining Room Suite
As Reproduced by ALADDIN Homecraft Designers

THE suite shown on this page is a striking example of the William and Mary period furniture. The original design being produced in the Seventeenth Century.

The combination name given to this furniture was in honor of the rulers of the two countries from which the combination was made. That is, it typifies distinctive points of both Old English and Dutch furniture most popular in the Seventeenth Century. The name was for Mary, Queen of England and her Dutch husband, William of Orange.

The suite as quoted at $89.50 consists of Buffet, China Cabinet, Dining Table and Six straight back Chairs. The Serving Table and Arm Chair as shown in the cut being extra.

All of these pieces are made of figured Quarter Sawed Oak. The suite can be furnished in Fumed, Early English or Golden Oak finish.

The different pieces are described as follows:

The Buffet has a main top of 23x50 inches, is fitted with a bevel plate glass mirror 10x38 inches. Height over all is 57 inches. The main shelf above the mirror is supported by two turned posts, one at either end. The body is fitted with one long full length drawer and two smaller drawers for linen or silver. Also two cupboards with ornamental paneled doors. Weight is about 190 pounds.

The China Cabinet top is 18x40 inches, height over all is 68 inches. This is an especially attractive piece, having three turned legs in front as shown in this picture. General appearance being very attractive. Weight, 150 pounds.

The Serving Table has a main top 20x38 inches, is 41 inches high. Has one long full length drawer for linen or silver and a full length shelf underneath which adds greatly to the convenience. Weight about 90 pounds.

The Dining Table has a main top 48 inches in diameter, can be extended 6 feet. The legs at the largest part of the turning are 4½ inches in diameter, the stretchers are 1⅝x2½ inches. Six very ornamental legs support this table, making it one of the most attractive which we show.

The Chairs are made an exact match of the balance of this suite, having genuine leather slip seats. The front legs or posts being turned to match those of the balance of the suite. The weight being about 12 pounds each.

The whole suite can be finished in Fumed, Early English or Golden Oak. Fumed being the practical finish for this type of furniture, as it typifies the period in which the original design was brought out.

This suite when sent out by us is well crated and we guarantee safe arrival. The prices quoted below are F. O. B. cars, factory in Indiana.

No. 4B-5020—Buffet	$28.25

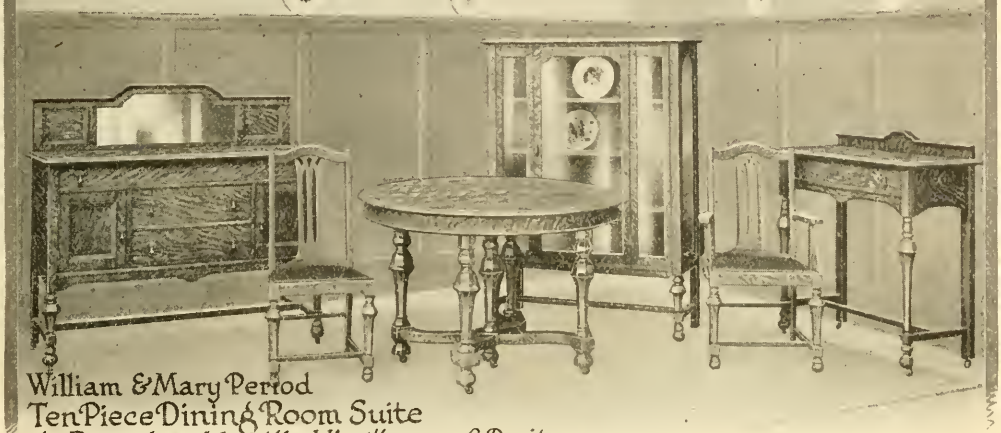
William & Mary Period $107.00
TEN PIECE DINING ROOM SUITE



William & Mary Period
Ten Piece Dining Room Suite
As Reproduced by Aladdin Homecraft Designers

THE furniture originally designed during this period was at that time the most beautiful ever produced. Nor to this day has a more artistic, or more substantial type of furniture been brought out. The artistic lines coupled with the strength found in William and Mary Period Furniture make a combination hard to improve upon.

In this, our latest design of Dining Room Suites, we call your attention particularly to the posts or legs which are turned and carved to a hexagon shape; to the panels in the back of the chairs, and to the hardware which is an exact match for the posts or legs. The Suite consists of Buffet, China Cabinet, Serving Table, Dining Table, and Six Dining Chairs. The Arm Chair is quoted as an extra. The suite described in detail as follows:

The Buffet has a main top 22x54 inches. A bevel plate mirror back 10x28 inches. The height is 50 inches. Has a full length drawer at top, two smaller drawers below, also two paneled door cupboard.

The China Cabinet has a main top 16 by 44 inches. The height is 59 inches, has three shelves as shown. One large door with a side light of clear glass on each side and a large glass in each end.

The Serving Table has a main top 18 by 38 inches and stands 42 inches high. Has one full length drawer. A very attractive table and one which is sure to please you.

The Dining Table has a 48-inch top and extends to 6 feet. The legs or posts are 4½ inches through, the spreaders or stretchers made of 1⅝x2½ inch stock.

The Dining Chairs are made in exact match to balance of the suite; have high backs and slip seats covered with genuine leather.

The Arm Chair While not regularly furnished with the suite can be had as an extra at the price as quoted below, or can be furnished in place of one of the six diners regularly furnished, at $3.35 extra.

The Finish The suite is made of genuine quarter-sawed White Oak and can be finished in Fumed, Early English or Golden Oak. Shipped direct from the factory in Indiana.

JACOBEAN DINING ROOM SUITE $95.00

Complete Suite Ten Pieces

JACOBEAN PERIOD DINING ROOM SUITE

Reproduced by ALADDIN HOMECRAFT DESIGNERS

JACOBEAN FURNITURE holds for the average American an association with Colonial romance, as it was among the first that was brought to this country and therefore, was probably the first furniture to be laboriously copied by the Colonial cabinet maker.

We have to a great extent done away with large audience chambers and great hall and vaulted bed chambers, popular in Colonial days, but we do have many homes that make ideal settings for just such pieces, as we show here.

In this Jacobean dining room suite, we show a modernized suite, not cumbersomely massive, but withall a true type. The spiral legs, low relief carvings and Colonial hardware all accentuate this type.

The suite consists of ten pieces, described in detail as follows:

The Buffet has a main top 21x48 in., fitted with a 10x40 in. bevel plate glass mirror, back of mirror being supported by two spiral turned posts, one at each end. The body is fitted with two short and one full length drawer, and two cupboards, one of these at each end. The hardware is very attractive, being true to this type of furniture. Weight, 190 lbs.

The China Cabinet top is 15x39 in., is 62 in. high and has a panel back. Can be furnished with glass shelves for $1.75 each, extra. Weight, 160 lbs.

The Serving Table has a main top 19x38 in., one drawer for linen, silverware, etc., a shelf below, this adds convenience. Weight, 100 lbs.

The Dining Table has a main top 48 in. in diameter and extends to 6 ft. long. The top is supported on 6 spiral turned legs on posts, with turned spreaders. Weight, 215 lbs.

The Dining Chairs are made as an exact match to the balance of the suite. Furnished with a slip seat, upholstered in Spanish leather. The back is attractively designed and adds dignity to the general appearance of the suite. Weight, 12 lbs. each.

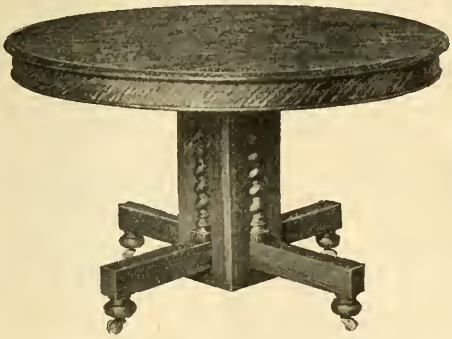
The Finish This suite is regularly finished in Jacobean finish, but can be finished in Fumed Oak. The finishing is beautifully done by experts in this line. The suite is sent out wrapped and crated, prices being F. O. B. cars factory near Chicago.

No. 4C-1700—Buffet as described, weight 190 lbs.	$25.00
No. 4C-1702—Dining Table as described, weight 215 lbs.	23.50
No. 4C-1704—Serving Table as described, weight 100 lbs.	11.50
No. 4C-1706—The China Closet as described, weight 160 lbs.	20.75
No. 4C-1708—Chairs (6 at $3.75 each)	21.50
No. 4C-1710—The suite consisting of Buffet, Dining Table, Serving Table, China Closet and Six Chairs	$95.00

If the Suite is wanted without Serving Table, deduct $11.50, making the price $83.50.

HOMECRAFT DINING ROOM FURNITURE

DINING TABLES



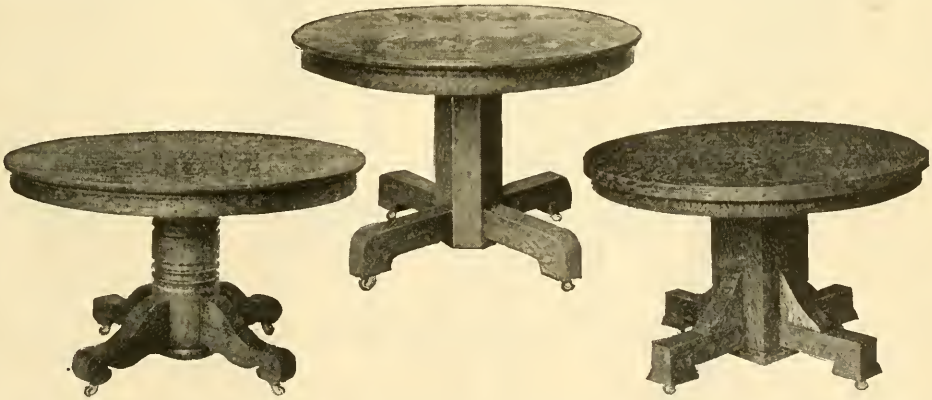
A more attractive dining table than this "Jacobean" style was never offered, a better table could not be built. The pedestal is 8 in. thick, the platform is two-ply built up. The top is 48 in. in diameter, 1⅛ in. thick, a heavy quartered oak top, beautifully finished. The table is made of solid oak throughout, and is always sent out finished in Fumed unless a special finish is ordered. Table has a solid pedestal. Extends to 6 feet long. Shipped from the factory in Indiana. Shipping weight, 125 pounds.

4B-881—Table as described..... **$14.75**

That "Homecraft" tables are built for hard service, will be readily understood when the tables are examined. The top lock works with one motion only, and is absolutely certain. Simplicity, strength and quality is the key note in our table factory.

This is one of our most popular designs in Dining room tables. The top is 42 inches in diameter. Has heavy 4-ply feet, 3¼ inches wide. Extends to 6 feet with solid pedestal. Finished in Fumed Oak unless otherwise specified.

4B-883—Table as described..... **$12.00**



A "mission" design dining table. Built on truly "Homecraft" lines. Top is 45 in. in diameter. Pedestal is Octagon, 9 in. in diameter. The feet are three-ply, built up 3¼ in. thick. Non-dividing pedestal; is 6 ft. extension. Always finished in fumed oak unless otherwise ordered. Shipping weight, 165 pounds.

4C-206—Table as described..... **$13.95**

A solid oak "Homecraft" diner in the more ornamental design which has proved very popular for several years past. A better proportioned or more attractive design could not be built. The top is 45 in. in diameter. Pillar 9 in. in diameter. Heavy feet, 3 in. thick. Each leg ornamented with scroll feet. Shipping weight, 150 lbs. Finished in Golden Oak, Fumed or early English.

4C-208—Table as described..... **$14.35**

This is our best solid oak dining table, and one of which we are justly proud. Our "Homecraft" designers have brought out a table in this, which we believe will meet with universal approval. The pillar is Square 10 in. in diameter, the top 48 inches in diameter. Legs are 3¼ in. wide. Always furnished in Fumed unless otherwise specified.

4C-2010—Table as described..... **$18.95**

FROM LATE IN THE SEVENTEENTH CENTURY Post Colonial furniture was very popular. The low post bed being a very handsome and deservedly popular piece of furniture. In many cases the posts were surmounted by a pineapple carved into the post. This bed then passed through a period of violent contrasts and settled to the turned posts, a good example of which has been worked out by our designers. It is interesting to know that during the late seventeenth century the bed was the household's most cherished possession. It is a matter of record that in the year 1640 one William Southmead, of Massachusetts, valued his house at ninety dollars, while his post colonial bed and feather bed for same was valued at the same amount.

Our homecraft designers have followed very closely the old masters in designing and creating this set, and we know that it would be impossible for you to get an equal value anywhere in the country.

The Bed It is beautifully designed and is built of select grain woods and finished in such a way as to make it a truly wonderful bargain. It is 56 in. high and furnished regularly 4 ft. 6 in. wide, but can be furnished in 3 ft. 6 in. wide, if so desired. The weight is 125 pounds.

The Dresser is 42 in. wide and 20 in. deep with a heavy French bevel plate mirror, 24 x 30 in. The drawer pulls are large wood knobs. The drawer arrangement is, two large linen drawers below and two small drawers at the top. The weight is 165 pounds.

The Chiffonier is 32 in. wide, 20 in. deep, and is furnished with a French bevel plate glass mirror, 18 x 20 in. Has four large linen drawers and two smaller drawers, all pulls being large wood knobs. The turned posts which support the mirrors are made to match the posts of the bed. Weight is 160 pounds.

The Dressing Table is 32 in. wide and 20 in. deep. Has a French bevel plate mirror, 18 x 20 in., and one full-width drawer with wood knob drawer pulls and turned post mirror supports. Weight, 95 pounds.

The Chair is a low-backed saddle seat bedroom chair, which will add just the proper tone to the room.

All pieces furnished in Mahogany finish and guaranteed to give satisfaction or money will be refunded.

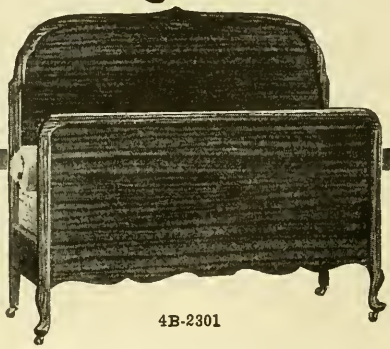
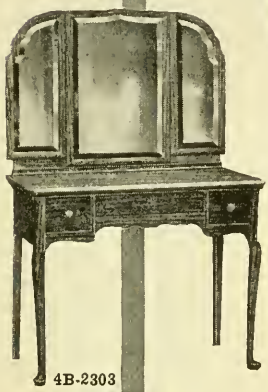
Homecraft Modernized Period Furniture
Beautifully Designed Bedroom Suite



4B-2301



4B-2303

During the past few years, there has been a great advancement in all that concerns home furnishings. No better example of this could be had than the suite shown on this page, compared with a suite, similar in price, sold 10 or 15 years ago. The suite illustrated on this page is designed in exact pattern of some of the best type of the Louis XV Period.

About 10 or 15 years ago, the furniture was designed or rather made without regard to harmony, that is a bed, dresser, chiffonier, etc., were considered in suite, as long as the finish was nearly the same. Today the furnishings for any room should be the same even to the chair, etc.

This suite described in detail as follows:

No. 4B-2301—Bed, 4 ft. 6 in., or 3 ft. 3 in. wide. Weight 140 lbs.....$24.75

No. 4B-2303—Dressing Table. 19x38 in. top, with two 8x22 in. and one 16x24 in. bevel plate mirrors, side mirrors adjustable. Weight 125 lbs.....$27.50

No. 4B-2305—Dresser. Top 21x42 in. A 24x30 in. bevel plate glass mirror, two full width drawers, one center drawer and two small side drawers at top. Weight 200 lbs.....$29.00

No. 4B-2307—Chiffonier with mirror. Top 19x32 in. Mirror 16x20 in. Bevel plate. Four full width and three small drawers. Weight 175 lbs.....$25.50

No. 4B-2309—Chiffonier without mirror. Weight 150 lbs.....$18.50

No 4B-2311—Writing Table. 19x38 in. top. Cane panel in back, two small drawers above table and one large and two small ones beneath. Weight 105 lbs. $18.50

No. 4B-2313—Bench. 14x19 in. top. Cane seat. Weight 25 lbs.....$5.75

No. 4B-2315—Chair. Cane seat. Weight 26 lbs. $7.15

No. 4B-2315—Rocker. Cane seat. Weight 30 lbs. $7.90

Finishes The standard finish is Antique Mahogany Dull, and will always be furnished unless otherwise requested. We can upon request finish this suite in American Walnut Dull or Bird's-eye Maple Polished.

Mahogany Bed Room Furniture

A Beautiful Mahogany Suite at a Low Price

CHEAP furniture is always expensive furniture, therefore, we have persisted in not listing any cheap furniture. We have listed a great number of low priced pieces, this suite being made up of a number of these. Mahogany (not merely Mahogany finish) but real Mahogany, and made into dainty shapes. Every piece is well proportioned and beautifully finished. Described in detail as follows:

The Writing Desk 17x30 in. top with one full length drawer. Weight, 57 lbs.

The Bed Either 4 ft. 6 in. or 3 ft. 3 in. wide; 43 in. high at top. Weight, 110 lbs.

The Dressing Table top is 17x30 in., with one full length drawer. Bevel plate glass mirror, 14x24 in. Weight, 80 lbs.

The Dresser has a main top 19x38 in., with two small and two full width drawers. A bevel plate glass mirror 24x26 in. and weighs 135 lbs.

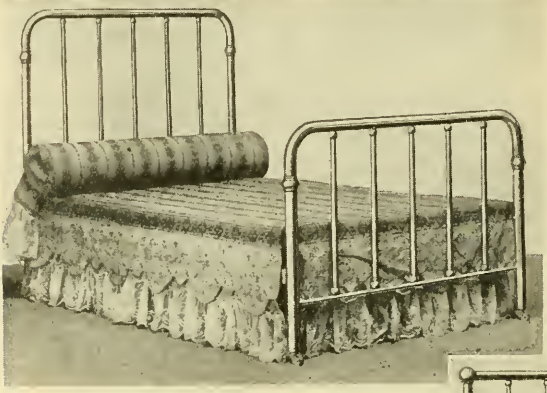
The Chiffonier has a main top 17x30 in., with five full length drawers and a 12x18 in. bevel plate glass mirror. Weight, 120 lbs.

Princess Dresser has a main top 20x40 in. One full length and two small drawers, a bevel plate glass mirror 18x36 in. and weighs 125 lbs.

Finishes Regularly finished dull Mahogany, but can be furnished in Quartered Oak finished Golden Oak, fumed or Kaiser gray.

4C-1840—The Writing Desk $6.50
4C-1842—The Bed 14.95
4C-1844—The Dressing Table 11.35
4C-1846—The Dresser $17.85
4C-1848—The Chiffonier 15.40
4C-1850—The Princess Dresser 17.85

Homecraft Bedroom Furniture-Brass Beds

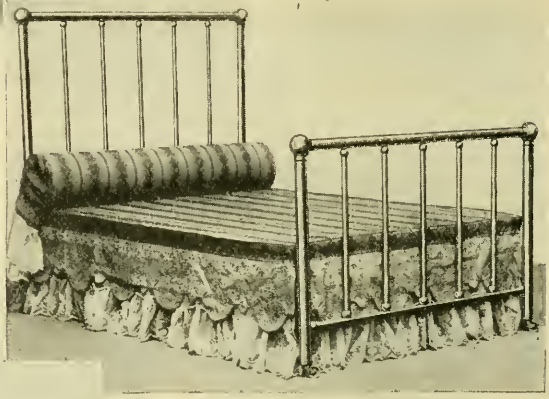


Continuous Round Tubing Brass Bed. A plain, massive design that is always in good taste; a beautiful, rich appearing bed without unusual ornamentation of any kind. The brass ferrules at top and bottom of each filler and on each of the corner posts give it a distinctive touch which is very pleasing.

The lacquer used on all of these beds is baked on by a special process, so that it becomes in reality a part of the brass, giving it a brilliant lustre, rich and very durable.

The continuous pillars in this bed are 2 inches in diameter, the cross tubing and fillers 1 inch. Height of head, 57 inches; foot, 37 inches. Shipping weight, 110 lbs.

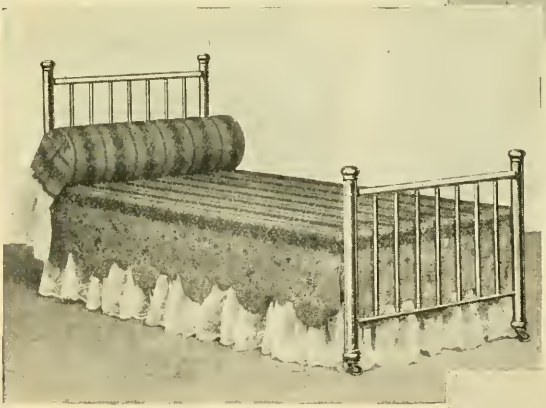
No. 4B-641—Brass Bed, as described **$21.95**



Two Inch Pillow and Rail Brass Bed. Another handsome design with round tubing but with square head and foot effect. This bed will harmonize perfectly with almost any style of furnishings and, together with all others in our line, is constructed of the very highest grade of material thruout.

Even the casters furnished are brass plated of the very best pattern mechanically, and the side rails are fitted with new process malleable connections, very rigid and durable. Pillars and cross tubing 2 inches, fillers 1 inch. Height of head, 59 inches; foot, 37 inches. Shipping weight, 117 lbs.

No. 4B-643—Brass Bed, as described **$20.75**

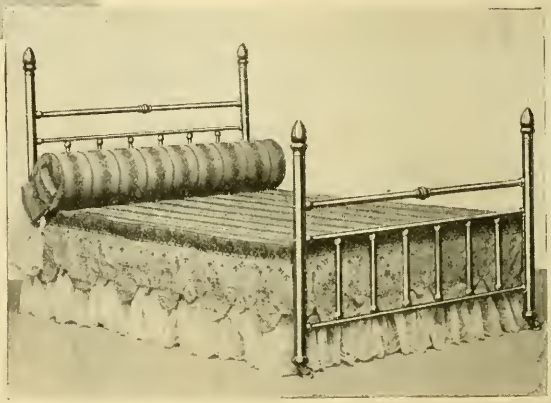


A Typical Bungalow Bed. This pattern is a perfect example of the Bungalow Bed which is becoming so deservedly popular.

In your home perhaps you have a dresser or other pieces of bedroom furniture without a bed to match, and if so, nothing will answer the purpose so well as a Brass Bed, for their popularity is constantly increasing.

This design is beautifully proportioned, with just the right amount of decorative effect. Diameter of pillars, 2 inches; cross tubing, 1¼ inches; and fillers, ¾ inches. Height of head, 41 inches; foot, 29 inches. Shipping weight, 83 lbs.

No. 4B-645—Brass Bed, as described **$21.50**

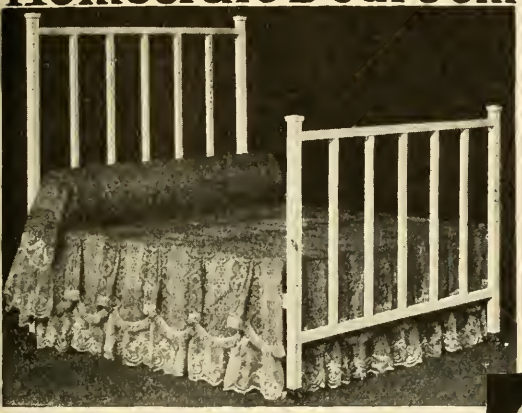


A Four Poster Brass Bed. Something new and distinctive in the line of Brass Beds and one that has proven a great favorite.

In beauty, durability and resistance to everyday use, our line cannot be excelled, and in this number our designers have produced a masterpiece. Any bed shown on this page can be furnished in widths 3 feet, 3½ feet, 4 feet and 4½ feet, altho the 4½ foot width will always be sent unless otherwise specified. Height of head, 52 inches; foot, 40 inches. Shipping weight, 102 lbs.

No. 4B-647—Brass Bed, as described **$23.50**

Homecraft Bedroom Furniture-Iron Beds



A beautiful plain effect, perfectly sanitary, and one that will harmonize perfectly with practically any style of furnishings and decorations. White enamel beds adapt themselves so nicely to almost any of the dainty color schemes now being so widely used.

The pillars of this design are 2 inches in diameter, the cross tubing 1½ inches, the fillers 1¼ inches. Height of head, 56 inches; foot, 36 inches. Made in four widths as listed above, but the 4½ foot width will always be sent unless otherwise specified. Shipping weight, 103 lbs.

No. 4B-603—Metal Bed, as described **$8.75**

In this number we are showing one of the best types of 3 piece beds, which are very popular, especially for summer cottages, camps, etc. The springs are made of a special fabric in a closely meshed link which will not rust and is the acme of strength and serviceability.

The bed itself contains the same excellent quality of material as all others in our line and the finish is perfect. Diameter of pillars 1 1-16 inch, cross rods ⅜ inches, fillers 5-16 inches. Height of head, 52 inches; foot, 32 inches. Furnished in four widths as above. Shipping weight, 96 lbs.

No. 4B-607—Three-piece Bed, as described **$8.95**

Another square type bed which is proving very popular, and one that will greatly enhance the cozy, livable appearance of your room. Sturdy and strong, with their snow white finish, anyone of these beds will give a lifetime of honest service with everyday use.

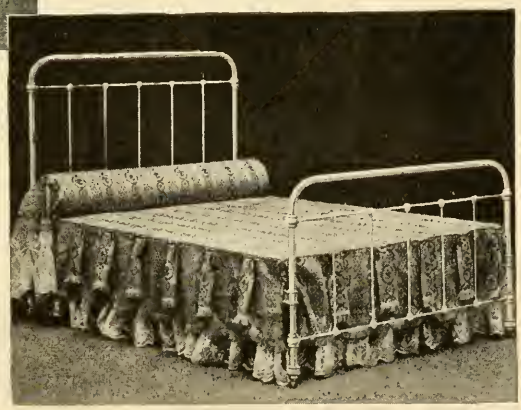
Pillars in this bed are 1½ inches square, cross tubing 1¼ inches, fillers 1 inch. Height of head, 58 inches; foot, 36 inches. Made in the following sizes: 3 feet, 3½ feet, 4 feet, 4½ feet. The 4½ foot width always furnished unless otherwise specified. Shipping weight, 105 lbs.

No. 4B-601—Metal Bed, as described **$12.15**

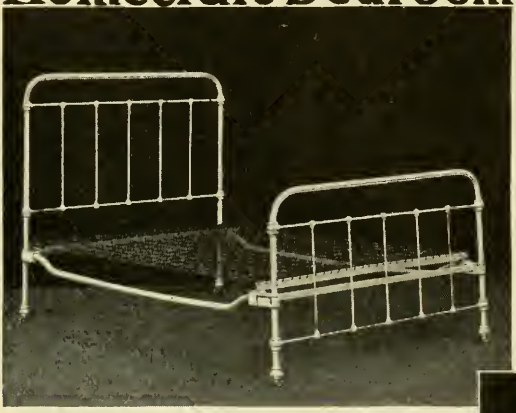
These beds need only be compared with the light, flimsy article sold by the average dealer at an equal or higher price, to demonstrate their real value. Each and every cut we have used is reproduced from an actual photograph so that they are not exaggerated in any way and their perfect proportions are exactly as in the bed you will receive.

Pillars in this style are 2 inches square, cross tubing 1½ inches, fillers 1 inch. Height of head, 57 inches; foot, 35 inches. Furnished in four different widths as above. Shipping weight, 88 lbs.

No. 4B-605—Metal Bed, as described **$14.30**



Homecraft Bedroom Furniture-Iron Beds



No expense has been spared in making our line the last word in metal bed construction. Heavy steel seamless tubing is used which will not open at the joints, disfiguring the enamel and ruining the appearance of the whole bed. Steel angles are used at the head and foot ends making them solid and substantial.

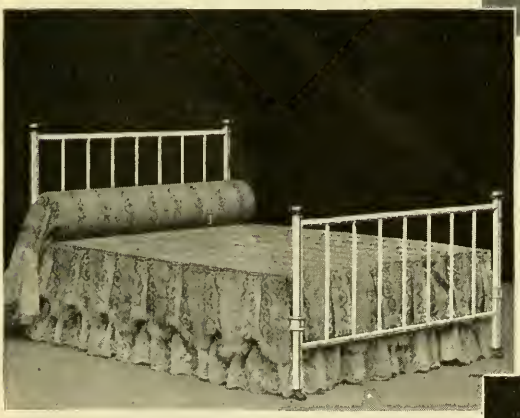
This bed is a plain effect, but very pleasing. Diameter of pillars, 1 1-16 inch; cross rods, ⅝ inch; fillers, 5-16 inch. Height of head, 52 inches; foot, 32 inches. Shipping weight, 78 lbs.

No. 4B-621—Metal Bed, as described **$5.65**

In finishing these beds, we use only the highest grade enamel, three coats being applied with one day allowed for baking each coat, giving a beautiful, lustrous porcelain-like finish. Altho regularly furnished in plain white enamel, they can be supplied in pink, blue and pea green at the same price.

This bed is of the low, Bungalow type, in the plain, smooth effect, and is a very popular number. Diameter of pillars, 1 5-16 inch; cross tubing, 1 inch; fillers, ⅝ inch. Height of head, 43 inches; foot, 31 inches. Shipping weight, 74 lbs.

No. 4B-623—Metal Bed, as described **$7.30**



Another fact worthy of careful consideration, is that all beds are packed in the most careful manner to avoid any possibility of damage in transit. This is an item to which we have given particular attention, as you are insured against the annoyance of unpacking the goods only to find that they are damaged or marred. Also bear in mind that we guarantee safe arrival at destination.

This handsome bed, as well as those shown above can be furnished in the following widths: 3 feet, 3 feet 6 inches; 4 feet, 4 feet 6 inches. Altho the 4½ foot width will always be sent unless otherwise specified. Diameter of pillars, 1½ inches; cross tubing, 1 inch; filler, ⅝ inches. Height of head, 43 inches; foot, 31 inches. Shipping weight, 81 lbs.

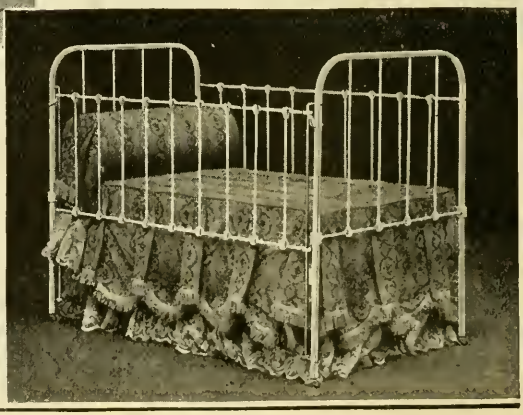
No. 4B-625—Metal Bed, as described **$6.25**

Our Child's Cribs are given the same excellent finish as the larger beds, and this number has proven to be one of the most popular ever placed on the market.

The post and rail connections are malleable iron, while one side can be raised or lowered at will.

By releasing catches, the side drops noiselessly through compressed felt washers, and when raised, locks automatically in place. The safest, most comfortable and durable child's crib made. Size, 2 feet 6 inches wide by 4 feet 6 inches long. Shipping weight, 75 lbs.

No. 4B-627—Child's Crib, as described **$6.10**



"HOMECRAFT" BEDROOM FURNITURE—BEDDING

OUR SLUMBERLAND OUTFIT

Consists of a set of very best full box springs, a mattress and a pair of pillows as described, and can be furnished with either a full hair mattress or a best cotton felt mattress.

THE BOX SPRING has 72 high tempered double cone springs. Each spring is tied eight ways with the best Italian hemp which makes it noiseless. The box spring has a ten pound pure South American hair top, and is covered with the best twill or mercerized art ticking. The frame is made from selected bass wood which makes it light and strong.

THE PILLOWS are selected goose feathers and weigh six pounds per pair. Size, 22x28. The three pieces are all covered in the same pattern and quality of ticking.

SLUMBERLAND OUTFIT, consisting of above described Box Springs and Pillows and best cotton felt mattress.

THE FELT MATTRESS in this outfit is made from a selected grade of unbleached Linters. It is built up layer upon layer of pure cotton felt, and is absolutely guaranteed not to mat or lump or get hard, and to be non-absorbent and vermin proof. It has a French roll edge, is closely stitched and weighs 45 pounds.

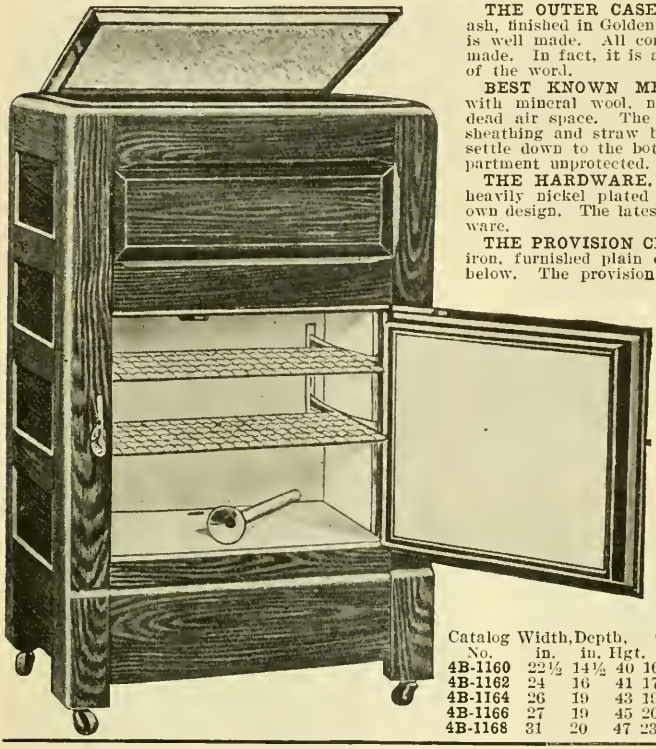
Often time this cot is ordered in 3 ft. 6 inches and 4 ft. widths and the price is.....**$3.15**

"HOMECRAFT" REFRIGERATOR



THE OUTER CASE of this refrigerator is made of solid ash, finished in Golden Oak. The panels are raised. The case is well made. All corners being rounded and all joints well made. In fact, it is a high grade refrigerator in every sense of the word.

BEST KNOWN METHOD OF INSULATING. Insulated with mineral wool, non-conducting sheathing and a double dead air space. The mineral wool is held in place by the sheathing and straw board in such a manner that it cannot settle down to the bottom of the box and leave the ice compartment unprotected.

THE HARDWARE. The trimmings are all solid bronze, heavily nickel plated and highly polished. Made after our own design. The latest improved pattern of refrigerator hardware.

THE PROVISION CHAMBER is lined with heavy galvanized iron, furnished plain or white enameled as per price quoted below. The provision chambers are all large and well proportioned. Shelves are all adjustable or removable, thus this chamber is easily cleaned.

THE ICE COMPARTMENT is fitted with an inner lining which can be removed for the purpose of cleaning. An all metal cushion ice chamber support insures a long life. The lid is supplied with a patent lid support and fitted with patent waste trap or syphon. Ice racks are galvanized steel bars riveted together.

THE SHELVES. The refrigerators are supplied with patented woven wire shelves. These being made of heavy steel wire, electrically welded at the intersections and heavily tinned. They are adjustable.

AN INEXPENSIVE HOMECRAFT REFRIGERATOR

AN INEXPENSIVE REFRIGERATOR, made of Ash thruout with Golden Oak finish and solid brass trimmings. The case is well made, in fact, the same workmanship, care and careful inspection are given this, as our most expensive refrigerator.

While most of our refrigerators can be furnished with rear icing arrangement, this one cannot be furnished in that way, this on account of the top icing.

THE INSULATING consists of a dead air space between the two walls lined with non-conducting sheathing.

THE LINING consist of galvanized iron plain or white enameled in the provision chamber, and galvanized iron in the ice compartment.

THE ICE CAPACITY is figured on the basis of the weight of a piece of ice of the same dimensions of the ice compartment, with 25% deducted from this to allow for difference in the shape of a piece of ice.

Furnished with Rear Icing Arrangement To Do Away with the Necessity of the Ice Being Carried Thru the Kitchen if so Desired at an Additional Cost of only

$3.50

Full Particulars of This Arrangement Are Given at the Bottom of This Page

CONSTRUCTION. All "Homecraft" refrigerators are constructed with an inside case of odorless and tasteless lumber, matched and clamped together, well nailed and glued, and fastened to hardwood cleats, making a thoroughly air-tight strong cabinet in itself, and making it one of the strongest and most durable refrigerators ever built.

FINISH. They are finished in three coats of the best quality of filler and water-proof varnish, giving them a gloss finish that looks well and one that will wear. The inside construction is neat and sanitary, containing many features covered by patents. These add much to the convenience of the user.

THE PROVISION CHAMBER is made of Galvanized Iron, furnished plain or white enameled, and the large size in white porcelain enamel.

THE SHELVES are woven wire with a heavy steel frame. They are heavily tinned and make a strong, sanitary shelf.

MEASUREMENTS FOR REAR ICING ARRANGEMENTS FOR ALADDIN REFRIGERATORS

The following measurements apply to the refrigerator and not to the opening in the wall. You must bear in mind that opening in the wall should be about two inches larger each way than the first two measurements given.

Caution: Be sure that you do not make the opening so high that it will leave an open spot above the top of refrigerator.

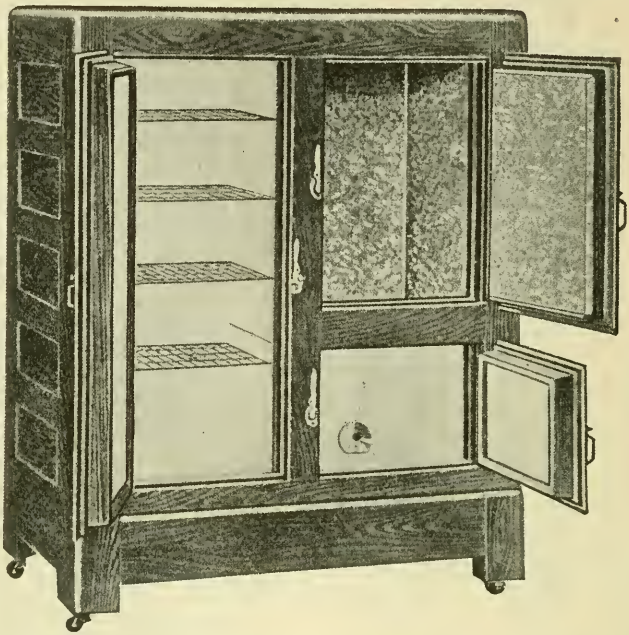
"HOMECRAFT" TABLE-TOP, SIDE-ICING REFRIGERATOR

Made for Rear Icing When So Ordered

Galvanized Iron, White Enamel or Porcelain Lining.



Solid Oak Case, Bronze Hardware, Nickel Plated.

Round Corners, Table-Top, Insulation The Best.

$16.70 FOR THIS LARGE SIDE-ICING "HOMECRAFT" REFRIGERATOR

THE CASE is made of solid oak, inside case of odorless and tasteless lumber, matched and clamped together, well nailed and glued, and fastened to oak cleat. The outside case, made of oak, is nailed and glued to the cleats which bind the inner case.

THE ICE CHAMBER is lined with heavy galvanized iron and is equipped with a cushion frame, thus insuring a long life.

THE PROVISION CHAMBERS are down one side and below the ice chamber. They are large and roomy, and we believe our porcelain enamel lined refrigerators are the best ever offered regardless of price.

THE FINISH is obtained by applying a coating of liquid wood filler. This in turn is finished with three coats of water proof varnish. The inside finish is neat and sanitary, containing many features covered by patent.

THE SHELVES are made of heavy woven wire with a strong steel frame, all heavily coated with tin, thus making a strong, odorless, non-corrosive shelf.

THE HARDWARE is of the latest and most approved type, easily operated with one hand, and a positive gravity catch. Made of solid bronze heavily nickel plated.

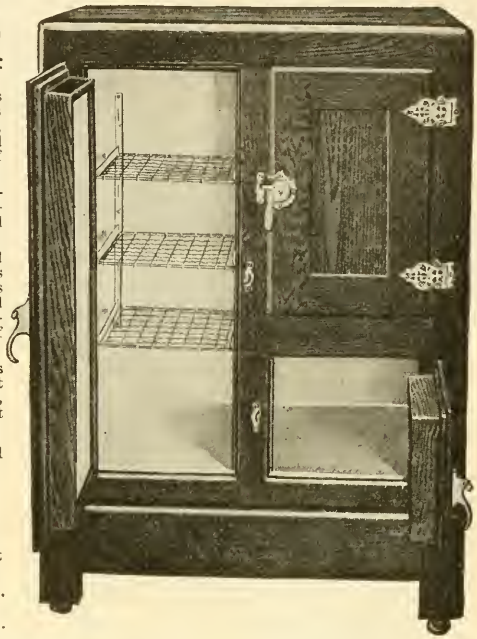
The rear icing arrangement which is explained in detail on the preceding page, can also be furnished with any refrigerator shown on this page. This is absolutely the nicest way of handling the refrigerator, as you entirely eliminate the necessity of the ice man tracking dirt and water through the kitchen. The cost is very nominal. Any refrigerator shown with rear icing doors, for, additional to the quoted price..... **$3.50**

"HOMECRAFT" REFRIGERATORS

THE MOST POPULAR STYLE REFRIGERATOR ON THE MARKET 14.65



In this we show a refrigerator, the type of which has become very popular. The same general construction as is used in our higher priced refrigerators is carried out in this, that is, the same high grade finish, the same hardware and the same care in insulating. The material, however, of which they are made is Ash.

THE PROVISION CHAMBERS in each of these refrigerators are built along one side and beneath the Ice Compartment, thus insuring the highest amount of good derived from every pound of ice consumed.

THE ICE COMPARTMENT is lined with heavy galvanized iron, is well insulated and the cushion frame on which this lining is supported insures a long life. The ice capacity is based on the weight of a piece of ice of the same general dimensions as the ice compartment. From this 25% is deducted to allow for difference in the shape of the pieces of ice which you may get.

REAR ICING ARRANGEMENT can be furnished for this refrigerator at an extra cost of $3.50. Bear in mind that when you have a rear icing arrangement opening outdoors, that for practically 6 months of the year you can leave that door open and thus save buying any ice.

Catalog No.	Width	Depth	Height	Enamel Lined	Galvanized Lined

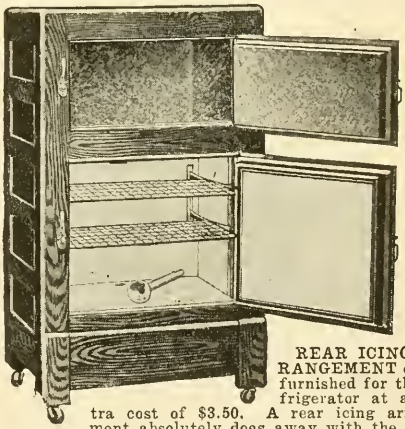
This refrigerator can be fitted with rear Icing arrangement at an additional charge of $3.50. Write for measurements.

POPULAR FRONT OPENER



REAR ICING ARRANGEMENT can be furnished for this refrigerator at an extra cost of $3.50. A rear icing arrangement absolutely does away with the necessity of purchasing ice for about 6 months of the year.

A large sized open front Refrigerator, popular because of the ease with which it can be filled and more popular on account of the price.

THE OUTER CASE is made of selected Ash, well made and beautifully finished in Golden Oak.

THE ICE COMPARTMENT is large, being 23 inches wide, 15 inches deep and 14½ inches high, lined with heavy galvanized iron, supported on a cushion frame.

THE PROVISION CHAMBER is 26¼ inches wide, 15 inches deep and 18½ inches high and can be furnished with either galvanized or enameled lining.

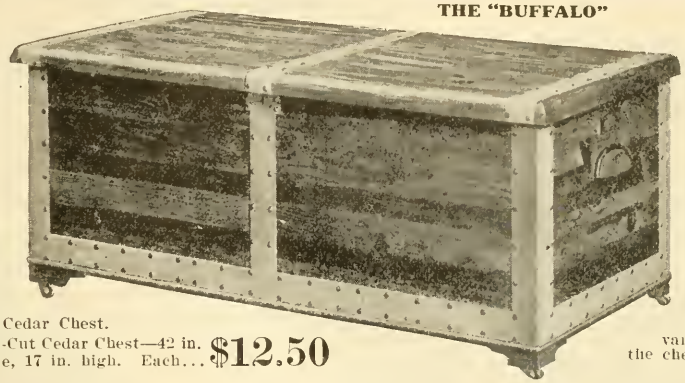
READI-CUT RED CEDAR CHESTS

THE "BUFFALO"

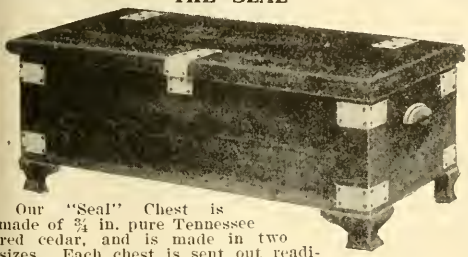


This Chest is made of pure Red Cedar. Every part cut to length, with exposed ends sanded and finished. The projecting top and bottom are rounded on the edges. Ornamental legs as shown planed, sanded and glued up, ready to attach with screws which we furnish. The saving in freight will make you a big saving by buying a Readi-Cut Red Cedar Chest.

With this chest we also send a chest lock with key, a set of roller bearing casters, the ornamental brass straps with nails, to be used in attaching same, also the screws and nails for construction as well as steel corner braces to be used inside the chest as a reinforcement. We also furnish one pint of liquid wood filler and one pint of luster varnish for finishing the chest.

No. 2B-975—Readi-Cut Cedar Chest—42 in. long, 20 in. wide, 17 in. high. Each... **$12.50**

THE "SEAL"



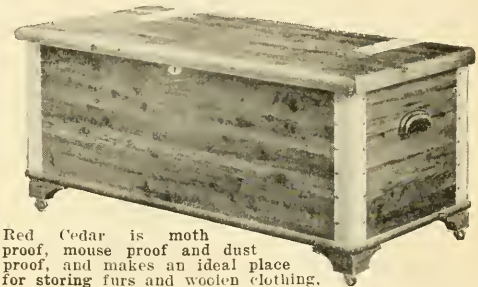
Our "Seal" Chest is made of ¾ in. pure Tennessee red cedar, and is made in two sizes. Each chest is sent out readi-cut to set up with all trimmings as shown.

The trimmings consist of all genuine copper corners, etc., as shown, with large headed "Colonial" nails for attaching them. Hinges, lid stays, brass lock, all nails and screws, casters and sufficient filler and varnish for finishing two coats.

No. 2B-1410—Seal Readi-cut Red Cedar Chest, 40 in. long, 18 in. wide, 17½ in. high..... **$9.80**

No. 2B-1411—Seal Readi-cut Red Cedar Chest, 45 in. long, 21 in. wide, 21 in. high..... **$13.75**

THE "BEAVER"



Red Cedar is moth proof, mouse proof and dust proof, and makes an ideal place for storing furs and woolen clothing, blankets, underwear, hats and plumes, in fact, anything that you value. These chests will retain their natural odor and natural color a lifetime, and as there is no deterioration, it is hard to tell how long a Red Cedar Chest will last. We furnish the chest complete with all trimmings. All exposed edges are sanded, the legs glued up, and in addition to this, we furnish a set of roller bearing casters, a chest lock and key, together with the liquid wood filler and varnish for giving the chest a piano finish. Readi-Cut in such a way that any man can put it together. The knock-down feature saves considerable in original cost as well as freight.

No. 2B-977—Readi-cut Cedar Chest, 42 in. long, 20 in. wide, 18 in. high. Each **$11.90**

THE "FOX"

This chest, like all "Aladdin" red cedar chests, is sent out readi-cut in such a way that anyone can set it up. It is one of the best proportioned chests we have, and the ornamental feet add greatly to its appearance. The general dimensions are such as to make a well proportioned and very convenient chest, same being 43 in. long, 18½ in. wide by 18 in. high; height, including casters. It is trimmed throughout with genuine copper, and each chest is equipped with a brass lock, set of casters, lid stay, hinges and cedar handles. The trimmings furnished are exactly as shown in our catalog, ready to be applied. We furnish with each chest, sufficient liquid wood filler and varnish for two coats. Every cedar chest furnished by us is sent out under our binding guarantee of satisfaction assured or money returned.

No. 4B-1402—"Aladdin" Readi-cut Red Cedar Chest, as described..... **$12.10**

THE "WOLF"

A most attractive Tennessee red cedar chest is shown in this number. This has probably been the biggest selling pattern of cedar chests ever offered. The chest is 45 inches long, 22 inches wide and 21 inches high. Is an exceptionally large and extremely attractive chest. It is trimmed in genuine copper as shown in the cut. With each chest, we furnish a brass lock and escutcheon, lid stay, all hinges, casters, in fact all trimmings as shown. In addition to this, we furnish sufficient liquid wood filler and varnish for a two coat finish.

No. 4B-1404—Readi-cut **$14.75**

Any chest shown on this page furnished set up with all trimmings on and finished with three coats of varnish $2.50 extra.

PLATE GLASS MIRROR DOORS

YOU CAN MAKE A MIRROR DOOR OUT OF ANY DOOR IN YOUR HOME

A MIRROR DOOR for any home can be made at a very nominal expense with this outfit. If you own your own home, you should have at least one mirror door. **If you rent a home,** you can have a mirror door and take it with you when you move. Removing the mirror from the door leaves no trace aside from the screw holes.

THE OUTFIT which we furnish enables you to take any ordinary door which you have in your home and make a beautiful mirror door, and consists of a fine **French plate glass mirror** moulding strip and round head brass screws for attaching same to door.

INSTRUCTIONS. First take the door off the hinges and lay it flat on the floor or on horses, take thin strips and place evenly on the door and lay the mirror on top, then place the moulding around the edge and screw it down firmly. **Anyone can, with the mirror and fittings** which we furnish, make a mirror door from any door in the house in 25 minutes.

"ALADDIN" BATHROOM MIRROR

A LUXURY FOR ANY HOME
A REAL LUXURY AT A REALLY LOW PRICE

QUALITY OF GLASS. The glass for this mirror is the very **best quality French plate,** the same grade that is used for our mirror doors, the same glass being used in the most elegantly appointed **hotels and private residences.** It is notable for being thick, strong, and for its transparency.

POLISHED AND BEVELED. The whole surface of this glass is given an **extra grinding and polishing,** to insure a perfectly level surface, so necessary for the best mirror effects. The result is that perfect reflection, which is the **delightful quality of high grade mirrors.**

The beveling is done in such a manner as to heighten the appearance, is an inch in width, and the edge of the glass is **also ground and polished.**

The mirror is **attached to the wall** with round head nickel plated screws, **holes being drilled in the** glass for this purpose.

The mirror is triple coated with silvering, making an extra thick, strong, wear-resisting reflecting surface.

It is sanitary, as it has no frame to collect and hold dirt and moisture, it can always be kept thoroughly clean. **Every part of its surface can be reached and washed.**

SHELF AND BRACKET. We supply with each mirror, **a glass shelf and nickel plated brackets for supporting same.** The shelf is 5 inches wide and 26 inches long; the mirror, 22 inches wide and 28 inches long. Thus you will note, that the shelf **extends two inches each way beyond the mirror.**

Furnished complete with nickel plated brackets and all screws, ready to put up.

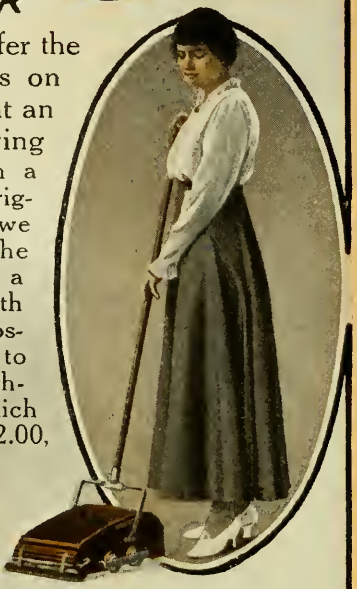
SOVEREIGN VACUUM SWEEPER $3.75

A COMBINED VACUUM CLEANER AND CARPET SWEEPER



IN our Sovereign Vacuum Sweeper we offer the very best bargain in high class sweepers on the market. A most practical machine at an extremely low price. When we started buying vacuum sweepers and reduced the price on a standard made machine from $12.00 (the original price) to $6.75, we considered that we were doing a pioneer work in lessening the cost of an article which was to become a universal household necessity. Then with placing larger contracts, we found it possible to reduce the price to $5.40, then to $4.50; and now we offer the same high-grade standard made sweeper, which less than two years ago sold for $12.00, for only $3.75.

This machine carries our binding guarantee of *"Satisfaction or your money back."* We assume all of the risk. You must be satisfied with your purchase. Send your orders early, advise when and where you wish the Sweeper sent, and we will make shipment accordingly.

The case is finished in mahogany, equipped with a double bellows and heavy brush. Price is F.O.B. our shipping point.

3W-92 Sovereign Vacuum Sweeper $3.75

"Homecraft" Kitchen Cabinet $17.60

Thirty Reasons why we say this truly is our leader

3C-1712—Candle bracket, $6.50. A handsome candle bracket with cast brass back plate, ¾ in. oval tube arms and two candle lights, wired solid with candle sockets and white enamel candles. Spread 7 in. and finished in Brushed Brass and Black.

Complete Plumbing Outfit $182.50

This Outfit is Complete for an Ordinary Home

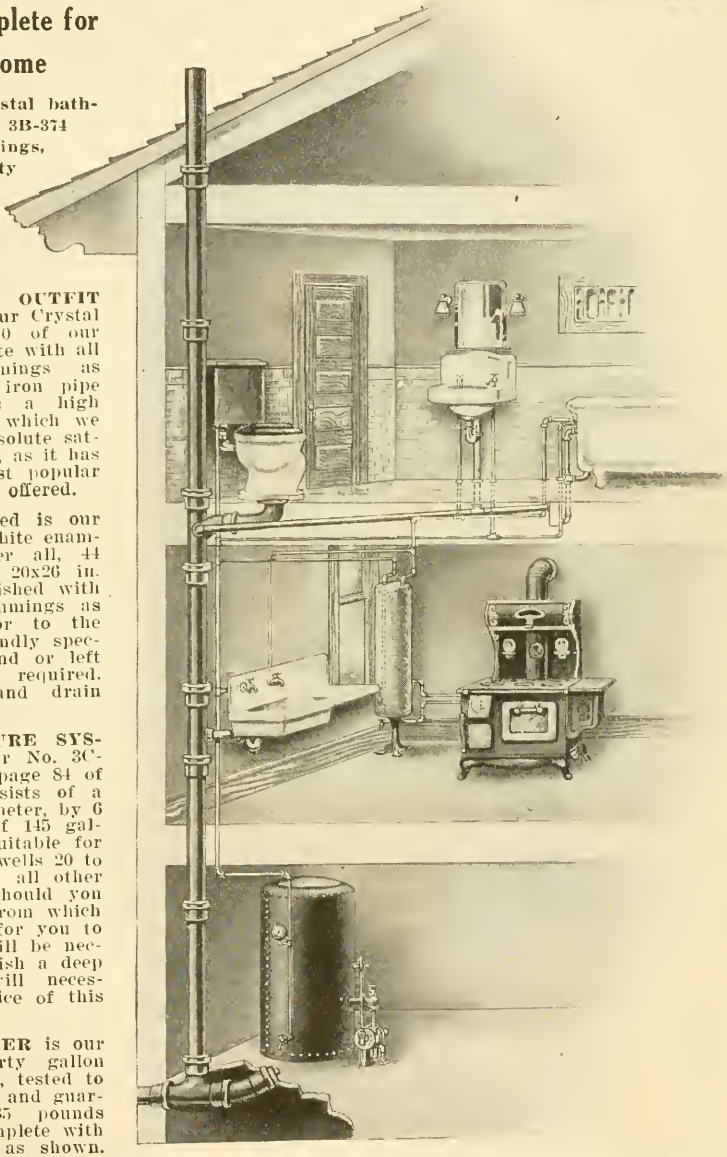
Consisting of our Crystal bathroom outfit, one No. 3B-374 Sink with all trimmings, as shown, one thirty gallon range boiler, one No. 3C-450 air pressure system and all pipe fittings as shown.

THE BATHROOM OUTFIT which we furnish is our Crystal described on page 70 of our catalog, and is complete with all nickel plated trimmings as shown, threaded for iron pipe connections. This is a high grade outfit and one which we feel sure will give absolute satisfaction in every case, as it has proven to be the most popular outfit which we have offered.

THE SINK furnished is our No. 3B-374 roll rim white enamel sink; length over all, 44 inches; size of sink, 20x26 in. The same being furnished with all nickel plated trimmings as shown, to the wall or to the floor. In ordering, kindly specify whether right hand or left hand drain board is required. Cut shows right hand drain board.

THE AIR PRESSURE SYSTEM furnished is our No. 3C-450, as described on page 84 of this catalog and consists of a tank 24 inches in diameter, by 6 ft. with a capacity of 145 gallons, with a pump suitable for pumping water from wells 20 to 25 ft. deep, and with all other fittings as shown. Should you have a deeper well, from which it will be necessary for you to take this water, it will be necessary for us to furnish a deep well outfit which will necessarily add to the price of this outfit.

THE RANGE BOILER is our number 3B-1122, thirty gallon standard range boiler, tested to a 200 pound pressure, and guaranteed to stand 85 pounds working pressure, complete with stand and couplings as shown.



Pipe Fittings.

In addition to the above, we furnish all roughing in material as shown. This includes soil pipe and soil pipe fittings, iron pipe for hot and cold water supply. In fact everything required to install this entire plumbing system with water works system in a building from ground line to the roof.

Blue Prints.

An extremely simple set of blue prints is furnished with each outfit with the aid of which any ordinary mechanic can install one of our plumbing outfits.

All fixtures are furnished threaded for iron pipe to the wall. However, connections to the floor can be furnished at the same price. Every fitting is guaranteed to be exactly as described in the catalog. Soil pipe furnished is standard weight and the outfit is guaranteed to be absolutely sanitary in every way.

The kitchen range and water front are not furnished with this outfit at the prices quoted.

Order by catalog number and send a sketch of your home, giving full dimensions with your order, to enable us to draw a set of blue prints to meet your particular requirements.

3C-19—Complete outfit as described..... **$182.50**

MODERN PLUMBING at MODERATE PRICES

We show on the following pages a complete line of the most popular sanitary plumbing material, for houses and bungalows. We show and quote all of these fixtures complete with nickel plated supply pipes, fittings, etc. That is all trimmings to the floor, but we do not show the pipes and fittings either for water or waste pipes. We can, however, furnish all pipe and pipe fittings for water supply, as well as brass goods of all kinds and soil pipe, both standard and extra heavy. In addition to this, we send blue prints showing you exactly where each piece of pipe and each fitting is to go. With the aid of this, any man with ordinary mechanical ability can install his own plumbing system. All of our bath room fittings can be furnished with supply and waste pipes threaded for iron pipe, but if you expect to have a plumber install the system for you, we furnish them with connections for lead pipe.

REGARDING QUALITIES. All plumbing material shown in our catalog is "A" grade in every respect and guaranteed to be such. We give you the privilege of returning any item not exactly as described by us, and will **promptly refund full purchase price,** together with any freight you may have paid, upon receipt of a Bill of Lading showing that you have returned such articles.

REGARDING FREIGHT CHARGES. Upon request, we will gladly name freight prepaid prices on any items which you may need. Although you actually save nothing in this way, it may be some satisfaction to you to know just what any article will cost laid down at your station.

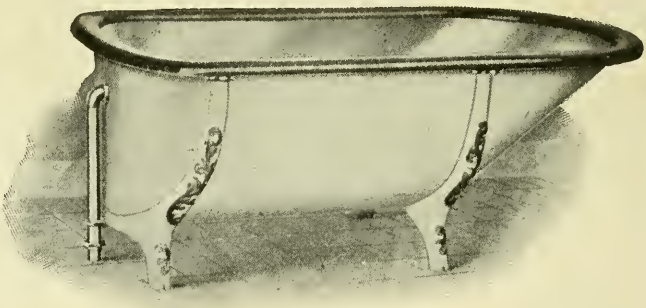
If you desire plumbing material for any of our house designs, we will gladly name you a price on roughing in material to do the job, and we will send you suggestions for the placing of different fixtures to the best advantage. If you wish the fixtures for a house other than is shown by us, kindly send us a diagram of the home showing all openings and give measurements and we will be glad to quote you delivered price on enough material for roughing in your bath room fixtures.

ENAMELED STEEL BATH TUB

STEEL ENAMELED

Outside Finished in Sky Blue Ornamented with Bronze

Inside Finished with White Enamel Baked on Oak Rim



OUR PRICE

$6.40

REGULAR PRICE

$10.00

We invite your special attention to our Enameled Steel Bath Tub, and the many distinctive features in which we claim its superiority. The shell is made of 24-gauge galvanized open hearth steel enameled by a process which is particularly our own.

The rims are three inches wide and made of full 1¼-inch Superior Oak lumber, thoroughly seasoned and kiln dried. The joints being fitted together with Spiral Grooved Hickory dowels. Therefore no unsightly glued joints, and we absolutely guarantee our rims against springing apart.

The overflow is constructed entirely of brass and resembles the overflow usually found on heavy, cast iron, porcelain lined tubs, in that it has a slip joint nut for attaching the waste to the overflow. Thus doing away with a soldered joint. All parts are heavily nickeled and highly polished.

Finished in White Enamel on the inside. Nicely painted in sky blue on the outside, and the raised ornaments in the castings are tinted with bronze. This is a very desirable tub for summer cottages or a small home. The tubs are fitted for No. 4½ Fuller bath cock, but these are not furnished at the prices quoted below. Fitted for iron pipe connections.

3B-100—4	ft.	6	in.	long;	weight, 88	pounds.	Each $6.40
3B-102—5	ft.	0	in.	long;	weight, 90	pounds.	Each 6.85
3B-104—5	ft.	6	in.	long;	weight, 92	pounds.	Each 7.05
3B-106—6	ft.	0	in.	long;	weight, 95	pounds.	Each 7.95

We will furnish a No. 4½ Fuller Bath Cock for above tub for **$2.20 extra.**

MODERN BATHROOM FIXTURES
OUR "GENIE" GROUP $44.50

Showing a Bathroom Arranged With One of Our Three-Piece "Genie" Outfits

For those who wish an outfit with a smaller tub and a less expensive lavatory, than is shown in our Crystal Outfit, we offer this, our "Genie" group. The component parts are the best that can be purchased. The porcelain enameled tub and lavatory being of what is known as **"Five year Guarantee"** ware, and the closet of the best vitreous china with an oak tank. We do not furnish the towel bar, sponge cup, medicine chest or other accessories with this outfit, but do furnish all faucets, supply pipes, etc., as shown. The outfit is shipped direct from the factory near Chicago. All pieces are well crated and guaranteed to reach our customers in perfect condition.

THE TUB is 4½ feet long with a 3-in. roll rim, is made of the best grade of cast iron and is lined with genuine white porcelain enamel. It is equipped with a 4½ Fuller bath cock, a nickel plated connected waste and overflow and two nickel plated supply pipes. The tub is guaranteed to be "A" grade and perfect in every way. Complete with all fittings to the floor.

THE LAVATORY is 21 in. wide, 18 in. from front to back, has a back 8 in. high and a roll rim. Is made of the very best cast iron, coated with pure White Porcelain Enamel. The trimmings are two low down lavatory faucets, two nickel plated supply pipes and one nickel plated trap. These supply pipes and trap are all furnished to the wall. Guaranteed for five years.

THE CLOSET is of the Syphon wash down type. Equipped with a highly polished tank, finished in Oak or Mahogany and lined with copper, with a push lever flush valve, and has a rubber ball valve. The bowl is of vitreous porcelain ware. The closet is complete with nickel plated supply pipe and a nickel plated elbow. In fact, all fittings to the floor.

In order that you may have a better description of this outfit, we call your attention to the fact that the outfit consists of Tub No. 3A-160, Lavatory No. 3A-265 and Closet No. 3A-200, all of these being described on the following pages of our catalog.

OUR GUARANTEE. This outfit is guaranteed to be exactly as described above, and to reach you in a perfect condition, and if otherwise, we will, upon receipt of expense bill, showing that it was damaged when it reached you, ship other pieces to replace or refund full purchase price.

No. 3B-301—

Our "Genie" Bathroom Outfit, as described, with waste and supply to wall, weight 450 pounds **$44.50**

Same Outfit with waste and supply to floor $45.50

WITH IRON PIPE CONNECTION ON ALL PIPES, $1.00 EXTRA.

MODERN BATHROOM OUTFITS
OUR "CRYSTAL" OUTFIT for $45.95

This Shows a Bathroom Arranged With One of Our Three-Piece Crystal Bathroom Outfits

THE OUTFIT. A five-foot porcelain lined cast iron bath tub, porcelain lined lavatory with five-inch apron and a Syphon wash down closet combination, constitutes this outfit. **Each piece being fitted with nickel plated trimmings** to the wall, and every article is guaranteed to be "A" Grade and perfect in every respect.

THE TUB is 5 ft. cast iron, made on roomy, **graceful lines** with a 3-in. roll rim. It is white porcelain enamel lined. Is fitted with a nickel plated connected waste and overflow. No. 4½ Fuller Bath Cocks for hot and cold water and a pair of nickel plated supply pipes. In fact, **all fittings to the floor.** The tub is guaranteed to be "A" Grade, and all fittings are heavily nickel plated and highly polished.

THE LAVATORY is 18x21 in., cast iron, **white porcelain enamel lined.** Has an 8-in. back with double-wave top and a 5-in. apron. The bowl proper is "D" pattern, 10x14 in. The fittings are all **heavily nickel plated** and are the very best obtainable. They consist of two brass nickel plated compression basin cocks, **with china tops,** one marked "hot" and the other marked "cold;" one nickel plated trap with waste to the wall and two brass nickel plated supply pipes to the wall, a very attractive appearing lavatory.

THE CLOSET has a highly polished oak tank and seat, tank being fitted with push lever flush valve and has a rubber ball valve. The bowl is **vitreous porcelain** ware of the Syphon action wash down style. All trimmings, including nickel plated supply pipes and nickel plated elbow and screws, are furnished. The outfit, in all, is one which would sell regularly at about $65. We furnish **everything complete to the wall** as described. If you wish pipe, fittings, etc., with which to install this, send us a diagram of your house, giving all measurements, and we will be pleased to quote you.

It would be impossible for us to get a photograph of a bathroom in which the arrangement would be just right to show each fixture in this outfit in such a way as to convey to you how really good an outfit we are offering.

For your information, we call your attention to the fact that this outfit consists of our **Tub No. 3A-162**, with fittings as described on the following pages. **Closet No. 3A-200** finished in either Golden Oak or Mahogany. Golden Oak is always sent, unless otherwise specified. **Lavatory No. 3A-262.**

You will find all of this material described on the following pages of this catalog, and with this information at hand, you will readily understand how really good an outfit we are offering at this low price.

We consider that in this outfit, which is true **"Aladdin" Quality**, that we are offering you more for your money than it would be possible for you to get elsewhere.

No. 3A-300—Our Crystal Bath Room Outfit, as described; weight about 475 pounds **$45.95**

Same Outfit with waste and supply pipes to floor **$47.10**

Above outfit with all connections threaded for iron pipe, $1.00 additional.

MODERN BATHROOM FIXTURES
OUR "HOMECRAFT" GROUP $55.25

Showing a Bathroom Arranged with Our "Homecraft" Bathroom Outfit

For many reasons this is the most desirable outfit that we show. It is not expensive when compared with ordinary prices. It is not too massive for a small bathroom and is amply large enough for any large bathroom. We furnish with the outfit the tub, with all trimmings to the floor, the lavatory with all trimmings to the wall, and the closet with all trimmings to the floor.

The other trimmings, as shown, are not furnished with the outfit, but are photographed in the cut to show a good bathroom arrangement. The enameled ware (Tub and Lavatory), furnished in this outfit, are "Five year guaranteed" sanitary ware. The closet is the best of its type that can be purchased.

THE TUB is 5 ft. long with a 3 in. roll rim, coated on the inside and over the rim with pure white porcelain enamel. The trimmings consist of a 4½ Fuller bath cock for hot and cold water, a nickel plated connected waste and overflow and two nickel plated supply pipes. The tub is guaranteed to be strictly "A" grade material throughout, and is guaranteed to reach you in perfect condition.

THE LAVATORY is 24 in. wide and 18 in. deep with a double wave front and top. Has a 4 inch apron and a "D" shaped bowl, 11x15 inches. The back is 10 in. high, made of the best cast iron, coated with pure white porcelain enamel. The trimmings consist of two low down china indexed lavatory faucets, one marked "Hot," and the other marked "Cold." Two nickel plated supply pipes to the wall and nickel plated trap to the wall. All bright parts heavily nickeled and highly polished.

THE CLOSET is a vitreous china combination, the tank being solid vitreous china with a double wave front and china push lever. The bowl is of the Syphon wash down type. The seat and cover being finished in either Golden Oak or Mahogany, as desired by our customers. Each outfit furnished with nickel plated elbow. Safe arrival guaranteed.

THE OUTFIT is more clearly described on other pages. Each individual piece being described under the following numbers, Tub No. 3A-162, Lavatory No. 3A-256, and Closet No. 3A-202.

OUR GUARANTEE. This outfit is guaranteed to be exactly as described above, and to reach you in a perfect condition, and if otherwise, we will, upon receipt of expense bill, showing that it was damaged when it reached you, ship other pieces to replace or refund full purchase price.

No. 3B-303—"Homecraft" Bath Room Outfit as described **$55.25**

Same Outfit with trap and supply pipes to floor $56.75

MODERN BATHROOM OUTFITS
OUR "SOVEREIGN" GROUP $78.50

Showing A Bathroom Equipped with One of Our Sovereign Bathroom Outfits
Each Article In This Outfit Is Guaranteed to Be of Especially High Quality

THE OUTFIT. This outfit consists of a cast iron **bath tub on a base, a pedestal lavatory** and a **Syphon Jet closet combination,** all selected with greatest care and furnished complete with all fittings, and an outfit worthy of a place in the very best of homes.

THE TUB is five feet long, cast iron, white porcelain, enamel lined, **standing on a solid cast iron base** fastened to the floor, instead of legs, thus preventing dust and dirt collecting under the tub. The trimmings are all furnished and consist of a china indexed **standing waste and overflow.** Combination bath cocks and two nickel plated supply pipes all heavily nickeled and highly polished. Painted on the outside. Porcelain enameled inside.

THE LAVATORY is white, a porcelain enamel pedestal lavatory, as shown on page 74, **complete with all fittings** as described. Waste and supply pipes to the wall, a massive white enamel lavatory, worthy of a place in any home, no matter how large or beautiful.

THE CLOSET is equipped with a vitreous earthenware tank, which cannot leak or become separated, as there are no joints in it. The bowl is **Syphon Jet action** with a wooden seat, and cover finished in mahogany or oak. Equipped with all fittings. **Brass nickel plated** supply pipes and elbows. The combination is in all, a **massive appearing, beautiful designed** outfit, guaranteed to give perfect satisfaction to any one who may purchase it. The prices quoted are for the outfit as described, complete with all nickel plated faucets, traps and supply pipes to the wall.

This outfit has been very popular and will continue to be so, as great care is taken to have every piece perfect in every detail. We can furnish "roughing in" material such as soil and supply pipe and fittings for our bathroom outfits, and if you will send us a diagram of your house we will gladly quote you a price on material necessary to install a bathroom outfit.

OUR GUARANTEE. We guarantee each piece of this outfit to be exactly as described by us in every way, and if found otherwise you may return to us and we will refund full purchase price, together with any freight which you may have paid.

No. 3A-302—Sovereign Bathroom Outfit, complete as described; weight 550 pounds **$78.50**

Same Outfit with trap and supply pipes to floor **$79.75**

Above Outfit with All Connections Threaded for Iron Pipe, $1.00 Additional.

PORCELAIN ENAMELED BATH TUBS

3 INCH ROLL RIM CAST IRON

In our Porcelain enameled Cast Iron bath tubs, we have carried out our principle of highest quality and best values. We offer here a 3 inch roll rim tub, which is worth fully twice what we ask for it, and would cost practically that if purchased in the regular way.

Each tub before enameling is inspected for flaws in the castings. Then after each coat of enamel, each tub is inspected again and we absolutely guarantee that every tub is strictly "A" grade and is free from flaws or chips in the enamel. This tub is nicely painted on the outside.

The dimensions of the tub are as follows: Height over all (on legs) 23 inches. Depth inside 17 inches. Width over all 30 inches. Crated in a substantial manner which eliminates danger of breaking in transit.

Price for tub only without fittings:

3B-150—4½	ft. long,	Weight 275 lbs.,	Price...$15.75
3B-152—5	ft. long,	Weight 300 lbs.,	Price... 16.25

3B-166—6	ft. long,	Weight 425 lbs.,	Price... 29.80

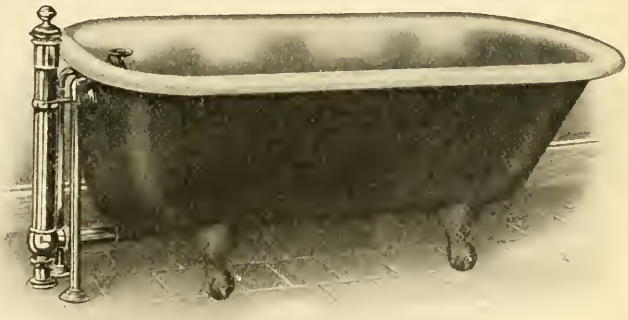
All of our tubs are strictly "A" Grade and guaranteed.

WITH STANDING WASTE AND OVERFLOW

3 INCH ROLL RIM CAST IRON, FITTINGS AS SHOWN

The standing waste fittings as shown here do away entirely with the old rubber plug. The waste being controlled at the top of this standing fixture. The tub is heavy Cast Iron White Porcelain Enameled, and is equal to any tub you can buy no matter what the price.

The fixtures are of a massive design, giving the tub a rich appearance. We cannot praise this tub too highly as we know that any person buying one will be satisfied in every way. The tub is "A" grade, strictly guaranteed in every way. The enamel is pure white without a Chip or Craze of any kind. The fixtures are of a heavy design. Nickel plated on copper. In all, it is a perfect tub and one of which anyone might be justly proud.



Price for tub only, without fixtures:

3B-170—4½	ft. Tub,	Weight 285 lbs.,	Price....$15.75

WITH CAST IRON BASE AND STANDING WASTE AND OVERFLOW

3 INCH ROLL RIM CAST IRON, IRON BASE AND FITTINGS AS SHOWN

First Grade Enamel Bath Tub on Cast Iron Base. The tub has a full 3 inch Roll Rim. White Enamel Lined and painted on the outside. We show the tub with a standing waste and overflow same as tub No. 3A-170. To empty the tub with this fixture, pull up the knob of the standing waste and the water will run out of the waste pipe. If so desired, we can furnish this tub with fixtures the same as those shown with tub No. 3A-150, that is, with the Common connected waste and overflow in place of the standing waste and overflow. In either case, we furnish all full Nickel Plated fixtures to the floor.

For tub with standing waste and overflow as shown.

4-inch Apron

DOUBLE DRAIN BOARD ONE PIECE SINK

PORCELAIN ENAMELED ROLL RIM SINK with apron. Back and two drain boards, all cast in one piece. Supported on adjustable painted legs and concealed wall brackets. Fittings consist of Nickel plated Improved Strainer, ¾-inch Compression Flange Bibbs with China Indexed Handle and 1½-inch "P" Trap. Made in one size only.

No. 3A-385 Entire length, 62 in. Sink 20x26 inches. Each.....$37.75

No. 3A-387—Same as above but with roll rim instead of 4-in. apron. Each..... 28.75

Extra for trap to floor, **40 cents**

PORCELAIN ENAMELED ROLL RIM ONE PIECE SINK with apron, back, drain board, and end piece, all made in one piece, supported on adjustable painted legs. You will note this sink is very similar to sink No. 3A-375, the difference being that the end piece is on the drain board and not on the sink, this giving an opportunity to have the sink occupy the corner but still be far enough from the wall for convenience. Furnished with or without trimmings. Weight, 270 lbs.

Catalog No.	3B-1420	3B-1422	3B-1424
Entire length, in.	44	48	52

Price, less trim.	$25.75	$29.25	$32.10
Price, with trim.	28.00	31.50	34.45

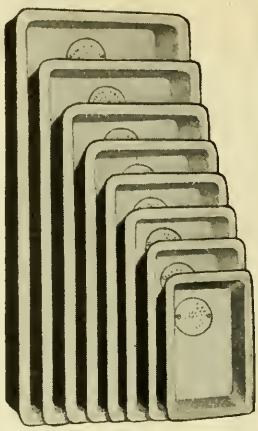
Extra for trap to floor, **40 cents**

With connections threaded for iron pipe, **25c extra.**

If without adjustable legs deduct **$1.00** from above prices.

CAST IRON PORCELAIN ENAMELED WARE

CAST IRON PAINTED AND ENAMELED KITCHEN SINKS



FLAT RIM WHITE ENAMELED SINKS.—We do not claim to have the cheapest white enameled sink in the country, but we do claim that we carry as good a sink as can be bought, no matter what the price. The sink being of cast iron, will never wear out. They are thoroughly **inspected before being painted,** thus a flaw in the casting would be readily discovered. Then they are given several coats of pure white, and then coated on inside and over the rim with **pure white porcelain enamel,** thoroughly baked on, giving the finished product a beautiful glazed surface.

Every sink is **fitted with a nickel plated strainer** and iron sink collar and sink bolts. Collar can also be fitted for 1¼ or 1½ in. iron pipe at an additional cost of 25 cents. Faucets and traps not included.

Catalog No.	Size of Sink	Price, Painted	Price, Enameled
3A-350	18x24	$1.17	$2.90
3A-352	18x30	1.47	3.15

CAST IRON PORCELAIN ENAMELED CLOSET TANK

Low down closet combination, with cast iron white porcelain enameled tank and solid vitreous china bowl.

THE BOWL is perfect in color and workmanship, either Syphon wash down or Syphon Jet as per price given.

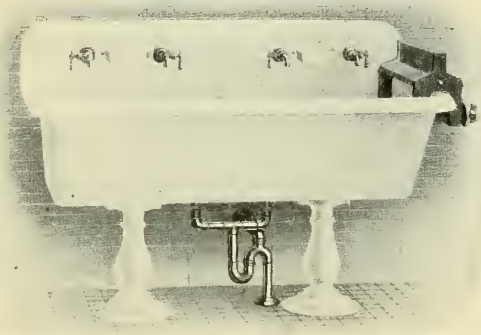
THE TANK is square cornered with a bevel cover made of cast iron, which is heavily coated with white porcelain enamel.

THE SEAT AND COVER are always finished mahogany finish unless otherwise specified, but can be finished golden Oak, if so desired.

No. 3B-3131—Closet combination with wash down bowl **$18.80**

No. 3B-3133—Closet combination with Syphon Jet bowl **24.80**

CAST IRON PORCELAIN ENAMELED LAUNDRY TUBS



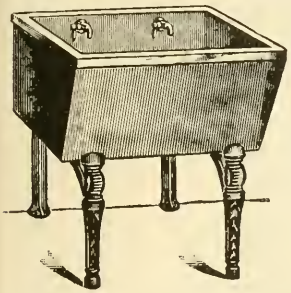
Porcelain enameled cast iron, one piece, roll rim double laundry tubs, on iron standard, fitted with polished nickel plated soap cups, wood wringer holder, brass waste plug with 1½ in. two branch waste pipe, and 1½ in. trap. Size of trays, 53 in. long and 26 in. wide over all. Inside depth, 14¾ in.; height of back, 8 in. Floor to top of rim, 34 in.; with faucets as shown.

No. 3B-3135—Double Laundry Tub, as shown **$46.65**

LAUNDRY TUBS AND COMBINATIONS

Our laundry tubs are made of a combiuation of crushed granite and Portland cement, mixed in such proportions as to make them smooth and at the same time absolutely proof against wear. They are bound with zinc around the outer edges and are furnished complete with legs and we can furnish traps and faucets for them at prices as quoted at the bottom of this page.

The tubs have rounded corners, therefore easy to keep clean and being moulded in one piece, are much stronger than tubs made of stone. As noted below, we can furnish these made either with or without high backs.



ONE COMPARTMENT LAUNDRY TUBS

Without high back. Price does not include faucets.

RANGE BOILERS AND WATER HEATERS

STANDARD AND EXTRA HEAVY RANGE BOILERS

Are tested to 200 pounds pressure, and guaranteed to stand 85 pounds pressure. Range boilers can only be used in homes where there is a constant water pressure, and therefore, must be used in connection with city water works system or air pressure water system. Extra heavy range boilers tested to 250 pounds pressure, and guaranteed to stand a working pressure of 150 pounds. All range boilers quoted complete with stand inside tube and brass coupling.

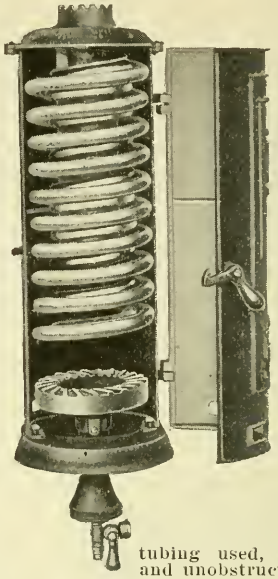
With iron pipe connections, 20c extra.

DOUBLE COPPER COIL. CAST JACKET.



Sampson's double copper coil heater is designed to meet the most exacting requirements.

The whirling burner forces its intense heat directly into the coils.

The especially designed baffle plate distributes the heat evenly to all parts of the coil.

The gravity hinged door is half the jacket—prevents explosions and insures safety. Gravity hinged door makes inside of heater easily accessible. Nothing to wear or burn out in the heater.

Gives splendid service and satisfaction when used in connection with a 30 gallon range boiler.

Nothing but the best seamless copper tubing used, and there is a free and unobstructed waterway.

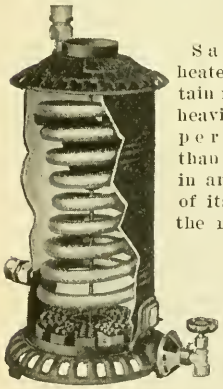
State whether to be used for natural or artificial gas.

Shipping weight, 42 pounds.

4B-1171—As described $8.95

"SAMPSON" WATER HEATERS

SINGLE COPPER COIL. RUSSIA JACKET.



Sampson heaters contain more and heavier copper tubing than is found in any heater of its size on the market.

The coil is of the hour glass type, furnished with suitable deflector, insuring exposure of all the heating surface to the hot gases.

The jacket is asbestos lined, insuring greatest efficiency.

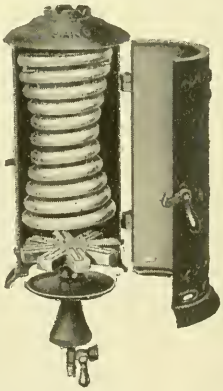
To be used in connection with a 30 gallon range boiler, and it is suitable for the average household.

State whether to be used for natural or artificial gas.

Shipping weight, 22 pounds.

3B-1173—As described....$4.50

SINGLE COPPER COIL. CAST JACKET.



Same as heater 3B-1173 with the exception that it has a cast iron jacket. For compactness and neatness of design and simplicity, this heater is superior to any copper coil heater made.

The castings are fire-japanned and the heater is of the very latest design.

The burner is very powerful and efficient, and very economical.

The heater will give sufficient amount of water for dishes in five minutes, and enough water for a bath in about ten minutes.

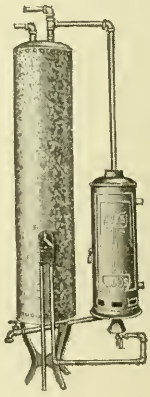
State whether to be used for natural or artificial gas.

Shipping weight, 30 pounds.

3B-1175—As described.....$6.50

THE SAMPSON REGULATOR

Makes Any Water Heater Automatic



It makes any water heater as satisfactory as the most expensive automatic systems.

It attaches directly to your water tank. It keeps the water hot, just at the temperature you indicate on the dial, 24 hours a day. It watches that water heater of yours like an eagle—the instant the water in the tank cools, or the supply is turned on, it turns on the gas supply and puts the heater to work.

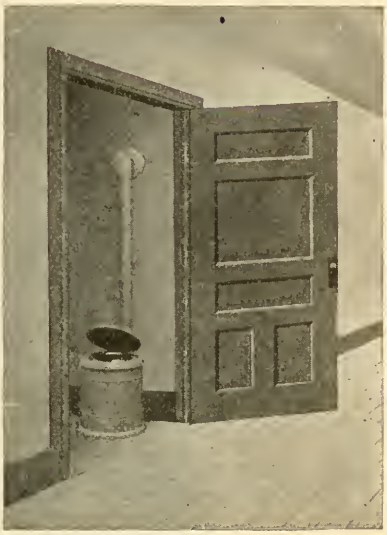
Nothing to get out of order. Easily installed. Does same work as an automatic heater at fraction of cost. Absolutely eliminates all danger of tank overheating and bursting.

Tank connections, 1 inch; Gas connections, ¾ inch or ½ inch. Makes any heater automatic.

3B-1177—Sampson Water Heater $7.90

PEERLESS SANITARY INDOOR CLOSET

PRICE COMPLETE $14.35 With 8 ft. of pipe, elbow, wall collar, toilet paper, paper holder and one gallon of chemical.

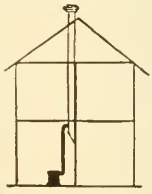


Comfort, convenience and health. For buildings without plumbing—homes, cottages, schools, factories, etc.—the Peerless Indoor Closet is a boon—a constant convenience. It's a comfort for all the family, an absolute necessity for invalids and old people.

Anyone can set it up in 15 minutes. There's nothing displeasing about it. It is handsome in appearance and, remember, **absolutely odorless.** Health Boards everywhere recommend this type of closet where there are no sewer connections. Ask your physician. Thousands of these closets are in successful use. Sold under an ironclad guarantee, we never had one returned to us.

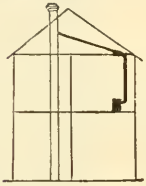
How it works. Two gallons of water are placed in the inner container with a pint of chemical. When used, the closet is Absolutely Odorless. The vent pipe insures pure air. The chemical kills germs, making the closet sanitary in every way. The contents are emptied, say once a month, and may be disposed of anywhere—they are harmless.

The Chemical. This is an important feature. A gallon of chemical will last a family of three for 8 months. Be sure to use Peerless Chemical—we guarantee the success of the closet with this chemical, which is sold to our customers at actual cost, $1.75 per gallon.

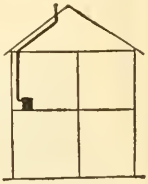


Plan A—Run the vent pipe directly into a chimney or a stove pipe, the former preferred.

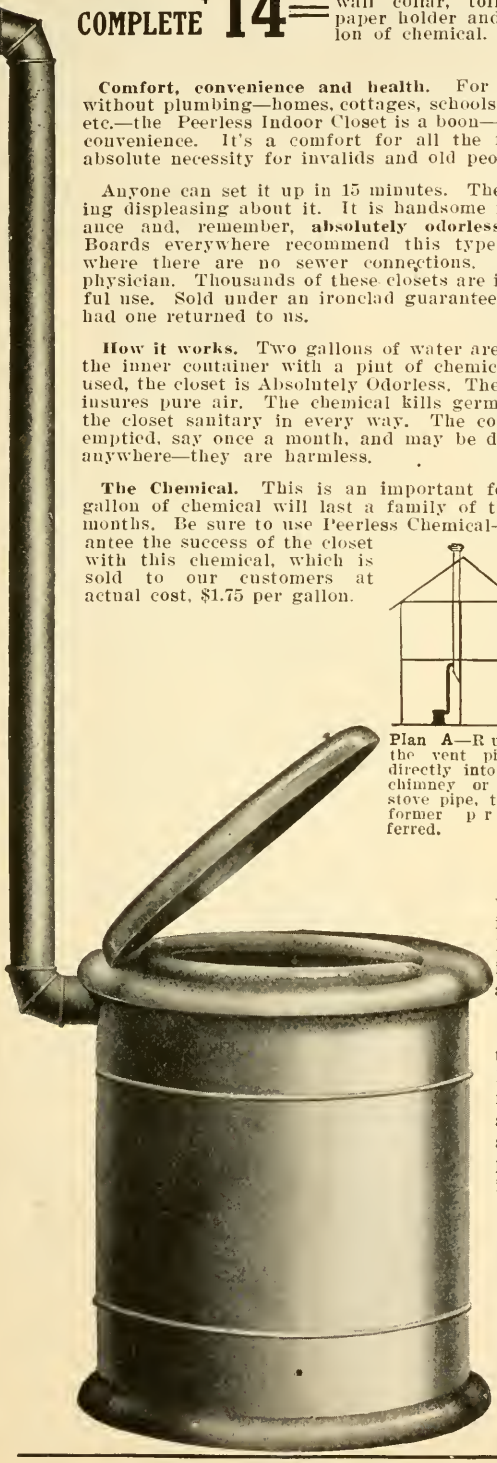
Plan B—Run the vent pipe outdoors through the wall or a window, leading it above roof-line.



Plan C—Run vent pipe through ceiling and then into chimney or into a stove pipe.



Plan D—Run vent pipe through ceiling and then up through roof as shown here.



Eliminate the outdoor privy—it's a cold, inconvenient place in winter, a hot, ill-smelling nuisance in summer and a menace to health the year round. Install, right in your house, a modern, sanitary, indoor chemical closet, recommended by Physicians and Health Officers.

The Peerless Indoor Closet is made of metal throughout. All parts in view are heavily enameled. It will last a lifetime. In setting up, place the fixture in a hall, a spare bedroom, a clothes closet—anywhere. Simply make sure that the vent pipe is arranged to provide good draft. Use any of the four plans shown at the left. Complete diagrams and instructions sent with each closet.

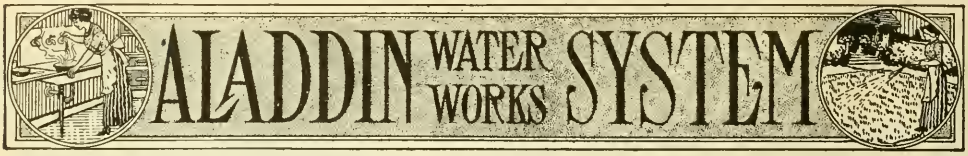
No. 3C-402—"Peerless" Closet, as described with one gallon of chemical, which will last the average family about eight months **$14.35**

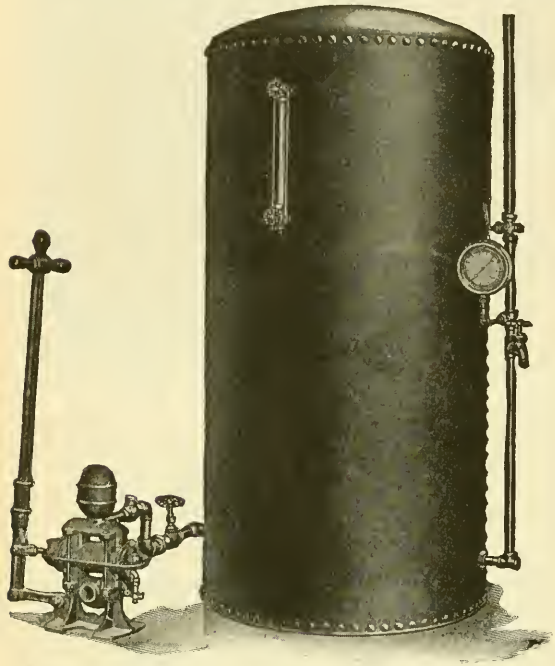
No. 3B-404—3-inch Pipe, per foot **$0.10**

No. 3B-406—3-inch Elbows, each ..... **.35**

No. 3B-408—Flue Stopper with 3-inch collar **.35**

No. 3B-410—Peerless Chemical, per gal. **1.75**





Complete Outfit, Includes Tank, Pump and all Fittings to connect as shown, Price

$56.00

THIS OUTFIT will furnish a supply of fresh aerated water for any residence from a well, cistern, spring or other source where the water level does not exceed 25 vertical feet below the base of the pump. This form of water storage, aside from the fact that it is the most convenient is the most sanitary as any stored water should be subjected to some form of aeration. The most simple method of aeration is represented in these systems as the process is being carried on continuously. The air connection from the pump enters the tank in our pump and the water is thoroughly purified by the air bubbling through it to the top of the tank.

TANK—The Tanks are double riveted throughout, every rivet calked before the tanks are tested. And out of the hundreds of these outfits which we have sold under a binding guarantee of "satisfaction or money refunded" we have never had one complaint.

ACCESSORIES—With each outfit we furnish a pressure gauge, an air gauge, a gate valve, a check valve, stop and waste cock, a hose faucet and the necessary pipe and pipe fittings to connect the system as shown in the above illustration. Each outfit priced herewith contains tank, pump and accessories as described above.

PUMP—The pump furnished with our outfits is a double pneumatic pump with a brass-lined cylinder and automatic air supply device—the most satisfactory air pump furnished with an outfit of this kind.

145-GALLON OUTFIT.

3C-450—Tank, 24 inches in diameter by 6 feet long. Capacity, 145 gallons and outfit as described above. Weight, 475 pounds. Complete **$56.00**

Price complete with tank galvanized inside and out **$72.00**

180-GALLON OUTFIT.

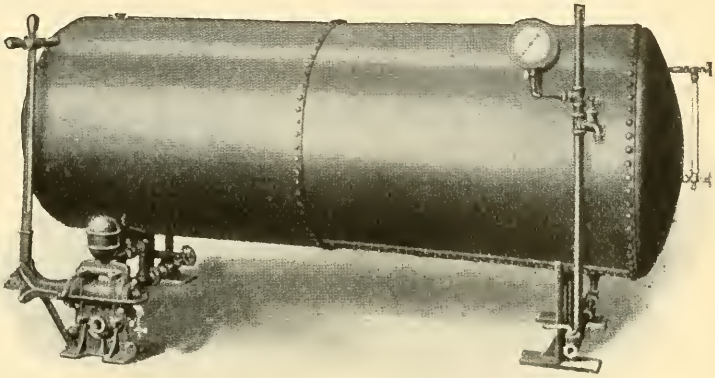
430-GALLON OUTFIT.

3C-457—Tank, 42 inches in diameter by 6 feet long. Capacity, 430 gallons and outfit as described above. Weight, 1000 pounds. Complete **$97.60**

Price complete with tank galvanized inside and out **$135.00**

$56.00 COMPLETE

TANK SETS HORIZONTALLY



THIS OUTFIT consists of an automatic water pump and tank and accessories identical in design and purpose with those shown on the preceding page. In most cases these outfits are used where the basement is not deep and where it is more convenient to have the tank lying horizontally than standing vertically. In making a selection of water supply system it is always wise to purchase one of ample capacity, as they require much less attention and a more uniform pressure can be had. A conservative estimate is that you should figure 30 gallons per day to each person in the family for domestic requirements.

The accessories furnished are exactly the same as those described on the preceding page. The tanks are tested, and we know they are absolutely air tight before they leave the factory. To give an idea of how really good our "Aladdin" Water Works Systems are, we call your attention to the fact that these tanks are tested to an air pressure of 200 pounds before leaving the factory, and the average city water pressure of the cities of New York, Chicago and St. Louis is 25 lbs. Therefore, without effort you can have stronger water pressure than that of the above cities.

145-GALLON OUTFIT.

3C-458—Tank, 24 inches in diameter by 6 feet long. Capacity, 145 gallons and outfit as described. Weight, 475 pounds. Complete..... **$56.00**

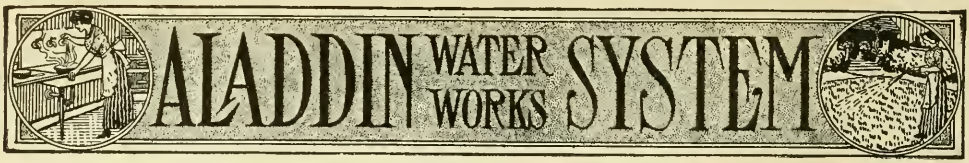
Price, complete, with tank galvanized inside and out $139.75



$77.90 FOR THIS COMPLETE DEEP WELL OUTFIT

PUMP, TANK AND FITTINGS AS SHOWN

THIS DEEP WELL OUTFIT is assembled to supply the demand for an air pressure outfit which can be used in connection with deep wells. It consists of tank, pump and accessories as shown in this cut.

The Tank is double riveted throughout, and it is always tapped for laying horizontally unless otherwise specified. Many of these tanks are installed by burying the tank, allowing the head which contains the water gauge tapping to project into the basement or into the well pit, kept below the frost line. This prevents freezing and insures water of an even temperature the year round, also saves room.

THE PUMP is a wind mill regulator force pump as shown in the cut. It is built extra heavy and strong for extremely hard service under heavy pressure. Has a large air chamber to cushion the stream and absorb the jar to which this type of pump is subject. Made of best material throughout and tested under heavy hydraulic pressure before shipment. Fitted with a Hydro pneumatic cylinder which is attached about 20 ft. above the water cylinder. This air cylinder furnishes the air that is pumped at the same time as the water or may be shut off when sufficient air is in the tank. On the other hand, the water may be shut off and air only pumped into the tank. The pump is for use with a wind mill or a pump jack.

ACCESSORIES. Pressure gauge, water gauge, gate valve, check valve, stop and waste cock, hose faucet, brass lined water cylinder, hydro pneumatic air cylinder, automatic wind mill regulator, together with pipe and fittings to connect up the outfit as shown in the cut.

145 GALLON OUTFIT.

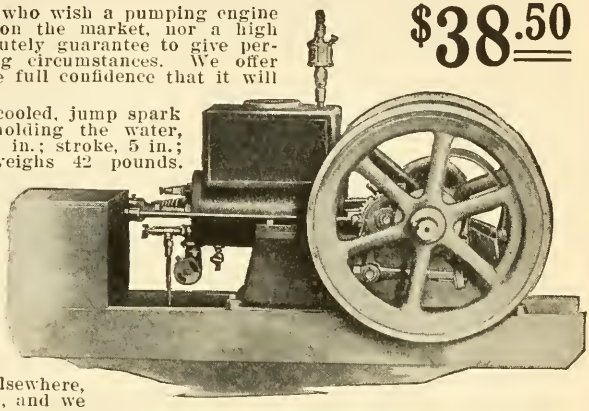
735 GALLON OUTFIT.

No. 3B-475—Tank, 36 in. in diameter by 14 ft. long; capacity, 735 gallons; outfit as described; weight, 1600 pounds. Price..... **$137.50**
Outfit with Tanks, Galvanized inside and out. Price $185.00

"ALADDIN" GASOLINE ENGINE

$38.50

For the convenience of our customers who wish a pumping engine which, while not the cheapest engine on the market, nor a high priced engine, is one that we can absolutely guarantee to give perfect satisfaction under the most trying circumstances. We offer our "Aladdin" pumping engine with the full confidence that it will fulfill our guarantee in every way.



The "Aladdin" is a four cycle, water cooled, jump spark engine with a cast iron hopper for holding the water, as shown in the cut. The boring is 3½ in.; stroke, 5 in.; fly wheel, 12½ in. in diameter and weighs 42 pounds. Specifications for this engine are as follows: Horse power, 1¾; speed, 475 revolutions per minute; over all length, 42 in.; over all width, 24 in.; over all height, 20 in.; weight, complete, 260 pounds; pulley, 6 in. in diameter, 4 in face. Shipped direct from factory in central Wisconsin.

GUARANTEE—We guarantee our "Aladdin" pump engine to be exactly as described by us, perfect in every way and to represent more for the money than it would be possible to get elsewhere, and if found otherwise, may be returned, and we will refund full purchase price.

No. 5B-100—1¾ Horse Power "Aladdin" pumping engine, price..... **$38.50**

Same engine equipped with a gear driven direct connected pump jack, price.....$48.50

For those who require a larger engine for farm or heavy duty use, we have made arrangements with the factory who makes this pumping engine to furnish an engine of the same quality throughout, but of heavier horse power. We will confine ourselves, however, strictly to the four principal sizes, that is, 1¾, 2½, 5 and 8 Horse Power.

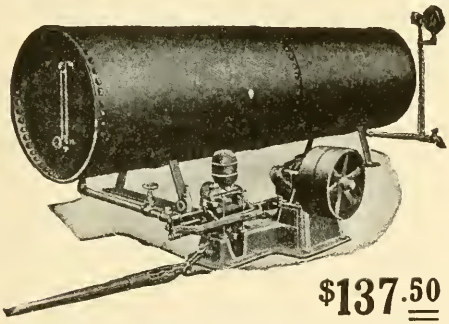
These engines as sent out by us are all of the horizontal four cycle water cooled type. All these engines are covered by the same guarantee as is our "Aladdin" pumping engine, and are shipped from the factory direct to our customers. Prices are as follows:

No. 5C-102—2½ Horse Power "Aladdin" farm engine **$72.50**

No. 5B-104—5 Horse Power "Aladdin" heavy duty engine $121.50

No. 5B-106—8 Horse Power "Aladdin" heavy duty engine 214.00

"ALADDIN" WATER WORKS SYSTEM



$137.50

To furnish a combined hand and power operated water works system for country clubs, summer hotels, amusement parks, hunting lodges, etc., we have designed this combination outfit. The tank is the same as furnished with all our "Aladdin" water works systems.

THE DOUBLE ACTION PUMP is designed to pump from a well, cistern, spring or other source where the vertical suction is not more than 25 ft. away. May be drawn along horizontally, however, for any reasonable distance. The pump is fitted with an automatic air intake valve which supplies abundant air with the water. The pump may be used with a gasoline engine or other power or by hand if desired.

ACCESSORIES furnished are the same as with any of our water supply systems.

No. 3B-480—Tank, 36 in. in diameter by 10 ft. long; total capacity, 525 gallons. Weight, 1275 lbs. Price **$137.50**

No. 3B-481—Tank, 42 in. in diameter by 10 ft. long; total capacity, 70 gallons. Weight, 1875 lbs. Price $148.50

No. 3B-482—Tank, 42 in. in diameter by 14 ft. long; total capacity, 1000 gallons. Weight, 2400 lbs. Price $198.50

No. 3B-483—Tank, 48 in. in diameter by 20 ft. long; total capacity, 1880 gallons. Weight, 4200 lbs. Price $275.00

For tanks galvanized inside and out, write for special prices.

"ALADDIN" PUMP JACKS

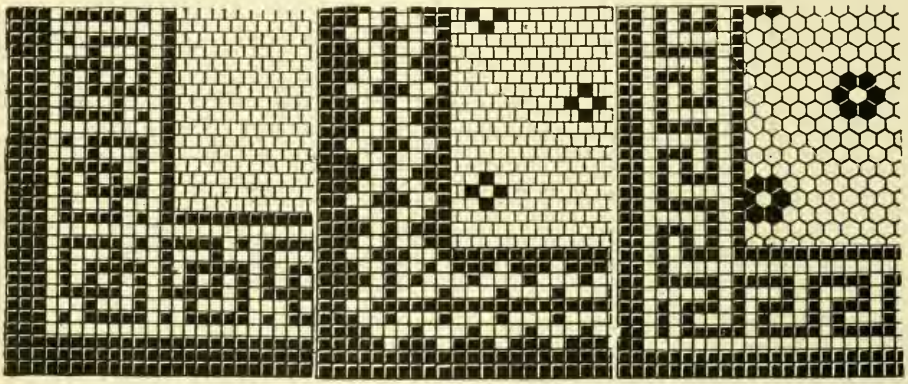
Horse Power Required—Gasoline Engine—40 lbs. pressure or less, 1 H. P.; 60 lbs. pressure or less, 1½ H. P.; 100 lbs. pressure or less, 2 H. P.

"ALADDIN" MOSAIC FLOOR TILE

An Ideal Flooring Material for Bathrooms, Kitchens and Store Buildings

EASY TO LAY. Few people realize how easy it is to lay a Mosaic tile floor. It is, however, very simple, and a tile floor, when once laid over a cement foundation, is practically indestructible. For a bathroom, vestibule, store building or kitchen, a tile floor is not only the best, but the cheapest floor you can buy. **It will last a life time,** is easily cleaned, and for its cleanliness, is a very desirable floor for a drug or confectionery store or bank, and as a bathroom or kitchen floor, is a delight to any housewife. Send us a diagram of your room, and let us quote you net delivered price on sufficient tile to cover it.

DIRECTIONS FOR LAYING. Make allowance of about three inches below floor level for a tile floor. This allows about 2½ inches for concrete. **(Composed of one part cement, two parts sand and two parts gravel)** well mixed with water. Allow this to set. Next comes the float, **consisting of equal parts of cement and sand.** Take a board of proper thickness, which when laid upon your concrete base, will be level with the top of the floor. Lay this strip across the room about two feet from wall and fill with the float. Then lay a strip of tile across the room (paper side up), and pound with a block and hammer until the mortar is visible in the joints, between this. Then move your strip over and lay another course of tile, and so on. When finished, remove paper by wetting thoroughly and peeling it off slowly. Sprinkle tile with white sand and beat it down. Allow to set for two hours, then mix a grouting of pure cement and water (add lamp black for coloring if desired), fill joints with this and wipe off surplus with a damp soft cloth.



No. 2B-838—Red and white or black and white, Mosaic floor tile, per square foot..... **20c**

No. 2B-840—Blue and white Mosaic floor tile, per square foot **23c**

No. 2B-842—Red and white or black and white, Mosaic floor tile, per square foot **20c**

No. 2B-844—Blue and white Mosaic floor tile, per square foot..... **23c**

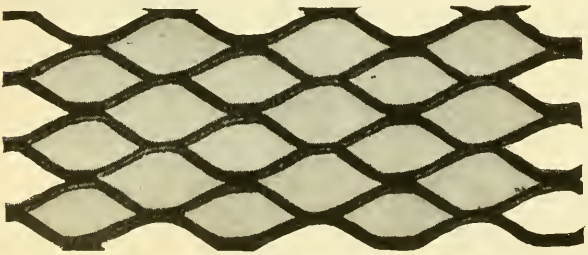
No. 2B-846—Red and white or black and white Mosaic floor tile, per sq. ft..... **20c**

No. 2B-848—Blue and white Mosaic floor tile, per square foot..... **23c**

No. 2A-849—Plain White Hexagon Tile, which is used largely for small bathrooms, vestibules, etc., can also be furnished by us at the net price of 18c per square foot. Shipped from our factory in Chicago.

EXPANDED METAL LATH

FOR FIRE PROOF BUILDINGS, STUCCO WORK, OR INTERIOR WORK TO REPLACE WOOD LATH.



Metal lath has become so popular in the last few years, that it hardly needs describing. The principal features being that it is fire proof, holds plaster better than wood, will not swell when wet, consequently cause cracks in plaster when dry. For interior work it is fastened directly to the studding with one inch staples. For exterior or Stucco Work, it is applied over furring strips (common lath), nailed to the sheathing or boxing, thus allowing the plaster to cover or clinch on the under side of the lath. Comes in sheets 24 inches wide, 96 inches long.

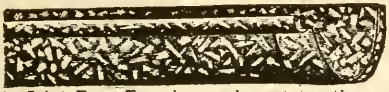
Prices on plain un-painted lath:

No. 2B-850—27 gauge, weight per square yard, 2¼ lbs. Price, per square yard.....**15c**
No. 2B-851—26 gauge, weight per square yard, 2½ lbs. Price, per square yard.....**18c**
No. 2B-852—25 gauge, weight per square yard, 3 lbs. Price, per square yard.....**19c**
No. 2B-853—24 gauge, weight per square yard, 3½ lbs. Price, per square yard.....**21c**

For painted, add ¾ c per square yard. For galvanized, add 15c per square yard.

GALVANIZED EAVE TROUGHS AND FITTINGS

GALVANIZED EAVE TROUGH SLIP JOINT



Slip Joint Eave Troughs can be put together without soldering. Made of the best grade of Galvanized iron and has a slip joint in one end of each 10 ft. lengths. We do not cut lengths. State whether right or left hand is required.

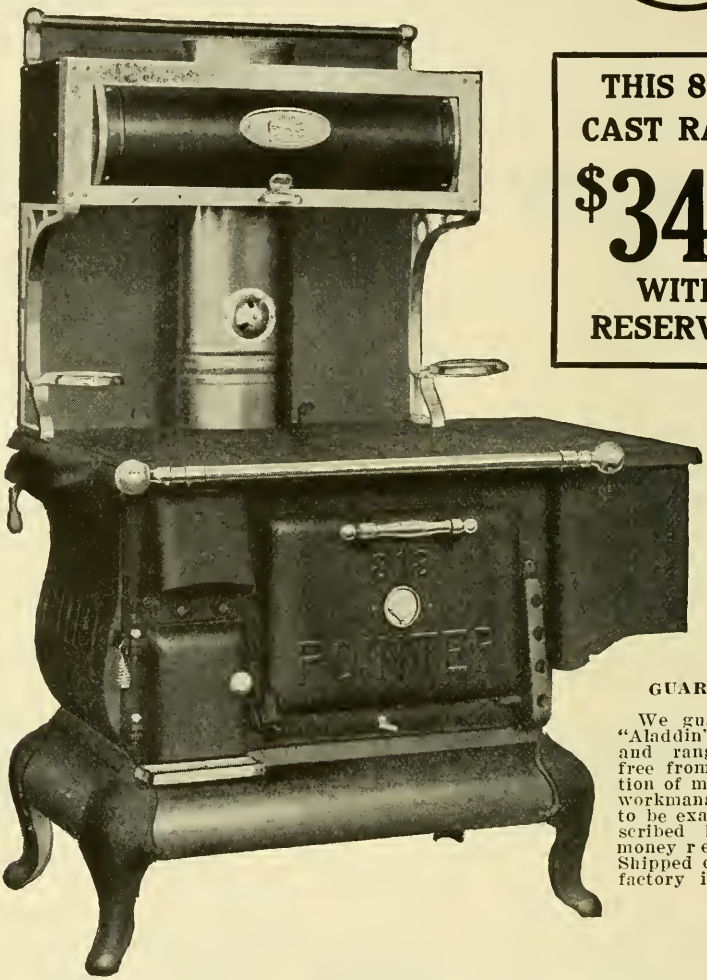
"ALADDIN" Stoves & Ranges



THIS 8-18 CAST RANGE

$34.65

WITH RESERVOIR

The "Aladdin" Pointer Range

GUARANTEE

We guarantee all "Aladdin" stoves and ranges to be free from imperfection of material and workmanship, and to be exactly as described by us, or money refunded. Shipped direct from factory in Indiana.

THIS "POINTER" CAST IRON RANGE is our leader, and we believe the greatest range bargain ever offered. It is up-to-date in every respect. Every detail has been covered in a way that leaves no chance for improvement. This "Range" overcomes the great objection found in many ranges, in that it has no hearth and, therefore, occupies much less space than the ordinary range of the same oven and cooking top capacity. It stands on a sanitary base, thus allowing easy access underneath the stove for sweeping and scrubbing.

THE FIRE BOX is very large and is fitted with heavy hot blast, ventilated linings. The grates are of the duplex type, and burn coal, coke and wood equally well. They can be easily cleaned and removed when necessary.

THE OVEN is large and well proportioned being 18x18x12½ inches, fitted with a drop door, with always cool handle and a safety hinge. The oven will accommodate four 9-inch baking pans. We guarantee it to bake and cook to perfection.

THE RESERVOIR is large, having a capacity of about seven gallons, and can be furnished in either "Wilder" Metal or Copper, Tinned on the inside.

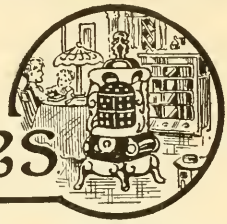
THE WARMING CLOSET is roomy and is trimmed with Nickel plated corners and binding, as shown in the cut.

THE NICKEL PLATED TRIMMINGS. This "Range" is mounted and trimmed with heavy nickel trimmings as shown. The Towel Bar on the front of the stove is large and useful as well as ornamental. The Oven Thermometer is also a feature worthy of note. The cooking top is 26 inches deep and 42 inches long, and fitted with six 8-inch covers.

4B-1100—"Aladdin" Pointer Range, with "Wilder" Reservoir. Weight, 475 pounds. Price..... **$34.65**

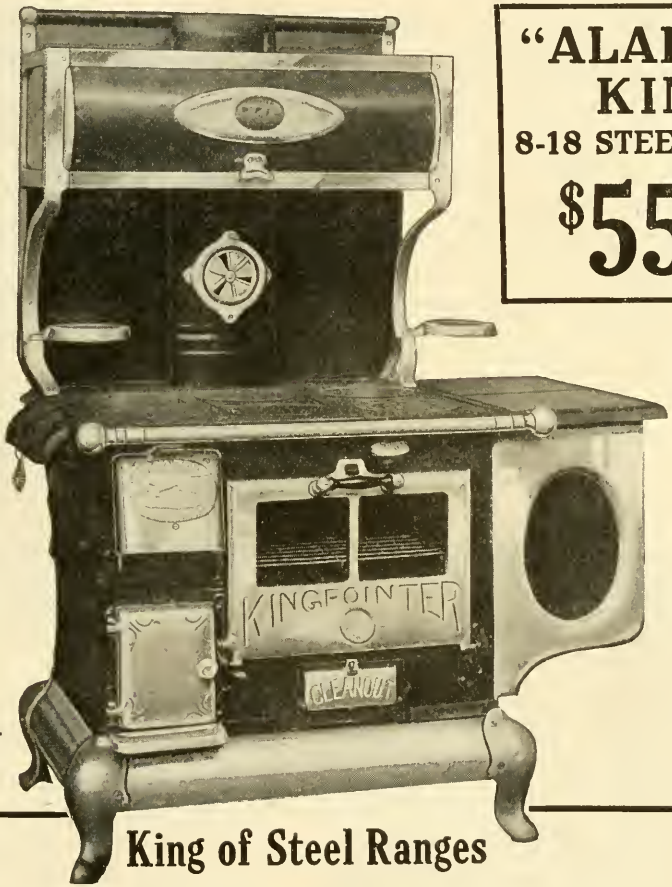
4B-1102—"Aladdin" Pointer Range, with Copper Reservoir. Weight, 475 pounds. Price..... **$36.75**

"ALADDIN" Stoves & Ranges



"ALADDIN" KING 8-18 STEEL RANGE

$55.75



LARGE POUCH FEED ——>

Sanitary Base ——>

Solid Aluminum <—— Covers

Body Made of 14-gauge Boiler Plate

Weight 625 pounds

King of Steel Ranges

A BETTER RANGE could not be made, no matter what the price. You can judge from the weight that what we say is true; 625 lbs. of the highest grade of material put into a range by workmen who have orders to build the best possible stove, regardless of cost; and the Craftsman who produced this masterpiece proved that the confidence reposed in him was not misplaced. Every line of the stove is artistic, every part perfect, highly nickel plated mountings. In fact, everything to make an artistic and attractive ornament, as well as the best cooker and baker ever offered.

THE BODY is made of 14 gauge Boiler Plate Steel, blued and polished, and thoroughly protected on the inside by heavy cast iron plates, that are bolted, riveted, and electrically welded in such a manner that buckling is impossible. Think of a range made of steel plates ⅛-inch thick reinforced by cast iron plates on the inner side.

THE FIREBOX is extra large, and is fitted with special interchangeable, guaranteed hot blast sectional linings and with duplex grates for burning wood, coal or coke.

THE MAIN TOP has six eight inch cooking holes, and is fitted with a large pouch feed door.

THE RESERVOIR is twice as large as that used on ordinary stoves, having a capacity of 15 gallons. The reservoir tank is made of extra heavy sheet copper, tinned on the inside. **The reservoir lids are made of pure aluminum**, and we guarantee that any water heated in this reservoir will always be clean and free from rust.

THE OVEN is 18 inches wide, 18 inches deep and 12½ inches high, and is fitted with a glass front set in a full nickel plated frame. The oven is fitted with a thermometer, which enables you to maintain an even heat.

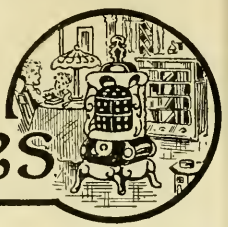
NICKEL PLATED TRIMMINGS. This range is fully mounted with nickel plated trimmings, as shown, and is one of the best appearing ranges ever offered.

WEIGHT with reservoir as shown, 625 pounds, without reservoir, 560 pounds. Shipped from factory in Indiana.

4B-1104—Range, as described..... **$55.75**

If without reservoir deduct **$7.50** from price.

"ALADDIN" Stoves & Ranges



THIS STEEL RANGE was brought out to meet the demand for a low priced, serviceable range. We guarantee this range to cook and bake as well as ranges selling for twice as much as we ask for this one, and while in most cases we do not strive to meet the low priced competition, we can with full confidence offer this range, and know that it will justify our claims. It has no nickel plated parts.

THE TOP is large, having six, eight inch lids, the castings are smooth and not excessively large.

THE FIRE BOX is large and is fitted with interchangeable hot blast linings, and duplex grate for burning coal, coke or wood.

THE OVEN is 18 inches wide, 18 inches deep, and 12½ inches high, and will accommodate four 9 inch baking pans.

THE ASH PIT is large and easy of access and is fitted with a polished door.

THE RESERVOIR is large, having a capacity of seven gallons, can be furnished either in Wilder Metal or Copper, tinned lining. Shipping weight, 265 pounds.

No. 4B-1120—Aladdin "Reno" steel range with Wilder Metal reservoir **$21.95**

No. 4B-1124—Aladdin "Reno" steel range with Copper metal reservoir **$23.90**

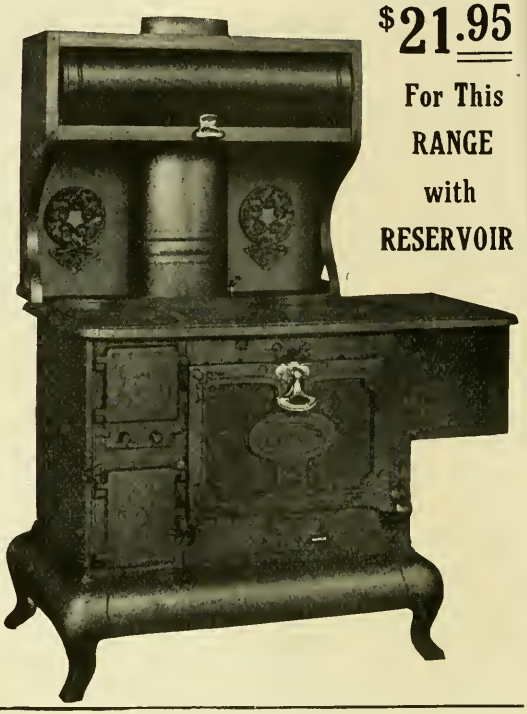
$21.95 For This RANGE with RESERVOIR



$24.25 FOR THIS RANGE WITH RESERVOIR

OUR ALADDIN "RECORD" STEEL RANGE, made to meet the demand for a good, serviceable, fine looking range, at a low price. We guarantee it to cook and bake as well as the most expensive range on the market. It has numerous exclusive features, found only on high priced ranges. This range always gives satisfaction and influences other sales. The cast iron parts are all smooth and heavy, all joints are perfectly fitted. The steel body and high closet are made of selected, polished, blue steel.

THE FIRE BOX is large, and is equipped with interchangeable hot blast linings, and duplex grates, easy to clean and remove, burns coal, coke and wood.

THE MAIN TOP is large and is equipped with six 8-inch cooking holes.

THE RESERVOIR has a capacity of seven gallons, and can be furnished either with Wilder Metal or Copper tank.

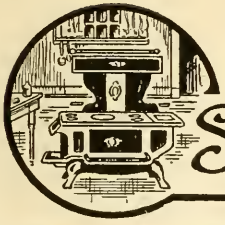
THE OVEN is large, being 18 inches wide, 18 inches deep, and 12½ inches high.

NICKELED PARTS. This range is fitted with nickel plated trimmings as shown. Shipped direct from factory in Indiana. Shipping weight, 290 pounds.

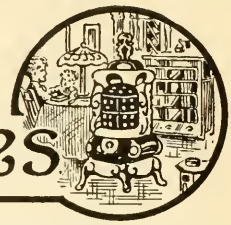
No. 4B-1126—"Record" range as described, with Wilder Metal reservoir **$24.25**

No. 4B-1128—"Record" range, as described, with Copper, tinned lining reservoir **$26.10**

If without Reservoir, deduct.. .....$4.50



"ALADDIN" Stoves & Ranges



$32.65 FOR THIS "ALADDIN" FAME

SANITARY STEEL RANGE

Our Aladdin "Fame" steel range, while not by any means a high priced range is still thoroughly good and serviceable, built on sanitary and scientific principles, worthy of a place in any home.

The Body is made of extra heavy blued steel, reinforced on the oven top and right end of flues, by heavy cast iron plates.

The Fire Box is of ample capacity, and is fitted with heavy interchangeable hot blast, ventilated cast iron linings, the grates are of the duplex pattern, (the best known kind of stove grate), will burn coal, coke or wood.

The Oven is large, being 18 inches wide, 18 inches deep, and 12½ inches high, and is fitted with a drop door, trimmed with smooth nickel plated trimmings, as shown.

The Main Top is large, well constructed, fitted with six eight inch cooking holes.

The Reservoir is made of sheet copper, and has a capacity of seven gallons. Nickel plated trimmings are furnished, as shown in the cut, and are smooth and easy to keep clean.

This is without a doubt, the best steel range ever offered, when the price is considered. Weight with reservoir, 375 pounds. Shipped from factory in Indiana.

4B-1130—Range, as described **$32.65**

If without reservoir, deduct $4.00

"ALADDIN" Brilliant Range $39.80 with Reservoir

When comparing the price on this range do not fail to consider the weight. This range weighs 400 lbs., and the construction throughout embraces all of the modern improvements.

The Colonial design is a feature used in many of the high priced ranges of today, and the Sanitary Base is another feature which is justly popular. Plain, highly polished removable nickeled trimmings are another modern improvement; in fact, every feature of this range is a talking point, and while we do not claim it to be as attractive in appearance as our "King," we do claim that this range will last as long and will give as much perfect satisfaction as any stove ever made.

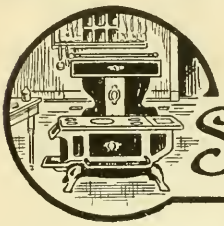
The outside damper rod operated in front of the range is another feature which is attracting much attention.

The Fire Pot and Grate arrangement is the same as in our "Fame" listed above, as is also the Oven and Main Top. The Reservoir is made of Sheet Copper, and has a capacity of 7 gallons.

The "Brilliant" weighs 400 lbs., when crated ready for shipment. Shipped from factory in Indiana.

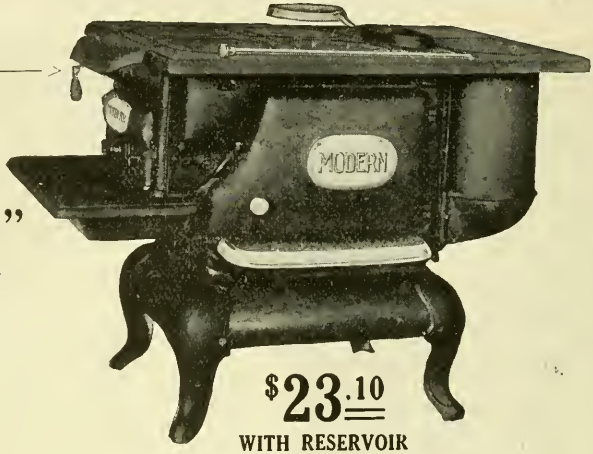
4B-1132—Range, as described **$39.80**

If without reservoir, deduct $4.00



"ALADDIN" Stoves & Ranges

Large Pouch Feed



"ALADDIN" MODERN COOK STOVE

$23.10

WITH RESERVOIR

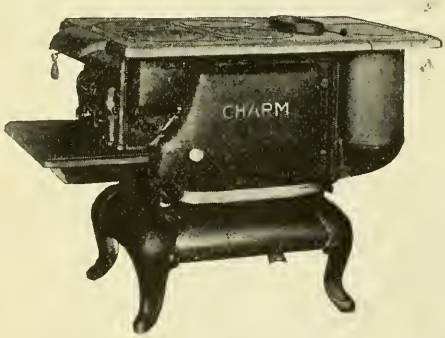
In our "Modern" cast cook stove we show a design that is the acme of perfection in every detail. These stoves have passed the experimental stage and have built up an enviable record of satisfactory service.

Their success is due largely to the scientific construction of the fire-box, oven and flues, and their perfect proportions which have resulted in a fuel saving of at least 50 per cent besides enabling you to do better baking and cooking in less time than ever before.

This stove has smooth, highly polished nickel plated trimmings, as shown. Full size oven, 18x19x11 inches; large sectional top with four 8-inch cooking holes; duplex sectional grates for burning wood, coal or coke. Seven gallon reservoir made of sheet copper, tinned on inside. Shipping weight, with reservoir, 300 lbs. Shipped direct from factory in Indiana.

4B-1144—"Modern" Cook Stove **$23.10**

ALADDIN "CHARM" COOK STOVE

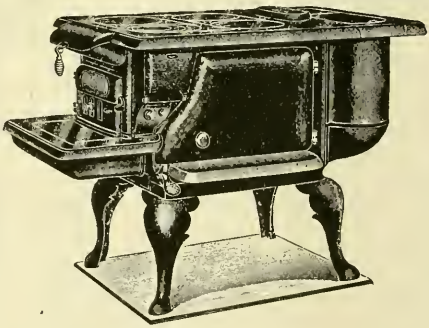


This stove embodies all the desirable features of our "Modern," except that it has no nickeled oven or fire door plates or oven shelf.

The principles of construction are exactly the same, and owing to the special method of bolting and cementing bottom and back oven plate, these stoves have the only dust and ash proof oven on the market. Main top has four eight inch cooking holes; pipe collar 7 inches; oven, 18x19x11 inches. Shipping weight with reservoir, 295 lbs. Shipped from factory in Indiana.

4B-1146—"Charm" Cook Stove **$21.65**

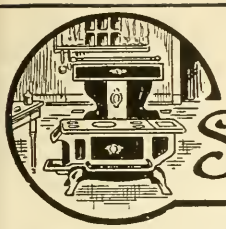
ALADDIN "PLAIN" COOK STOVE



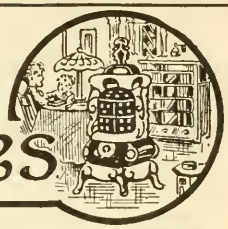
The "Plain Pointer" was designed to meet the demand for a first class stove without any unnecessary features adding to its cost. In this model we have left off the base skirting and have produced a plain but dignified stove without sacrificing a single desirable feature. The construction and principles of operation are exactly the same as in the other two models shown on this page. Main top has four 8-inch cooking holes; pipe collar 7 inches; oven, 18x19x11 inches. Shipping weight with reservoir, 285 lbs. Shipped direct from factory in Indiana.

4B-1148—"Plain Pointer" Cook Stove **$19.95**

Any Stove on this page furnished without reservoir at $3.00 less than price quoted.



"ALADDIN" Stoves & Ranges



"ALADDIN" GOLD HEATER

In our "Gold" heater we offer an inexpensive heater which embodies all the features characteristic in much more costly heaters. It is all cast iron excepting the Drum, which is made of heavy polished Blued steel, fire pot is full size, grates are draw center type, for soft coal or coke.

No. 4B-1150

Full Height, in.	Diameter of Body, in.	Weight, lbs.	Price
37	11	51	$5.65
43	13	74	6.90
45	15	103	8.75
49	17	135	10.25

Nickeled parts as shown.

"ALADDIN" FOREST HEATER

Made of Polished Blued steel, lined with a corrugated sheet; steel used is two gauges heavier than ordinarily used in this type of stove; has cast iron dampers in pipe collar. For burning wood or cobs; has an extra large fire door.

No. 4B-1151

Lgth. in.	Wgt. in.	Size. Feed Door	Price
22	40	9¼x11¼	$3.65
24	43	9¼x11¼	3.80
26	46	9¼x11¼	3.95

Nickel plated foot-rails, 75 cents extra.

This most attractive heater has been a winner wherever it has been placed for sale. The graceful proportions and attractive lines cannot help but please. We feel that in this, we offer more real value for the price, than would be possible to secure elsewhere. This stove is all east iron except the drum which is made of heavy polished Blued steel.

The Fire Pot is full sized, thick and heavy, and ribbed on the outside, thus insuring a long life; grates are heavy draw center type, for burning soft coal or coke. Not practical as a wood burner.

Ash pit and fire doors are fitted with heavy nickel plated gravity handles, ash door swings on drilled hinges, separate from base, and held rigidly to base by two bolts.

All joints are tongued and grooved and packed in iron, cement making them thoroughly air tight. The drafts are all air tight and of the screw type, positive in action and easily adjusted. Parts to replace broken ones can be furnished by us at any time.

GUARANTEE—We guarantee every "Aladdin" stove or range to be exactly as described by us in every way in regard to weight, measure and workmanship. If you should find otherwise, we will gladly refund full purchase price, together with all freight charges which you have paid.

No. 4B-1152

Full nickel plated Base $1.50

A very popular two hole laundry stove. Castings are heavy and nicely fitted; top is large and square; has a shaker and dump grate; the height is 22 inches, smoke pipe, 6 inch, and top has two 8 inch cooking holes. Can be furnished with water heating coils for $1.00 extra. Shipping weight, 70 pounds.

No. 4B-1153 — Two hole laundry stove, as described ... **$4.25**

Water Coil, $1.00 extra.

One of the best laundry stoves ever offered; has four 8 inch cooking holes. The long center is cut in two sections, supported on a baffle plate, which also deflects the heat to all four lids. Fire pot is 12 inches in diameter. An absolutely air tight stove, that will keep fire over night. Height, 21 inches; top, 20x22 inches, pipe collar, 6 inches; weight, 80 pounds.

No. 4B-1154—4 hole laundry stove, as described each **$5.75**

ALADDIN JUNIOR SEMI-SLATE ROOFING $2.35 PER SQUARE

ALADDIN JUNIOR SEMI-SLATE ROOFING

GUARANTEED FOR 10 YEARS

The best low priced roofing ever offered. In appearance it is very similar to our Semi-Slate roofing described under No. 2A-300. The body of the roofing is extra heavy long fibre wool felt. This is saturated with pure asphalt, then covered on the weather side with chipped slate or granite in natural colors. This finely chipped material is firmly imbedded in the heavy coating under tremendous pressure. It is actually rolled in until it becomes a part of the roofing material. The slate and granite being natural colored, guarantees the roofing against losing its color.

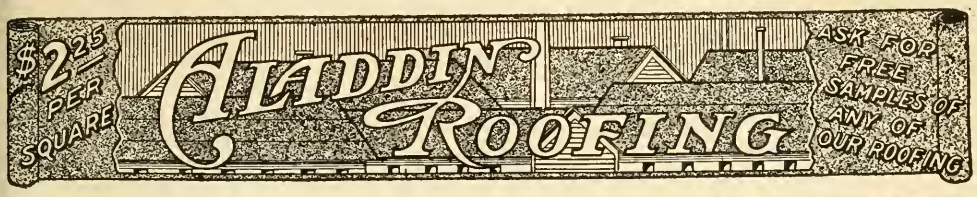
SOLD BY THE GOLDEN RULE

We know that in "Aladdin" Junior we offer a better roofing than has ever been sold at a like price before, and back up this claim with a ten year guarantee. **Colors are Red or Green.** State which color you wish. Ask for samples.

No. 2B-325 Green

No. 2B-327 Red

PER SQ
$2.35



CHEAPER THAN SHINGLES—WEARS LIKE TILE—A SAFEGUARD AGAINST FIRE—GUARANTEED FOR 15 YEARS.

There are so many truly commendable things which we could say about our "Aladdin" Semi-Slate Roofing, that it's hard to say them in the amount of space which we have for this roofing. The fundamental principles of all prepared roofing is the quality and weight of the felt used in the construction. Added to this is the quality and texture of the Asphalt used to saturate and preserve this. Then comes the matter of a proper surfacing to assist the combination in withstanding the weather. A great many roofings are sold, which in certain localities and under certain climatic conditions, are perfect. The same roofing used in other localities and under different climatic conditions, will not give satisfaction. Therefore, in making our roofing contract, we looked for and found the manufacturer who was doing **a nation wide business**, one whom we knew could give us a roofing, **guaranteed for use in any climate and under all conditions.** We now offer you what we know to be the **best Semi-Slate Asphalt Roofing on the market.**

The base of the roofing is long fibre wool felt saturated with **Pure Trinidad Asphalt** and surfaced with a bright colored **Crushed Slate**, which is firmly embedded into the surface by a patent process. This slate is of a natural color, either red or green and will not fade, but the colors will brighten with age. This roofing needs no painting. When you have it laid, you have a roof which we guarantee to last **15 years**, and know that if laid according to our instructions, will last for **twice that length of time.**

It adds to the beauty of any structure. We wish to impress upon your mind the fact that this is not an article which is cheap in any sense, but a first class heavy weight, clean roofing and one of which we are justly proud.

INSTRUCTIONS. In preparing your roof for this roofing, whether a new or old roof, sweep the roof perfectly clean. Then go over it thoroughly with a hammer. Be sure that no nail heads project, as anything of that kind materially affects the life of the roofing. Lay the first course across the roof as you would a course of shingles. Then cement along the upper edge, using the cement which we furnish (first having nailed the roofing down). Then lay another course, and so on.

OUR GUARANTEE. We guarantee "Aladdin" Semi-Slate Roofing, for 15 years. This guarantee is without restriction, if put on according to our instructions. If you should purchase this roofing, and it should fail to give satisfaction, advise us, giving particulars, and we will forward new roofing without cost to you. Each square contains 108 square feet, packed complete with nails and cement.

2B-300—Semi-Slate Roofing. Dark Red Color. Weight, per sq., 70 lbs.; per sq..... **$2.55**

2B-302—Semi-Slate Roofing. Dark Green Color. Weight, per sq., 70 lbs.; per sq..... **$2.55**

"ALADDIN" RUBBER SURFACED ROOFING

The base of this Rubber Surfaced Roofing is the same as our Semi-Slate Roofing; that is, we use the same long fibre wool felt and the same pure Trinidad Asphalt. With this, however, we have a smooth, rubber surface, which has been so popular for more than a generation. We can heartily recommend this roofing to anyone wishing a first-class, rubber surfaced roofing; and while we cannot claim that it makes an imposing appearing roof as the Semi-Slate, we can say that this roofing is equal in appearance and wearing quality to any rubber surfaced roofing on the market, no matter what the price. That is a broad statement and one which should convince you that the roofing is worthy of your notice. We make this roofing in three different weights. The one-ply, which weighs 35 lbs. to the square, the two-ply, which weighs 45 lbs. to the square, and three-ply, which weighs 55 lbs. to the square.

The same precautions for laying which apply to our Semi-Slate Roofing, also apply to this.

GUARANTEE: Our "Aladdin" Rubber Surfaced Roofing is guaranteed as follows: One-ply for 5 years; two-ply for 10 years; three-ply for 15 years. Put up in rolls containing 108 square feet. Ask for net delivered price.

2B-306—One-ply Rubber-surfaced Roofing, weight per square 35 lbs. Per square..... **$1.65**

2B-308—Two-ply Rubber-surfaced Roofing, weight per square 45 lbs. Per square..... **$1.95**

2B-310—Three-ply Rubber-surfaced Roofing, weight per square 55 lbs. Per square.. **$2.35**

"ALADDIN" MINERAL SURFACED ROOFING

In this, our Mineral Surfaced Roofing, we offer one which is similar in every respect to the "Aladdin" Semi-Slate roofing that is, the body is long fibre wool felt, thoroughly saturated with pure Trinidad asphalt, a combination which in itself will guarantee to the mind of the average man that the roofing is all that we claim for it. The surface has a fine mineral coating which is firmly embedded into the body of the roofing under pressure, and will always remain the same. The roofing is as good as can be made for the money and we feel certain that, should you decide to purchase it, you will be completely satisfied.

We do not offer this in mill ends or short lengths, but in one-piece roll as a first-class roofing and one which will give satisfaction. We back up this argument with a binding guarantee which will convince you that the roofing is all that we claim for it. We guarantee the one-ply for five years, the two-ply for 10 years, and the three-ply for 15 years, and when we make this guarantee we know that the roofing, if applied according to our instructions, will last a great many years longer. Put up in rolls containing 108 square feet.

2B-312—1-ply "Aladdin" Mineral-Surfaced Roofing, weight per square 35 lbs. Price per square..... **$1.65**

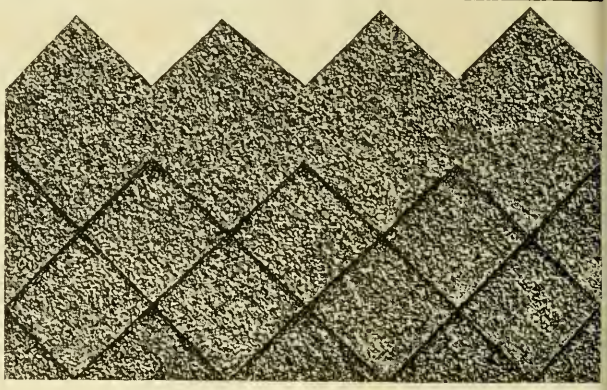
2B-314—2-ply "Aladdin" Mineral-Surfaced Roofing, weight per square 45 lbs. Price per square..... **$1.95**

2B-316—3-ply "Aladdin" Mineral-Surfaced Roofing, weight per square 55 lbs. Price per square..... **$2.35**

ALADDIN DIAMOND POINT SEMI-SLATE SLAB SHINGLES

Aladdin Diamond Point Slab Shingles

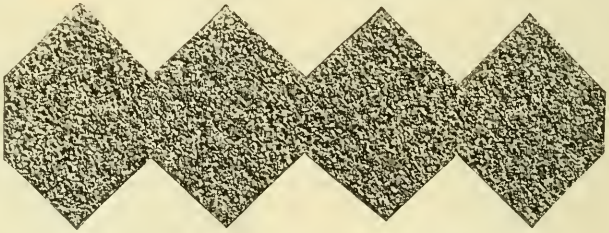
are undoubtedly the greatest discovery in Shingle Roofing. They are made from heavy long fibered woolen felt, saturated and coated with high melt point asphalt, and surfaced with the natural color Red and Green Crushed Slate. The long fibered woolen felt insures toughness and strength,—the asphalt spells waterproof,—the slate surfacing resists wear, and makes them fire-retarding. In all we believe that these shingles come nearer to being a practical substitute for wood shingles than anything that has ever been offered for this purpose.



Showing Shingles Laid Diamond Style.

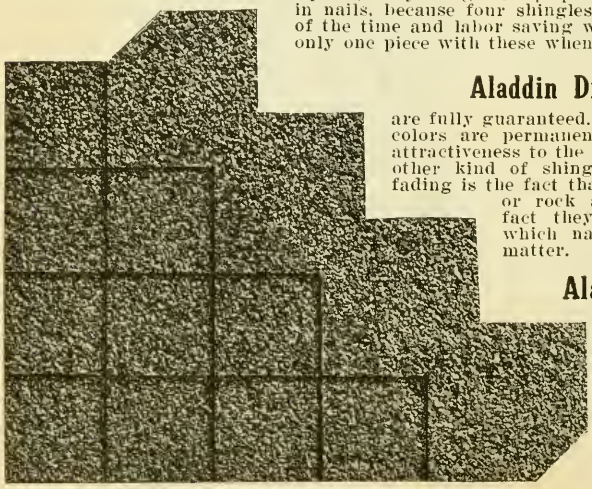
Aladdin Diamond Point Slab Shingles

instead of being put up like Individual Shingles are in gangs of four shingles to the sheet. Width, 32 inches; length, 12¾ inches from point to point. They give identically the same protection that Individual Shingles give, but a far handsomer appearance. Many artistic effects are obtainable with these Slab Shingles which cannot be produced by Individual Shingles. For an example of this the roof which we illustrate at the top of this page was laid with half red shingles and half green shingles, making a striking appearance when completed.



Showing One Section of Shingles.

Aladdin Diamond Point Slab Shingles when compared to Individual Shingles show a saving of about 75 per cent in labor, because it only takes 112 pieces to cover 100 square feet. They automatically space and gauge themselves to the weather,—save 35 per cent in freight; on account of the difference in the amount of material per square, they weigh sixty pounds per square less,—about 38 per cent in nails, because four shingles are laid with five nails. To say nothing of the time and labor saving which can be made on account of handling only one piece with these when ordinarily you would handle four pieces.



Showing Shingles Laid Block Style.

Aladdin Diamond Point Slab Shingles

are fully guaranteed. They will not blow up in the wind. The colors are permanent, and when applied on a building, add attractiveness to the building that cannot be produced with any other kind of shingle. Your insurance against these colors fading is the fact that the surfacing is of natural colored slate or rock and thus the colors will never fade, in fact they seem to brighten after the first rain, which naturally washes out all dust and foreign matter.

Aladdin Diamond Point Slab Shingles

are made in two colors: Red and Green. Put up in crates ½ square, 56 slabs to crate. Shipping weight 165 lbs. per square, and are shipped to you direct from the factory in Chicago. Fully guaranteed by us.

No. 2C-360—Red Diamond Point Semi-Slate Shingles. Per square **$5.65**

No. 2C-362—Green Diamond Point Semi-Slate Shingles Per square **$5.65**

Aladdin Semi-Slate Shingles $6.65 Per Square

Owing to the ever increasing price of wood shingles and the demand for a fire resisting roofing material, we have found it necessary to add a roofing which we could absolutely guarantee as to wearing and fire resisting qualities. We offer here our "Aladdin" Semi-slate shingles, which when applied have none of the undersirable features of prepared roofing, but have all appearances of a slate or tile roof. There never was a more beautiful or better appearing roofing offered than our "Aladdin" Semi-slate shingles.

The base of this roofing is heavy three-ply long fibre wool felt, thoroughly saturated with Pure Asphalt. The surface is natural colored crushed rock worked into the roofing under pressure so thoroughly that in reality it becomes a part of the body of the roof and will never wash off.

COLORING: We use absolutely no artificial coloring in the rock, but both the colors are natural and therefore will not fade when put on a roof and exposed to the weather. In fact there is more or less dirt and dust in this rock when applied to the roof and when this is washed off the color will be brighter, if anything, than when shingles are applied.

Each shingle is 8x12¾ inches. They are applied as follows: For the first course across the roof use ⅓ of the shingle. For the second use ⅔ of the shingle and above that use the full shingles. As they are laid 4 inches to the weather, you will readily see that there are three thicknesses of these shingles on every point on your roof. When laid, the roof is approximately ½ inch thick, three coats of long fibre felt, **Pure Asphalt** and slate. A roof which will last as long as the foundation upon which it is applied and a roof that will resist fire, water, acids and alkali. It will not warp, crack or scale off. When once applied your roofing troubles are over for all time.

No. 2B-350—"Aladdin" semi-slate shingles. Dark rich red. Per square, 220 pounds.
Price, per square.....$6.65

No. 2B-352—"Aladdin" semi-slate shingles. Deep Green. Per square, 200 pounds.
Price, per square.....$6.65

As to the fire resisting qualities, upon request we will send you a sample. Take a large, live coal from your stove. Lay it on the slate surface of the roofing and let it stand. You will find that the fire will burn out with no material damage to the roofing any more than a slight melting of the asphalt underneath, which will immediately harden after the fire has gone out.

"Aladdin" semi-slate shingles are packed in cartons. Four cartons (424 shingles) to the square. (100 sq. feet.)

Portable Lamps for Home Lighting and Decoration

3B-1640 Cast metal with art glass in leaded effect. Diameter of shade, 6 in. Height of lamp to top of shade, 12 in. be furnished in white enamel, old ivory or statuary bronze **$3.45**

3B-1642—Height, 13 in. Shade, 6 in. in diameter. Silk shade can be furnished in either tan, old rose or old gold. Base is finished in old ivory **$2.75**

3B-1644—Height, 11 in. Shade, 5 in. diameter. Beautiful hand painted shade is landscape design. Base finished in old ivory **$2.85**

3B-1646 — This Light and Fern Dish is the newest type of table decoration, for use on dining room table as a substitute for the old candelabra and at the same time permitting the use of the fern dish. Silk shades may be furnished in old rose, tan or old gold. Metal parts finished in silver....**$8.50**

3B-1648—Height, 11 in. Shade, 5 in. diameter. Base finished in brush brass, old ivory or white enamel. Shade softly colored in amber, green or blue **$2.80**

3B-1650—Height, 14 in Shade, 6 in. in diameter. Leaf decorations on shades in natural colors. Base can be furnished in brush brass, brush and black or old ivory. **$3.25**

3B-1652—Height, 12 in. Shade, 6 in. diameter. Silk shade can be furnished in tan or old gold. Base finished in either brush brass or old ivory **$3.50**

Distinctive Aladdin Table Lamps

3C-1720 Table lamp, $12.00. A very handsome cast metal lamp with design raised in high relief and fitted with amber bent art glass panels.

Lamp furnished with chain pull sockets and six feet of silk lamp cord and attachment plug, finished in Verde Green. Height 23 in., diameter of shade 18 in.

3C-1721—Table lamp, height 24 in., diameter of shade 20 in., finished in Neubian Bronze and fitted with two chain pull sockets, six feet of silk cord and attachment plug. $13.00.

3C-1723—Table lamp, finished in Neubian Bronze, height over all 20 in., diameter of shade 18 in., fitted with two chain pull sockets, six feet of silk cord and attachment plug. $9.00.

3C-1727—Desk lamp, $2.75. This lamp can be used in any number of places, fitted with a flexible tube arm which can be bent in any direction and will remain at any angle at which it is placed. Finished in Statuary Bronze and fitted with a Parabola shade and wired with a key socket and six feet of cord and attachment plug.

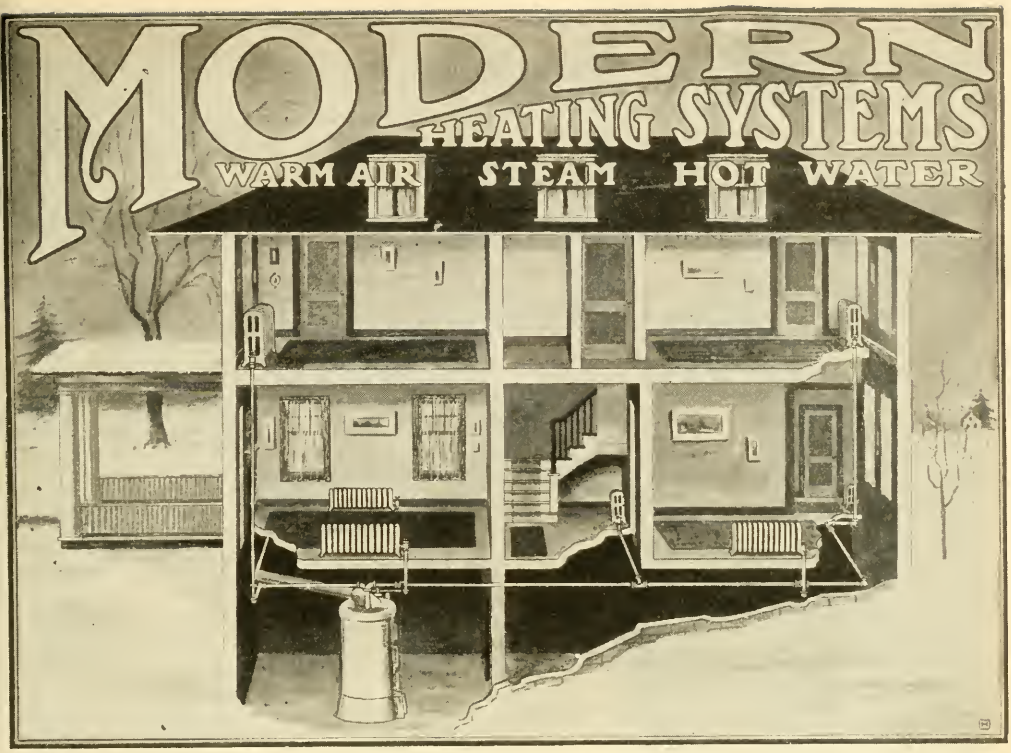
3C-1724—Japanese table lamp, height 25 in. over all, diameter of shade 20 in. This beautiful Japanese base is really a work of art. Finished in Verde Antique and fitted with two chain pull sockets, six feet of silk cord and attachment plug. $20.00.

3C-1722—Composition table lamp, finished in Roman Gold, and is a very beautiful design in extreme high relief with two chain pull sockets, six feet of silk cord and attachment plug. Diameter of silk shade 16 in., height over all 28 in. $10.00.

Aladdin Living Room Lamps

3C-1725—Floor lamp, height 6 ft., diameter of shade 24 in., fitted with two chain pull sockets, six feet of silk cord and attachment plug, and wired solid, $17.00.

3C-1726—Mahogany table lamp, height 24 in., diameter of shade 16 in., and fitted with two chain pull sockets, six feet of silk cord and attachment plug, $9.00.



A HEATING plant of some kind has become a necessity. We can supply one for your home. The prices range from $38.75 up to $250.00 or more, usually not more for an ordinary home. The picture shown above will give you a general idea of a modern steam heating plant for home heating.

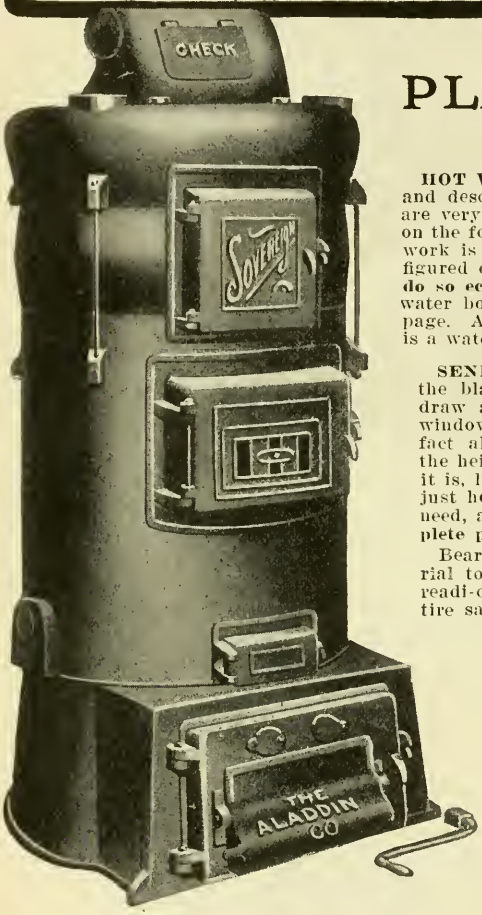
Our plan is briefly this: If you will send us a sketch of your home and advise the type of heating plant that you wish to install, we will quote you a price on same. If you decide to send us the order, we draw a plan and send you a blue print of same showing just where we propose to place the Boiler (or Furnace) as the case may be. Where we propose to place each radiator or register and just what the piping arrangement will be. After you have thoroughly examined same, either approve it and return to us, or mark any suggestions for changes which you may wish and return. Your preference in arrangement will always (if mechanically possible) be carried out. Then we will ship you the material, you to install the plant according to our plans, and use it for 365 days.

Our Guarantee If after giving any heating plant that we sell you a trial of 365 days (One Full Year) you find it unsatisfactory in any way, we guarantee to send you additional material or new material to make it work to your entire satisfaction. This Guarantee is entirely unnecessary because we could not afford to have the plant anything but satisfactory to you. For our satisfied customers are always unconsciously our representatives.

Our Service does not end when we have a plant sold,

but continues on through the installation and operation of the plant for the first year, and just as long afterward as you may need us. Our engineering department is always ready and willing to advise you in any connection whether installing or operating the heating plant. On the following pages we describe in detail the different heating plants and devices which we sell.

$35.65 — For this Aladdin Boiler



A HEATING PLANT FOR ANY HOME

HOT WATER BOILERS. The hot water boilers, as shown and described on this page, are made in the same way and are very similar in every respect to the steam boilers shown on the following page. The process under which these boilers work is absolute, **material and workmanship perfect**, and if figured correctly, one of the boilers will **heat any home and do so economically** and to your entire satisfaction. The hot water boilers are sold without trimmings, as shown on this page. All that is necessary, however, to complete the boiler is a water gauge and the hot water thermometer.

SEND US A DIAGRAM OF YOUR HOME. You may use the blanks provided for this purpose by us, or you can draw a sketch of your home, designating every opening, windows, doors, arches, etc., give exposed surface, and in fact all possible information. At the same time tell us the height of your ceilings and mark each room as to what it is, living room, dining room or bedroom. We will figure just how much radiation you need, how large a boiler you need, and we will give you a **net delivered price on a complete plant with all pipes readi-cut to install.**

Bear in mind that we are not offering you sufficient material to put in your own plant, but sell you the material readi-cut and guaranteed to install the furnace to your entire satisfaction.

THE GRATES AND ASH PIT. The ash pit is extra deep and fitted with **an anti-clinker triangular grate** as per the illustration; these grates being so made as to allow any one grate bar to be removed through the ash pit door without interfering in the least with the other grate bars. This arrangement has been found very convenient in case of grate bars burning out in extremely cold weather. This will not occur with this boiler, only in case of extreme carelessness in allowing clinkers to accumulate in the ash pit or ashes to bank up under the grates.

FIRE POT is so constructed as to give the very best results with the smallest amount of fuel.

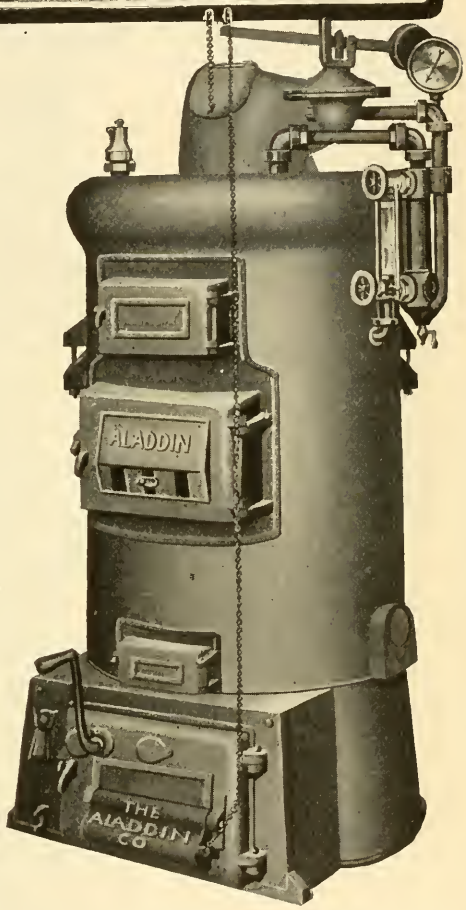
$44.85 for this Aladdin Steam Boiler

SEND US A DIAGRAM OF YOUR HOME



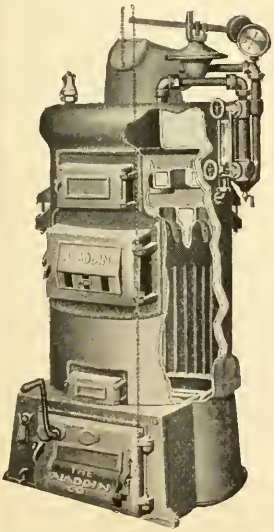
THE BEST HEATING PLANT TO BUY. In considering the best method of heating a home, so many things can be said in favor of steam, hot water or warm air, that it is almost impossible to say which is the best.

A great deal depends on the character of the building, climatic conditions and the uses to which it is put. We have endeavored to make our line so complete that we can satisfy anyone, no matter what system they prefer. We know that each heating plant which we show is as good as can be bought for the purpose for which it is intended. It is not our intention to tell you what heating plant you should use, but we will name you a price on any kind of a heating plant complete **readi-cut to install and will guarantee the plant to heat your home** to your entire satisfaction.

BURNS ANY KIND OF FUEL. Our "Aladdin" will burn either **hard coal, soft coal, coke or wood** and give entire satisfaction with any of these. We know that it is the most satisfactory soft coal burner ever put on the market. The reason for this is the **large combustion space** over the fire, for the mixing of gases, thus insuring a free burning, **economical boiler.** The fire pot is entirely surrounded by water, thus utilizing all radiating surface.

STEAM BOILERS. Our steam boilers as shown and described by us on the preceding page, are the best, **most practical boilers** that we know of, and when we offer them to you, we do so with the full confidence that they will maintain the high standard of quality which we have always maintained in our "Aladdin" Readi-cut Houses.

Steam boilers are furnished complete with all trimmings as shown on the preceding page, and the prices as quoted, include all of these trimmings. We wish to impress upon your mind that these boilers, as well as every other item shown in this catalog, are covered by our binding guarantee and you need feel no hesitancy whatever in ordering any item shown, as we are ready at all times to **refund money or replace defective or unsatisfactory items.**



TO THE OWNERS OF "ALADDIN" HOMES: We, having designed and cut your home in every detail, know that we are in better position to furnish a heating plant which will heat that home to your entire satisfaction, than some one who knows nothing of the detail. Don't fail to get our figures before buying a heating plant.

Sovereign Pipeless Furnace

COMPLETE WITH CASING $41.50

To meet the demand for a low priced warm air furnace of the pipeless type we offer this special steel radiator furnace. The price quoted is for the furnace complete with casing, floor register cold air intake, and in fact just as shown. This furnace will heat any home containing up to 8,000 cubic feet of air space, with the one register connection only: Providing of course, that all connecting doors are left open to permit a free circulation of air.

GRATES as shown in the cut on the preceding page are of the triangular bar grate type, which, in revolving, accomplished by turning the handle, effectively clears the fire and grinds up any clinkers. Each bar having three sides, one of which only is exposed to the fire at any one time and insures a long lived grate bar.

THE ASH PIT is deep and roomy, giving a large air space under the grate which promotes and is essential to a long lived grate, as nothing is so deteriorating to grate bars as having the ashes banked up underneath them. This is an important point and should not be overlooked by anyone owning or operating a hot air furnace.

THE FIRE POT is deep and extra heavy. Is a **corrugated pot** which insures an air space around the fire. Likewise a saving in fuel and greatly lengthens the life of the fire pot. Being extra heavy, it also helps in equalizing the heat.

THE BASE PLATE is one piece of heavy cast iron upon which the furnace rests. Forming at the same time the bottom of the ash pit. This is cast in one piece with the outer ring. Being connected with extra heavy cast iron bars or spokes.

THE RADIATOR is provided with a diving flue as shown in the large cut, which draws all heat to top of dome. Also all of the smoke must strike the dome of the radiator before passing into the chimney. This insures a very small percentage of waste heat. The whole radiator is made of ⅛ inch cold rolled steel.

CASING is made of best 26 gauge Galvanized Iron. Galvanized both inside and out. The casing prevents loss of heat. Is equipped with water pan, cold air duct, one length of smoke pipe with check draft.

DOORS. Both feed door and ash pit door are extra large; both being equipped with dampers. These large doors make it easy to feed the furnace, also easy to remove the ashes.

THE FIRE POT is 20 inches in diameter. Casing 36 inches in diameter and 64 inches high. Weight, 600 lbs.

3B-531—Furnace, as described..... **$41.50**

Aladdin Furnace

Pipeless $47.50 Pipeless

Showing the "Aladdin" installed in our house, the "Portland."

COSTS LESS THAN A BASE BURNER

In our **"Aladdin" pipeless furnace,** we are offering the very latest departure in warm air heating. **The principle is positive.** Cold air is taken through three 8x10 inch registers, placed in the base of the jacket which goes around the furnace proper. The **heat is forced upward** through a large 14x20 inch register placed directly over the furnace. Through this register, the hot air passes with great force to the ceiling and circulates from there **to all rooms of which doors have been left open** to be heated. The warm air will be so evenly distributed that you will find a variation of less than three degrees between the room where the register is placed and the room farthest away from same, providing of course, that doors connecting these rooms are left open to give a free circulation.

SIMPLE AND EASY TO INSTALL

To give an idea of how simple an operation it is to install one of the "Aladdins," we show a cross section view of our house, "The Portland," with the furnace installed. We call your attention to the fact that there are no large warm air pipes to destroy the usefulness of the basement, no wall pipes or fittings to be installed. In fact, any man who is so inclined, can install this furnace, do all of the work himself, and the whole operation should not take more than four or five hours. The register must be placed directly over the furnace, and the furnace should be placed, as nearly as possible in the center of the basement. You take no chance when you order an "Aladdin." We guarantee it for 365 days, one full year.

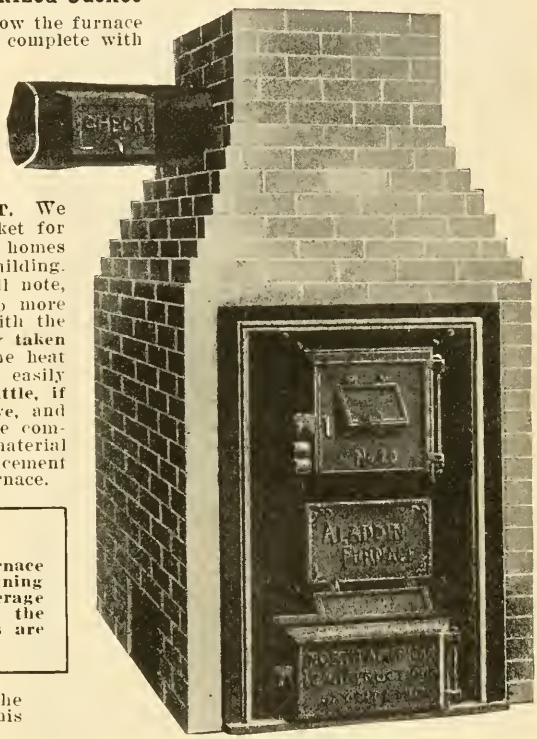
We will gladly send you copy of testimonials which we have received from satisfied customers all over the country. If interested ask for them.

"ALADDIN" PIPELESS FURNACE $47.50

SO SIMPLE THAT ANY MAN CAN INSTALL IT

Furnished for Brick Set or with Galvanized Jacket

In the large cut at the top of the page we show the furnace with a brick jacket. We furnish the furnace complete with all registers, and one extra length of 7-inch pipe, with check damper and galvanized iron register box, furnace chain and wall plate, and in fact everything necessary for installing the furnace with the exception of the brick and mortar. For setting the furnace, you will require about 350 common brick, one sack of cement and a bushel of sand.



FURNISHED WITH GALVANIZED JACKET. We recommend the furnace with a galvanized jacket for use as a portable furnace, that is, in rented homes or for temporary use in any home or store building. The price is somewhat higher, but as you will note, the price at which we sell this furnace is no more than a good heating stove would cost, and with the use of a furnace, you **gain the space ordinarily taken up by a stove,** and at the same time, have the heat in such a way as to be entirely utilized and easily controlled. This furnace will use but **very little, if any more fuel, than an ordinary heating stove,** and the prices which we quote are for the furnace complete. **No extra pipe,** registers or additional material required with the exception of the brick and cement which must be purchased for the brick set furnace.

OUR GUARANTEE.

We guarantee our "Aladdin" Pipeless Furnace without restriction, to heat any house containing 15,000 cubic feet or less of air space, to an Average Temperature of 70 Degrees Fahrenheit, in the coldest weather, providing connecting doors are left open to give free circulation.

The Fire pot is 20 inches in diameter and the walls are practically one inch thick, making this section only weigh 120 lbs.

The Grates are of the draw center shaker type, easily taken care of, and of a pattern which will save fuel. The furnace was originally intended for burning soft coal or coke, but many of our customers are burning hard coal only, and others are burning nothing but wood, in every case the results seem to be satisfactory.

The Radiator is so made that it can be opened and allow a direct draft or closed to take advantage of all of the heat generated by the furnace.

Water Coil. A water coil can be furnished for this furnace for $4.00

The Doors are amply large for all ordinary purposes. Feed doors being 11x11 inches and the ash pit door 10x16 inches. Each section of the furnace is fitted with a grooved top into which the section above fits in such a manner as to make the furnace dust proof.

In addition to this, we will allow you the privilege of returning the furnace at any time during the first year after purchase, if found otherwise than as described by us, and should you return the furnace, we will refund full purchase price, together with freight charges which you have paid.

We furthermore guarantee that there will be a variation of **less than three degrees** between the room where the register is placed and the room farthest from it. If the furnace is found otherwise than described, you may return it, and we will refund full purchase price.

No. 3B-525—"Aladdin" Pipeless Furnace for brick set, complete (less galvanized jacket.) Shipping weight, 800 pounds. (For homes containing 15,000 cubic feet or less air space.)..... **$47.50**

No. 3C-527—"Aladdin" Pipeless Furnace, as described above, but with galvanized jacket. Weight, 925 pounds. Price..... **$57.50**

No. 3C-529—"Aladdin" Pipeless Furnace for brick set, complete (less galvanized jacket). Weight, 1,470 pounds. For store buildings or churches containing 30,000 cubic feet or less air space. Price.... **$75.50**

No. 3C-531—"Aladdin" Pipeless Furnace, same as above, but with galvanized jacket. Price..... **$82.25**

SOVEREIGN CAST RADIATOR Warm Air Furnace $43.80

BURNS ANY KIND OF FUEL

TOO MUCH IMPORTANCE cannot be attached to the heating problem by the home owner. The long life of a heating apparatus and its yearly consumption of fuel, makes the original cost a minor detail.

In this, our "Sovereign" Cast Radiator Warm Air Furnace, we offer our highest grade of what is known as a pipe type furnace. It burns either hard or soft coal with equally good results. In it we combine a long lived and a fuel saving heater. It is built on scientific lines.

In connection with the life of the furnace, we might say that buying a cheap furnace for temporary use may be good policy, but if you wish to buy a heating apparatus which will last you a lifetime and give absolute satisfaction at all times, we say by all means buy a furnace with a cast iron radiator. As the original cost of a furnace, when compared with the cost of fuel, which must be bought every year, is so very small that you can well afford to pay more for the furnace in the beginning. Then depend upon making a portion of the saving on fuel consumed each year.

THE RADIATOR is made of heavy cast iron, cast in one piece, which, when once heated, will retain the heat for a long time after the fire has burned low. Eliminating joints insures a dust and gas tight radiator, and the arrangement of the flues in the radiator are such that all gases must pass entirely around the radiator before going out through the chimney.

FIRE POT. We wish also to call your attention to our sectional cast fire pot, 16 inches deep. This construction has been found to be a great advantage in preventing the cracking of the fire pot, due to unequal heating. Each fire pot is cast in two sections. Its great weight and thickness, together with the fact that it is corrugated, insures a fire pot that will not warp or burn out. In fact, it should last a lifetime.

THE GRATES are triangular and revolve. They are made with three sides, all exactly alike and thus only one-third of your grate is in service at any one time. With ordinary precaution regarding clinkers, these grates will last for many years. However, should they burn out, each bar can be removed independent of all others. The operation is so simple that a novice could do it. New bars can be substituted for old without disturbing the fire.

CASING is made of best 26 gauge Galvanized Iron. Galvanized both inside and out. The casing prevents loss of heat. Is equipped with large water pan. Large air space between cases, combustion chamber and inside of radiator, insures perfect circulation of air.

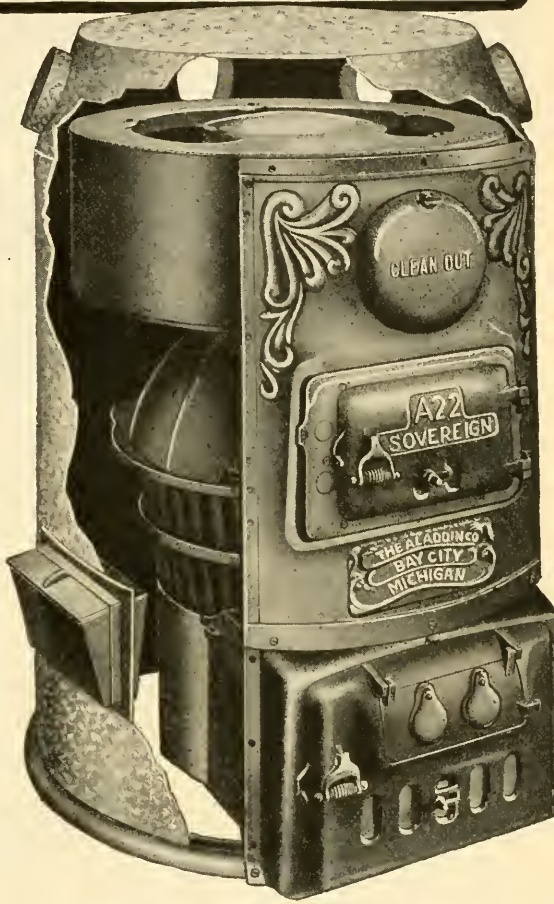
SOVEREIGN STEEL RADIATOR Warm Air Furnace $39.60

BURNS HARD COAL, WOOD OR COKE

$39.60 for this Furnace
COMPLETE WITH CASING



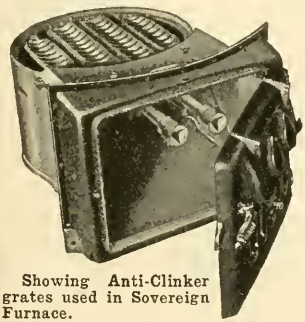
While this is sold as our steel radiator furnace, it is in fact a combination radiator. The top and bottom of the radiator being cast iron and the sides of the radiator are made of steel plate.

The Ash Pit, Fire Pot and in fact the balance of the furnace in all details is the same as the cast radiator furnace shown on the opposite page.

THE DOORS, to cleanout, Fire box and ash pit are all large, thus insuring easy access. This feature is one which is worthy of consideration, as large doors for cleanout are a convenience, large doors for fire box are a necessity especially when burning wood, and a large ash pit door is a great help when removing ashes.

DEEP CUT JOINTS. All joints between different castings on both the steel and cast radiator furnaces are deep cut, thus insuring gas and dust proof.

HOT WATER COILS. All furnaces have special provision for the introduction of Hot Water Coils for heating water for household use. These are easily put in either when the furnace is being installed or at any later date. We can furnish a hot water Coil with a capacity sufficient for heating water for a 30 gallon range boiler for $1.00.



Showing Anti-Clinker grates used in Sovereign Furnace.

THE CASING is made of 26 gauge Galvanized Iron, galvanized inside and out. The inner lining is bright tin with an air space between. Each casing is equipped with a large water pan, which when kept full of water insures a moist heat thruout the home.

Each Furnace is equipped with a double casing as described above, with chains, pulleys, etc., for damper regulation.

In the lower illustration we show the ash pit and grates used in our Sovereign furnaces. The grate bars are revolving and triangular shaped, thus insuring free passage of air on all sides, thus a perfect combustion and long service. A quick movement of the shaker handle from right to left, 3 to 6 inches either way is sufficient to clear ashes from the grates.

Our Improved Wall Pipe and Fittings

WALL PIPE

The advantages of our New and Improved Nested Wall Pipes are readily shown in the accompanying illustrations. This style of wall pipe is supplied with all our hot air heating plants. Figure at left shows how pipe is put together and figure at right shows length of pipe securely and easily locked ready for use. Comes in two-foot lengths and can be cut to any length desired. Is shipped nested the same as our hot air pipe making it possible to arrive at destination free from dents or mars.

SINGLE PIPE FITTINGS

The installation of a hot air heating system becomes exceedingly simple when single pipe and fittings are used and our detailed blue-print plans and instructions are closely followed. Absolutely no technical knowledge required enabling one to install the plant themselves and reducing cost of completed system.

NOTICE—In addition to the above illustrated line of pipe and fittings we are in a position to furnish you hot air heating materials of all standard makes at lowest prices. Simply write us what is needed and our heating engineers will be glad to forward an estimated cost by return mail.

FURNACE PIPE AND FITTINGS

OUR COMPLETE LINE OF PIPE, FITTINGS AND REGISTERS embraces many patented improvements in the highest grade of material manufactured. We are in a position to furnish pipe and fittings suitable for making practically any kind of connection used in heating an ordinary building. If you are in doubt as to how you are going to supply heat to a certain room or number of rooms, send us a diagram of the floor plans of your building and let us figure it out for you.

STEAM AND HOT WATER HEATING

RADIATOR VALVES. Jenkins Disc Angle Radiator Valve with union, nickel plated all over and **highly polished** on the union and other **raised parts.**

No. 3A-811

Size, inches—	¾	1	1¼	1½	2
Price, each—	$1.25	$1.65	$2.10	$2.65	$4.30

JENKINS DISC CORNER RADIATOR VALVE with union. Made of **heavy valve metal, fully guaranteed.** They are made for both right and left hand corners. Nickel plated all over, **highly polished** on union and other raised parts. For either right or left hand, specify which when ordering. **No. 2A-843**

Size, inches	¾	1	1¼	1½	2
Price, each	$1.65	$2.00	$2.55	$3.45	$4.90

RADIATOR AIR VALVES. Nickel plated compression radiator air valves with wooden wheel, threaded ⅛-in. pipe size. **No. 3A-845**

Price, each $0.12
Per dozen 1.25

AUTOMATIC AIR VALVES. Nickel plated automatic radiator air valves for steam, size of connection pipe, threaded ⅛-inch.

No. 3A-847
Price, each $0.40
Per dozen 4.75

RADIATOR VALVES. Lock Shield Radiator Valves, Jenkins disc., with union. Nickel plated all over. The only difference between this and No. 3A-841 being that in place of having a stationary wheel, the handle of this may be removed so that one party only can regulate the heat.

No. 3A-849 Extra keys, **10c.**

Size, inches	¾	1	1¼	1½	2
Price, each	$2.15	$2.55	$3.45	$4.50	$6.90

QUICK OPENING VALVES. Quick opening hot water radiator valves with union. Are used entirely on hot water heating plants. **They are nickel plated all over.** The union nut and other raised parts being highly polished. These valves are furnished with all our hot water heating plants.

No. 3A-851

Size, inches	¾	1	1¼	1½	2
Price, each	$0.90	$1.20	$1.65	$2.30	$3.55

HOT WATER UNION ELBOWS used on the return pipe end of hot water radiators. Nickel plated all over, polished on union nut and other raised parts.

No. 3A-853

Size, inches	¾	1	1¼	1½	2
Price, each	$0.65	$0.85	$1.05	$1.30	$2.25

RADIATOR AIR VALVES

Nickel plated compression radiator air valves with ⅛-in. pipe size connection. **No. 3A-855**

Price, each $0.10
Per dozen 1.00

ALTITUDE GAUGE

Altitude gauges are used for indicating the height of water in a hot water heating system.

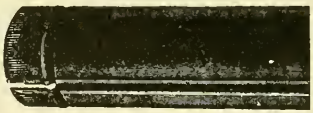
No. 3A-837
Each $1.25

HOT WATER THERMOMETER

Used in connection with hot water heating plants, register up to 240 degrees. Each thermometer **carefully packed** in individual wooden boxes.

No. 3A-839
Each 85c

SMOKE PIPE



Regular galvanized iron smoke pipe and fittings for use in connection with our steam and hot water boilers. Made of **26-gauge heavy galvanized sheet iron,** put up in two foot lengths, double seam, ready for putting together.

No. 3A-831—Galvanized Pipe.

Size, inches	7	8	9	10
Price, per ft.	17c	18c	20c	22c

No. 3A-835—26-gauge elbows.

Size, inches	7	8	9	10
Price, each	24c	26c	31c	33c

ASBESTOS CEMENT

Asbestos cement is dry and put up in bags. Is used largely **for covering boilers, heating plants,** or any other surface, to prevent loss of heat. It is composed of **asbestos fibre** and other ingredients, which when mixed with water, makes a regular cement plaster. **Will increase the efficiency** of the boiler from 20 to 50%. Comes in one hundred pound bags.

No. 2B-829—100 lb. bag..... $1.35
Per lb. 2½c

RADIATOR BRONZE POWDER

Gold bronze powder. A good quality and used for decorating radiators, pipes and other places where a very durable finish is desired.

No. 3A-827—½ lb. can. Per can..... $0.65
1 lb. can. Per can..... 1.20

ALUMINUM POWDER

Extra fine and chemically pure. Produces an attractive finish on radiators that will withstand great heat.

No. 3A-826—½ lb. can. Per can..... $1.10
1 lb. can. Per can..... 2.00

RADIATOR BRONZE MIXING LIQUID

For mixing gold and aluminum paint.

No. 3A-828—1 qt. can. Per can..... $0.30
½ gal. can. Per can..... .55
1 gal. can. Per can..... 1.00

ASBESTOS AIR CELL PIPE COVERING

Asbestos air cell pipe covering is used very largely for steam or hot water heating plants. It is an ideal insulator, is 1-in. thick, **built up of layers of asbestos paper** with small air cells between. The accompanying cut shows very plainly the appearance of a sectional view of **this covering. The pipe covering is light,** weighing much less, and at the same time being much more efficient than ordinary moulded covering. It is also very much stronger and more durable and **easier to handle** than the moulded covering. Comes in sections 3 ft. long.

No. 3A-825

REGISTERS AND COLD AIR FACES

Our line of floor registers, wall registers and cold air faces is made up of only the latest improved patterns, finished in either Black Japan or Oxidized Copper. The Black Japanned registers have a smooth black luster finish throughout, baked on, and will last for a great many years. Many, however, prefer the Oxidized Copper finish to match other hardware trimmings.

We can furnish larger or special sizes not listed and will be glad to quote prices on request.

WOODEN COLD AIR FACES

The use of wooden cold air faces is a modern idea and is becoming very popular where the return system is used on heating plants. Made of oak strips ⅜ of an inch thick by 1¼ inches in width, into which cross strips ⅜ of an inch square are glued in grooves made to receive them. Can be installed so as to be flush with floor and will match flooring.

No. 3B-655—

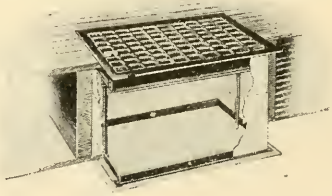
COMBINATION FLOOR AND CEILING REGISTERS



Combination Floor and Ceiling register and ventilator for use in homes where stoves are used for heating. The register can be placed in floors of second story rooms and heat which ordinarily is not used can be conveyed to these rooms.

Consists of a Black Japanned floor register, a white enamel ceiling register and adjustable register box. To install, cut a hole thru floor and ceiling, place the ceiling and floor plates in position and catch the two coil springs which hold these in place. The adjustable box is for floor and ceilings which are from 7 to 12 in. apart.

No. 3A-658—8x12 in., each.....$1.92

ALADDIN FIREPLACE HARDWARE

ALDINE DOME DAMPER

A large portion of all trouble arising in open fireplaces has been due to imperfect construction of the fireplace throat. This Dome Damper was brought out a number of years ago by an expert in this line and has overcome all the impractical features of the old built-in fireplace throat. This claim can be proven by practical demonstration. So constructed that the proper shape is given to the chimney throat allowing a smooth and even surface to permit the smoke and gases to escape without the loss of heat units. Prevents down draughts which, naturally, are the cause of smoke and gases forcing their way into the room.

The construction is so simple that it cannot get out of order. The damper door operates easily with the handle projecting through the face of the fireplace. It can be set at any angle, thus allowing for different conditions of the atmosphere. The damper door is hung in the center, which makes it impossible for soot, mortar and other foreign substances to lodge and affect the control of the damper.

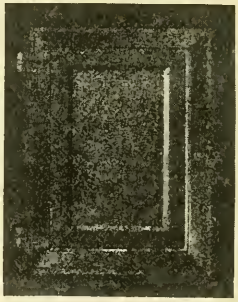
The flange around the door edge takes the place of a flat iron bar which otherwise must be used to support the arch above the opening. Made in five standard sizes as listed below:

	Outside measurement of flange.			Base of Dome			
Cat. No.	Length, front	Length, back	Depth	Length, front	Length, back	Depth	Price
3B-940	28 in.	23 in.	15¼ in.	26 in.	20 in.	12½ in.	$3.95
3B-941	34 in.	29 in.	15¼ in.	30 in.	24 in.	12½ in.	4.35
3B-942	40 in.	35 in.	15¼ in.	35 in.	29 in.	12½ in.	5.25
3B-943	46 in.	41 in.	15¼ in.	41 in.	35 in.	12½ in.	5.40
3B-944	52 in.	49 in.	15¼ in.	49 in.	41 in.	12½ in.	7.20

AUTOMATIC ASH TRAPS

Ash pit doors have use in the bottom of the open fireplace. The trap is hung in the center and automatically all the ashes will be dumped into the opening left in the fireplace below.

3B-946—Made in one size, which is 7x9..... **75c**



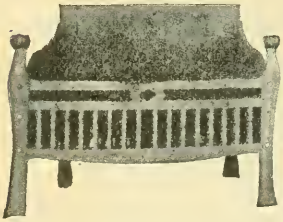
ASH PIT DOORS

Ash pit doors to be built into the opening below an open fireplace for removing ashes and refuse.

Made in three sizes as listed below:

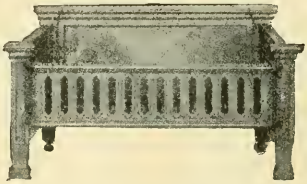
3B-947	8x 8	$1.00
3B-948	8x12	1.20
3B-949	10x12	1.25

"HOMECRAFT" BASKET GRATES



This grate is 24 inches wide and 6 inches deep at the lowest point, made of heavy cast iron, fully mounted as shown. It has a dump grate bottom and is large enough for any ordinary room. This grate when ready for shipment will weigh about 40 lbs.

No. 3A-1129—24 in. Grate, as described **$4.25**



This is a strictly Colonial pattern basket grate. It is 28 in. wide and 6 in. deep, is made of solid cast iron, and is fully mounted as shown in the cut. Has a dump grate bottom, thus easily cleaned. This grate is large enough for the largest rooms, used largely for burning wood; coal and coke can also be used as fuel. Weight, 58 lbs.

No. 3A-1130—28 in. Grate, as described. **$5.50**

This grate is used largely in smaller rooms, but is plenty large enough for any ordinary sized room. It is 20 in. long and 6 in. deep. When sent out, is set up as shown in the cut. Made of solid cast iron, painted black. Has a dump grate bottom, thus easy to clean. Burns coal, coke or wood. Weight, 40 pounds.

No. 3A-1131—20 in. Grate, as described **$3.50**

ALADDIN ELECTRIC THERMOSTAT and HEAT REGULATOR $18.50

Saves Fuel The thermostat will save its price in fuel in a very short time. With a large plant, in one year or less. With a small plant, in about two years. The reason is this: You want to maintain a temperature of, say, 72°, you set the indicator at that point. When the heat gets beyond that, the check is automatically opened. When it falls below that, the check is closed and the draft opened, both automatically. No fuel being wasted in warming the house up to 80° or 85° before you discover that you have left the draft open and the check closed.

Clock Attachment Works Automatically

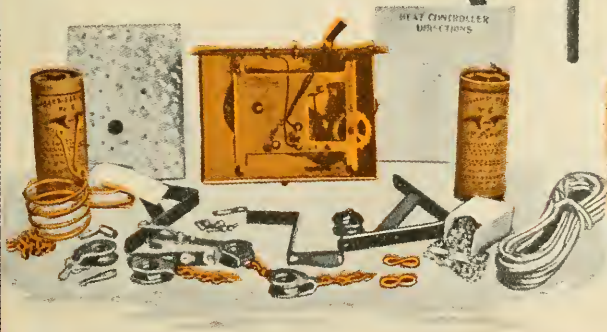
This simple arrangement is very efficient in its operation. The cut at the right shows the thermostat and cloak full size. At night, the indicator point is set at 60° or less if you so desire, then you set the alarm of the clock for one hour before your time to arise. When the time at which you have the alarm set arrives, the indicator is automatically moved forward to 70°. Thus when it comes time for you to arise, the whole house is 70°. This, of course, providing you have enough fuel in your furnace or boiler. Every operation of this regulator is automatic, with the exception of the motor, which must be wound once a week.

Simple to Install We send with each heat regulator a set of instructions so worded that any one, no matter how little mechanical education they may have, can install. But we recommend that if one is not mechanically inclined that they get some such party to install the regulator, and after it is properly installed you will wonder how you ever managed without it. We send the outfit complete—Thermostat, Motor, Batteries, Wire Chain, Ball Bearing Pulleys, Shelf Brackets; in fact, everything necessary for installing the regulator.

Works on Any Heating Plant This regulator will work on any kind of a heating plant—warm air, hot water or steam. Remember, the plant needs no special attachments to make it work with this regulator, and any ordinary kind of a plant can be operated in connection with this.

No. 3S-221—Aladdin Heat Regulator, without Clock Attachment **$14.65**

No. 3S-223—Aladdin Heat Regulator, with Clock Attachment **$18.50**



Aladdin Homecraft Market

WHAT more useful or more appreciated gift than a good watch! The memory of the giver becomes a daily, almost hourly, recurrence of appreciation by the recipient. This watch is an unusually beautifully piece of workmanship, thin model, plain, 20 year guaranteed, gold filled case, with two or three letter monograms on the back, as shown. The movement is a Waltham seven jewel with Colonial numerals on face. The watch with a Waldemar vest chain and a gold filled knife, are expressed to you, encased in a beautiful jeweler's gift box, exactly as shown.

6B-800
Gift combination.

A DESIGN that fills every requirement for a plain, rich pattern. Every detail has been worked out in such a manner as to make a design very suggestive of the period which the name indicates. Today, when period furniture is so popular, nothing could be more appropriate than a plain, rich design in tableware such as this the "Cromwell Pattern."

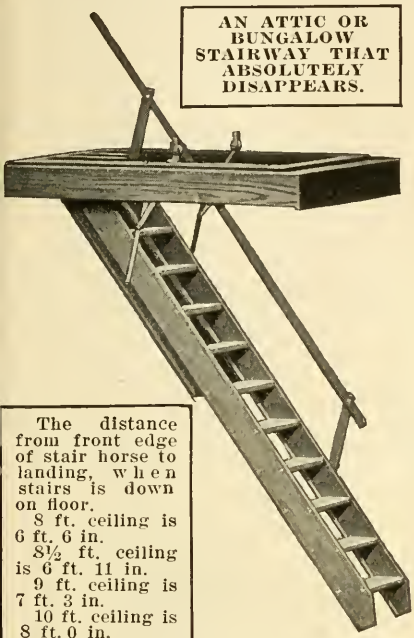
No. 3A-1—Selected Oak Arch.....$40.50

Side and head jambs and side and head casings are charged for extra as follows: Yellow Pine, $2.60; Selected Oak, $3.50.

"ALADDIN" DISAPPEARING STAIRWAY



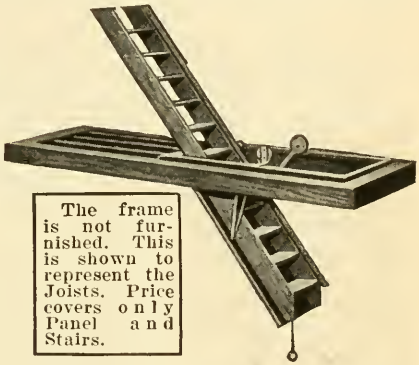
AN ATTIC OR BUNGALOW STAIRWAY THAT ABSOLUTELY DISAPPEARS.

The distance from front edge of stair horse to landing, when stairs is down on floor.
8 ft. ceiling is 6 ft. 6 in.
8½ ft. ceiling is 6 ft. 11 in.
9 ft. ceiling is 7 ft. 3 in.
10 ft. ceiling is 8 ft. 0 in.

HOW TO UTILIZE WASTE SPACE: When arranging floor space it is often found that a stairway will take up too much space, this being more especially so in bungalows, or for attic stairs in two-story homes. The "Aladdin" stairway was designed to enable the builder to provide a maximum number of square feet of floor space with a maximum of convenience and efficiency. The stairway consists of a strong well built flight of stairs, which is attached to the end trimming in the ceiling. It is quickly and easily attached and its advantages are apparent to anyone.

OUT OF THE WAY—When the stairway is not needed, it is compactly folded up in the ceiling. There is nothing visible but a neat panel, finished to match the rest of the woodwork of the room. It is ready for use at a moment's notice, but still gives you full use of all the room. When needed, a slight pull on a chain provided for that purpose, will bring the stairway down complete with hand rail ready for immediate use. It is down to stay until no longer desired or needed, when it can be quickly put out of sight, with but slight impulse on the part of the operator.

$35.50
For Stairway Complete. Anyone can install it.



The frame is not furnished. This is shown to represent the Joists. Price covers only Panel and Stairs.

EASY TO OPERATE. When stairs are not in use, they are rolled half way up on the panel (they work on rollers.) A very slight push is all that is required. A spring barrel concealed under the landing does the work. When the stairs is thus pushed up on the panel, our system of counter balance does the rest; that is, swings it up into the ceiling. A child can operate it.

THE MOST WONDERFUL THING ABOUT this stair is its simplicity. As before stated, absolutely all that is in sight when the stair is not in use, is a neat panel in the ceiling, which can be finished in harmony with the balance of the woodwork.

SOME OF ITS USES: The "Aladdin" stairway can be used in any structure, for lofts in homes and tenement buildings, in stores and office buildings; in bungalows, summer cottages, to roof gardens, etc.; to replace hatchways in yachts, launches and steamships; in fact, in any kind of a structure on land or sea.

The large cut at top of page shows the stairs let down for use. The second cut shows the stairs shoved up on the panel. The counterbalance now swing it into place as shown in cut at bottom of the page.

Place opening for stairs so that the end of stair horse, when raised in the attic, will clear ceiling or rafters. Measurements from landing to end of stair horse, when raised to close, is 5 ft. 5 in. for an 8 ft. ceiling, and 6 ft. 8 in. for a 10 ft. ceiling.

FULLY GUARANTEED

The stairway is shipped with the panel in the white. The stairs is stained and waxed and is fully and unconditionally guaranteed to give satisfaction, when properly installed, and if found otherwise than described by us, they may be returned and we will refund full purchase price. Furnished in yellow pine with a panel of either yellow pine or oak.

Stairway when not in Use.

$3.98 FOR THIS $10.00 MANTEL

OUR "CLINTON" MANTEL

An inexpensive mantel for use where the comfort or practical side of the question is of more consequence than the artistic. We offer this mantel to meet the demands. While inexpensive, this mantel has all of the essential features of our high-priced mantels. The frame is made in solid oak, finished in light or golden oak.

It is 4 ft. high and the width is 4 ft. 6 in. The tile opening is 36 inches. The projection is 4 inches or it can be furnished in the flat. The tile which we furnish is all perfect in every way, no seconds or factory culls. We furnish sufficient tile for the hearth and facing.

While we know that in this mantel we offer more than it would be possible for you to get elsewhere at the same price, our advice would be, buy a better mantel, as the cost of installing would be the same and for each additional dollar spent in fixtures of this kind, you add fully five dollars in value to your home. Prices either with or without fixtures.

3B-900—Mantel with woodwork only **$4.25**

3A-902—Mantel with best quality tile for hearth and facing and outfit No. 1, as shown on page 138 ..... **$15.50**

3A-904—Mantel with best quality tile for hearth and facing and outfit No. 2, as shown on page 138 ..... **$23.00**

OUR "COLONIAL" MANTEL

This most attractive White Mantel is offered by us at a remarkably low price, and we do not hesitate to say that anyone purchasing this outfit will get more than their money's worth.

The finish is pure white. We cover it thoroughly with 3 coats of white lead and pure linseed oil. The reason we do not give it the finish coat of white enamel before sending it out from the factory, is that enamel being so hard and brittle would be very liable to get damaged in shipment.

The height is 4 ft. 4 in. Width 5 ft. The tile opening is 42 inches wide and 42 inches high. Tile projection, 4 inches.

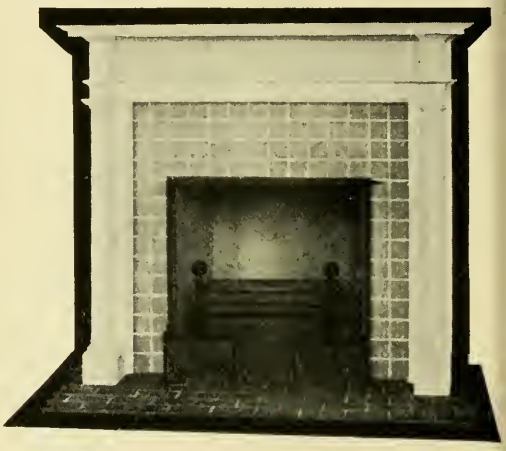
As furnished by us these mantels are ready to install. No special chimney or flue is needed. In fact, if furnished with Outfit No. 2 any person with ordinary intelligence can place it: no special tools, skill or extra material being required.

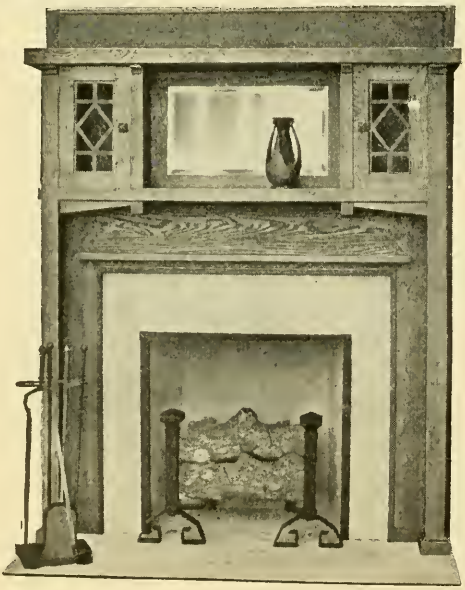
This grate will burn any kind of fuel, hard or soft coal, coke or wood, and is absolutely clean. Requires the removal of ashes but once daily.

3B-906—Mantel with woodwork only **$17.75**

3A-908—Mantel with tile for hearth and facing and outfit No. 1, as shown on page 138 ..... **$32.50**

3A-910—Mantel with tile for hearth and facing and outfit No. 2, as shown on page 138 ..... **$41.00**





OUR "MAYFAIR" MANTEL

Is especially brought out for the benefit of those who wish to use it in a room where furnishings are mission, as it is always sent in **Weathered Oak finish** unless otherwise ordered. It can, however, be furnished in **Golden Oak** with extra gloss finish if desired.

The complete height is 6 ft. 7 in. Width, 4 ft. 7 in., with wall plate to 5 ft. **Bevel French Plate Glass Mirror** is 12 inches by 30 inches. Clear glass in the doors. Opening for tile is 42 inches wide by 39 inches high. The tile projection is 4 inches.

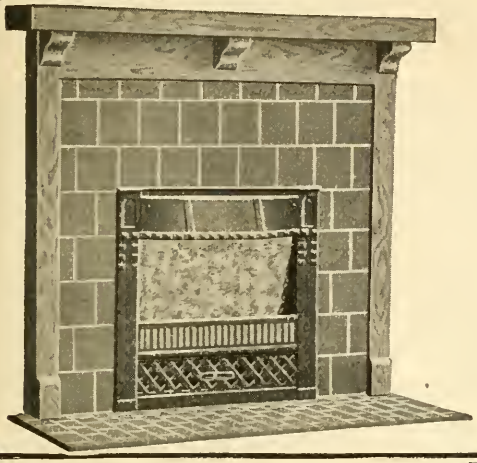
When buying a mantel it is always well to remember it is for a life time and a few dollars extra is sure to be a constant source of pleasure.

We are not offering a high-priced mantel, but are offering as good as money can buy, and in the grates, while our prices are higher than some, we know that they will give perfect satisfaction under any and all conditions, no matter how trying. We have therefore selected the best, regardless of cost. The principal design and workmanship is perfect. The finish is of the best. The price is lowest when quality is considered. Shipping weight, 240 lbs.

3B-912—Mantel with woodwork and mirror only **$32.00**

3A-914—Mantel, complete, with tile for hearth and face and outfit No. 1, as shown on page 138 ..... **$44.75**

3A-916—Mantel, complete, with tile for hearth and face and outfit No. 2, as shown on page 138 ..... **$55.50**



$13.95 OUR CRAFTSMAN MANTEL

Our Craftsman Mantel is made of thoroughly seasoned air and kiln dried Oak, this being an essential feature in making a mantel which will stand, be durable and keep perfect joints. The standard finish for all Oak Mantels is Golden. The plank top is heavy, supported by three brackets as shown.

No. 3B-918—Mantel, woodwork only **$13.95**

No. 3C-920—Mantel, with tile facing and hearth and grate outfit No. 1 ..... **$24.65**

No. 3C-922—Mantel, with tile facing and hearth and grate outfit No. 2 ..... **$32.10**

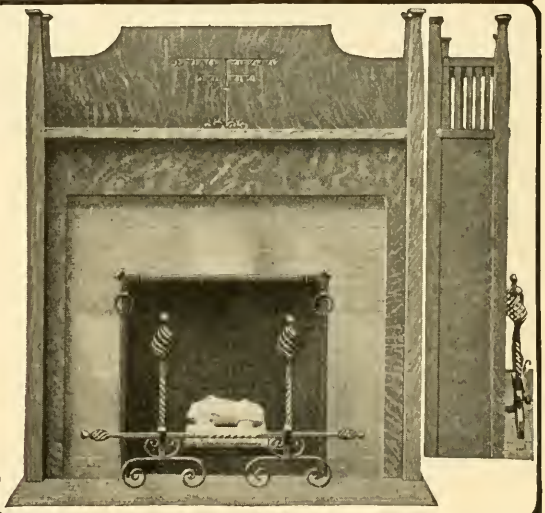
$19.75 OUR FURNITURE MANTEL

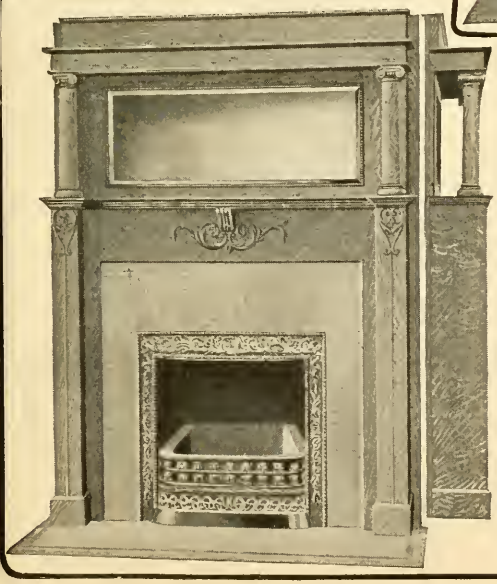
A more elaborate mantel without mirror, made of quarter sawed Oak throughout, with four corner posts, which taper to the top, and above the top between these posts at each end is a spindle lattice work. The view at the right hand side of this illustration shows an end view of this mantel.

No. 3C-924—Mantel, woodwork only **$19.75**

No. 3C-926—Mantel, with tile facing and hearth and grate outfit No. 1 ..... **$31.00**

No. 3C-928—Mantel, with tile facing and hearth and grate outfit No. 2 ..... **$37.90**





$28.60 OUR STANDARD MANTEL

Made of selected quarter sawed Oak with a 16x36 plate glass mirror between the top and the shelf. At the right hand end of the illustration we show an end view of this mantel, which will give a very clear idea of the finished appearance of this mantel.

No. 3B-930—Mantel, woodwork only **$28.60**

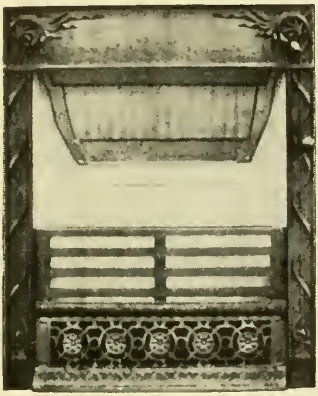
GRATES AND ANDIRONS MODERN ARTISTIC MASSIVE

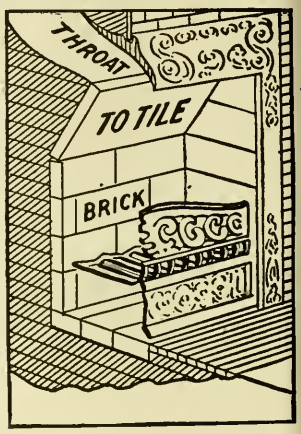


Interior View No. 1

OUR GRATE OUTFIT NO. 1

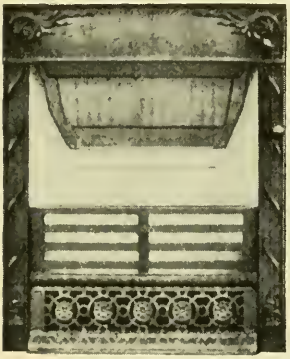
as shown in the cut, consists of frame, basket, ash screen and summer front. The summer front is made of heavy sheet steel, stamped in **artistic designs,** as shown on the preceding pages. In the complete mantel outfits, the frame, basket and ash screen are made of heavy cast iron. The frame has a **double Electro** plated finish, and is furnished in either Oxidized Copper or Oxidized Brass finish. The basket grate is 20 in. wide. The outside dimensions of the grate frame are 24½ in. wide by 30¼ in. high. **No fire brick or back tile is included** with this outfit, but simply the frame, basket and ash screen. In the cut on the right hand side of page, we show the method of laying brick and tile for this outfit. All necessary equipments aside from these are furnished by us.

3B-935—Grate Outfit No. 1.....$7.50



Sectional View No. 1

ABOVE IS THE OUTFIT REFERRED TO ON THE PRECEDING PAGE AS OUTFIT NO. 1



Interior View No. 2

GRATE OUTFIT NO. 2

THE GRATE OUTFIT SHOWN HERE is a practical outfit for any one to buy, and we consider it the **best grate on the market** today. More for your money than you could possibly get elsewhere. While the price seems slightly more than that of our outfit No. 1, it is practically nothing more when you consider the price of the fire brick which are never quoted with an **unmounted grate. This outfit No. 2, being built all in one piece,** sets in the fire place just like a stove and requires no fire brick.

YOU SAVE THE LABOR OF LINING THE FIRE PLACE with brick; simply make the opening to fit this grate, and when it is in place, you will have no trouble in building the throat of the chimney to throw the heat into the room. The throat in this is set at exactly the right angle, and if your chimney has proper draft, **it will never smoke.**

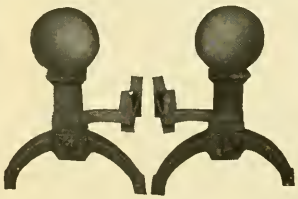
Side View No. 2

THE EQUIPMENT IS FRAME MOUNTED, as shown, basket and ash screen, and upper and lower dampers with which your fire can always be regulated. The basket has dumping bottom; size of the grate is 20 in. Outside dimensions of frame are 24½ in. wide, 30¼ in. high.

3B-936—Gate Outfit. Number 2..... $10.50

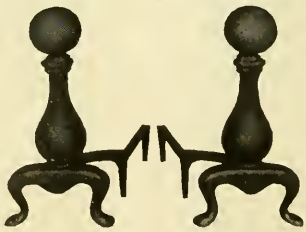
ABOVE IS THE OUTFIT REFERRED TO ON THE PRECEDING PAGE AS OUTFIT NO. 2

A FEW OF OUR PATTERNS OF ANDIRONS



No. 3A-925 — These Andirons are 13 in. high, with open back and full ball ornament. Made in cast iron with wrought iron finish, for use in open brick or stone mantels.

Price, Per Pair **$3.90**



No. 3A-927 — This very attractive design Andiron, 18 in. high, made of cast iron, finished in black. A perfect imitation of hand hammered iron. Open back and hammered ring ornaments. Price, Per Pair **$6.80**

No. 3A-929—Heavy square Andirons, 14 in. high, made on strictly Colonial lines, of cast iron, with wrought iron finish. Massive in appearance, and of a very rich design.

Price Per pair **$6.50**

"ALADDIN" PLASTER BOARD

$1.80 PER SQUARE

NOT A SUBSTITUTE FOR PLASTER BUT AN IMPROVED PRACTICAL FORM IN WHICH TO USE PLASTER. We do not claim that our "Aladdin" plaster board is a substitute for plaster. We claim much more, however. We claim that it is a practical, improved form in which to use plaster. The construction is as shown in the cut at the lower left hand corner; that is four layers of heavy felt paper and three layers of hard white plaster. We claim for this construction many advantages over old time-honored plaster. It is as near fire proof as plaster can be made. It is sound proof and is **30 per cent warmer than ordinary plaster.** Can be put on in any kind of weather and the big feature is the economy in applying.

FIRE PROOF—By actual test "Aladdin" plaster board has withstood 1700 degrees of heat, applied to the center of a sheet of the board. The peculiar construction, that is the pressure under which the board is placed in the making, **drives the plaster into the fiber of the paper, thus making it a part of** the plaster and at the same time, giving it its fire resisting qualities.

SOUND PROOF. To ordinary plaster, which is considered a non-conductor of sound, we add four layers of heavy felt paper, which in itself is also a **non-conductor of sound.** (Heavy felt paper being used all over the world as deadening felt.) Thus in the combination of these two non-conductors of sound, we claim to have a **sound proof plaster board.**

WARMER. In building a home, you naturally in thinking of something to make it warm, use a layer of paper on your boxing, which is correct. With our **"Aladdin" plaster board** we give you four layers of paper around each room. By actual test a house lined with "Aladdin" plaster board requires 18 per cent. less fuel than the same house in which lath and plaster have been used. We have letters from satisfied customers in nearly every state, who have used our plaster board, all of whom seem to be more than pleased, and we can, therefore, say that it gives universal satisfaction. Being a non-conductor of heat, we claim that our plaster board will keep your house warmer in winter and cooler in summer than any other form of plaster.

Showing method of applying "Aladdin" Plaster Board

EASY TO APPLY. The greatest feature of this plaster board is the ease in which it can be applied. The sheets are 32x36 inches. Can be used on **studding placed 16 or 18 inches apart** and is nailed directly to the studding. For nailing, use 1¼ inch nails with large heads. Space the sheets of plaster board ¼-inch apart and space the nails from 4 to 6 inches apart. Use a common hand saw to cut the sheets where necessary.

AFTER YOU HAVE COVERED the room with the board in this way, use our plasto-filler for filling in the space between the sheets of plaster board. **Or better still,** put a putty coat or hard plaster finish directly on the plaster board. In either case you can paint, kalsomine or use wall paper on the walls. We show at the bottom of the page, a room in one of our "Aladdin" houses finished with wall paper over "Aladdin" plaster board.

No. 2A-550—"Aladdin" Wall Board, per 100 square ft..... **$1.80**

No. 2A-552—Plasto-Filler (use 10 lbs. for ordinary room), per lb.....$0.02

"ALADDIN" QUALITY DOORS

OUR TWO LEADERS

BETTER QUALITY **LOWER PRICES**

These beautiful Oregon Pine doors are strictly No. 1 grade throughout, and are of true **"Aladdin" quality.** The stiles and rails are made of edge grain, clear Oregon Pine; the panels are **rotary cut veneered,** and we can absolutely guarantee that these doors will last longer, finish better and more easily than any other door on the market.

The one panel door shown in this cut is of an extremely artistic design, and would not be out of place in any home, no matter how expensive. The panel of these doors is the same as in our Indiana, Illinois and Pennsylvania, shown on the preceding pages.

Ask for finished sample.

Prices quoted are for doors 1 ⅜ inches thick.

TENNESSEE

IF YOU WANT THE BEST IN BUILDING MATERIALS, BUY ALADDIN QUALITY

This beautiful two-panel door is made entirely of clear Oregon Pine, with edge grain stiles and rails, and **rotary cut veneered panels.** The appearance of the door could not be improved upon in any way. The proportions are exactly right, to make a **rich, massive appearance.**

In connection with this, will say, that **these doors are being used in some of the most expensive and artistically appointed homes** which have been built in the east this year, while the price is no higher than many common "B" grade doors **offered so generally** today.

They all bear the **"Aladdin" quality** brand, and are absolutely guaranteed.

Prices quoted are for doors, 1 ⅜ inches thick.

"ALADDIN" QUALITY DOORS

BEAUTIFUL OREGON PINE DOORS

Pennsylvania

The most beautiful, and at the same time, the most durable door on the market. Made from clear Oregon Pine, having all the lasting qualities of Michigan Pine and the beautiful grain of Yellow Pine.

We handle nothing but strictly No. 1 doors, and in this follow out our principle of using the name "Aladdin" only on articles we can stand back of in every way.

Could we but have one of these doors in your locality, where you could see it, we know that you would buy it in preference to any other door on the market.

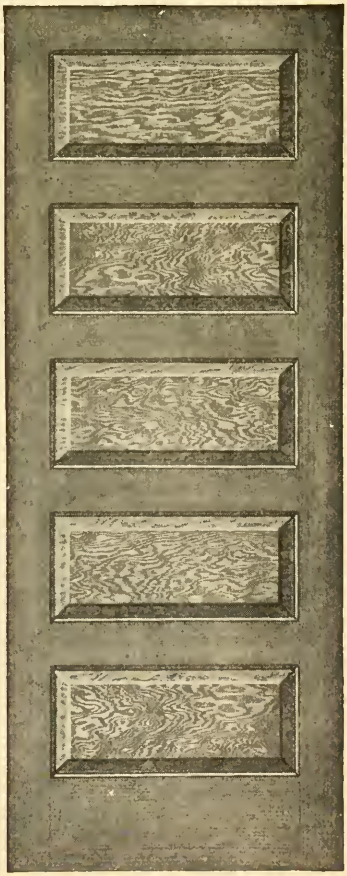
The construction of the door is of the very best. The stiles and rails are made of slashed grain Clear Oregon Pine. The panels are veneered with rotary cut Oregon Pine. We claim that our price on this door is absolutely the lowest ever offered on a door which could in any way compare with this. In order that you may see the beautiful grain which this wood has and the finish which it will take, we will, upon request, send you a sample of the panel, stained and finished, and at the same time, tell you how to finish the door to get the best effect.



Vermont

OUR VERMONT 5-CROSS PANEL DOOR

The pattern of this door has been very popular for several years past as an inside door, and in Oregon Pine we are offering you a **justly popular door** in the perfect wood for door construction. Oregon Pine **lasts longer, works easier** and **takes a better finish** than any wood from which a door can be made. The stiles and rails are edge grain, clear Oregon Pine, panels are flat grain Oregon Pine. The proportions of this door are perfect. In all, it makes an exceptionally good and handsomely appearing door.

PRICES QUOTED ARE FOR DOORS 1 3/8 INCHES THICK.

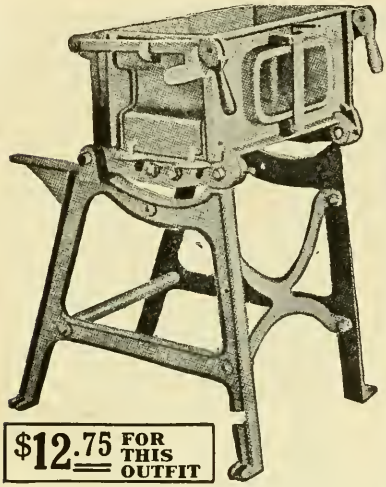
"ALADDIN" CONCRETE BLOCK MACHINE



$12.75 FOR THIS OUTFIT

FOR MAKING BUILDING AND FOUNDATION BLOCKS

THREE SIZES—8x8x16 IN., 8x10x16 IN. AND 8x12x16 IN.
EASY TO OPERATE. NO EXPERIENCE NECESSARY.

THE CONCRETE BLOCK MACHINE illustrated here is without question **one of the biggest bargains** ever offered to the trade in a machine that will make a standard size block either in a single or a double core on the face down principle. We are able to make you this remarkably low price because of **our buying in large quantities** and giving our customers the benefit. Anyone contemplating building houses, whether of wood or of concrete, will find **this machine very practical** and just what is needed. Because the initial cost is so small, it will pay for itself out of the first 200 blocks made. It is a **practical machine for carpenters, stone masons and brick layers.** It makes an excellent utility machine for block plants. It can be furnished in three sizes—8 in. by 8 in. by 16 in., 8 in. by 10 in. by 16 in., and 8 in. by 12 in. by 16 in. single or double core.

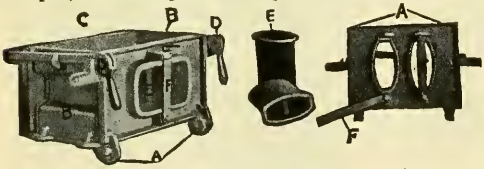
CONSTRUCTION. The "Aladdin" face down block machine is made entirely of the best grade of gray iron castings. The moulds are closely fitted, **and are of simple construction.** All parts are made interchangeable and the face plate is of **very deep cut design.** A special eccentric latch is used for locking the mould securely. The stand is rigidly supported and made to carry the mould with the material and **to stand for severe tamping.** We guarantee this machine to make a perfectly true block.

ATTACHMENTS. A number of different attachments can be furnished at a nominal extra charge, for the "Aladdin" block machine, and we illustrate a few of these below. These attachments are very readily and easily placed in the machine. A flask attachment takes the place of the mould as shown in complete machine. A four inch course attachment takes the place of face plates and end doors. An angle bay window takes the place of face plate and one end door and a circle bay window takes the place of face plate and two end doors. **All attachments are arranged** so as to make the block face down, which permits you to use special coloring or a rich mixture for face block with a lean mixture for the balance of block. We make a very nominal extra charge for these attachments.

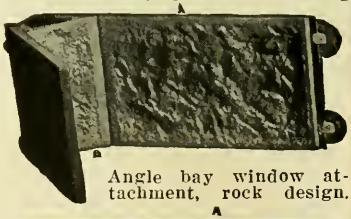
FACE PLATES. We can furnish a number of different designs of face plates at a very nominal extra charge. These face plates include broken ashlers of four different designs, whirlwind scroll, rope, cobblestone, tooled margin rock, tooled margin bush-hammer, tooled face, panel, plain and water table plate. **All these plates are of correct design** and make an excellent addition with the regular outfit and will give you an ample assortment of different styles of blocks.

REGULAR OUTFIT. The regular outfit shipped with "Aladdin" face down block machine consists of one rock face plate for whole blocks, one rock face plate for one-half and two one-quarter size blocks, one interchangeable rock plate, one pair of core end plates, one pair of dividing plates for fractional size blocks, one steel striker, one pair of joist block plates, one double end tamper, one sample wood pallet, one gable block dividing plate and necessary plugs for making whole blocks. This outfit will make all blocks necessary in an ordinary building. When ordering, specify the style of machine wanted. We **ship double core unless otherwise specified.**

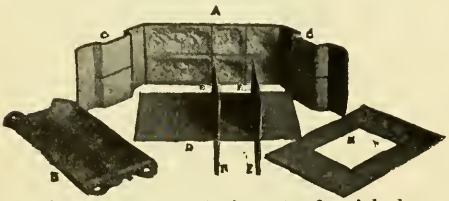
Shipped direct from factory in Central Wisconsin.



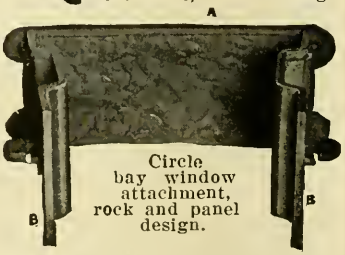
Extra flask attachment, furnished in single or double core, 8x8x16, 8x10x16, or 8x12x16.



Angle bay window attachment, rock design.



Four inch course attachment, furnished rock panel and plain design.



Circle bay window attachment, rock and panel design.

"ALADDIN" HAND AND POWER BATCH MIXER

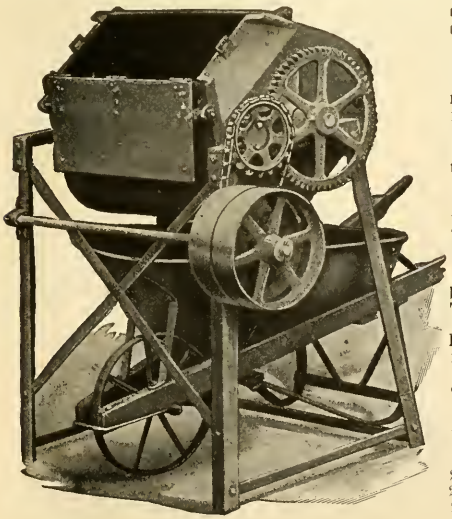
A PRACTICAL MIXING MACHINE FOR SMALL JOBS. FASTER THAN HAND MIXING AND GIVES A MORE UNIFORM AND RELIABLE MIXER.

The "Aladdin" Batch Mixer is designed to fill the demand for a low price machine that can be used on small jobs by carpenters, stone masons, brick layers, and also by those contemplating putting up their own buildings. The machine is also designed for efficiency in its operation and also as to thoroughness of its mixing qualities. Nothing has ever been offered that will equal this machine for its speed in mixing, its ease of operation and its extremely low price. We are only able to make this price because of our excellent connection and purchasing this machine in large quantities. No carpenter, brick layer or stone mason can afford to be without one of these machines. He cannot purchase the lumber to build the box and buy the necessary hoes, shovels, etc., that are required for mixing of concrete, any cheaper than he can buy this machine. It is a well known fact that machine mixed materials are more uniform in color and in the quality of the mixture. Machine mixing is faster than mixing in the ordinary box. The machine is always ready for operation, requires no attention or care other than cleaning when through, and will always be found on the job. It is light and can be very readily ported around. It can be taken into buildings and can be used on small jobs and repair work.

CONSTRUCTION. In making the extremely low price on this mixing machine, the manufacturers have not stinted in workmanship or material. This machine is made of the very best grade of gray iron castings and steel. The drum has two cast iron heads, which carry the bearings and are held to the steel shell of the drum by means of four heavy rods, running the length of the drum. The door of the drum is of heavy sheet steel, properly re-enforced, and swings on three heavy hinges. The latch which holds the door is very easily operated. By a turn, either one direction or the other, it can be released and the door drawn back. A catch is provided on one of the rods, which is intended to hold the door when dumping the material. There are no paddles to get out of order or clog up and make the machine useless. The shell is of heavy steel and is rolled to a triangular shape, as noted in the illustration. This shape produces a correct mixture and turns the material over three times at every revolution of the drum. The machine is back geared four to one, making the turning very easy. The stand is made of steel angles, thoroughly re-enforced and braced, making a substantial outfit all the way through. A wheelbarrow can be run underneath the machine to receive the load. Ample space is provided for standard types of wheelbarrows, and deflectors are arranged on the drum ends so that the material is discharged directly into the wheelbarrow without spilling any concrete.

CAPACITY. The capacity of the "Aladdin" Hand Batch Mixer is three feet of loose material. This machine has a remarkable capacity for its size when you compare it with advertised large type machines, which claim no greater capacity. However, this is entirely due to the mixing principle of the triangular shaped drum. It is not well to overload the machine. The rated capacity produces the best results and the fastest mixing.

OPERATION. If you are using a mixture one, two and four, place in the coarse material first, then the finer grade material and last the cement. When placing in the cement, distribute it over the length of the drum. Place the amount of water necessary into the machine. Close the door of the machine, which operation is fast on account of the link arrangement and one lever control. The mixture is now ready to be turned, and by turning the drum from ten to fiteen revolutions, you will have a batch that is thoroughly mixed. The amount of water depends largely on the work at hand. When dumping, push the lever to one side and throw the door back to catch on rod. Turn the machine and dump directly into the wheelbarrow.



POWER ATTACHMENT. We can provide a power attachment for the "Aladdin" machine at a very nominal extra expense, having a very simple power attachment, which can be attached to the stand of the machine and is properly back geared so as to give the correct number of turns of the mixing drum. This attachment has two bearings, which are bolted to the stand of the machine. The pulleys turn on the cold rolled steel shaft. A sprocket wheel is bolted on to the pinion where the handle is attached, using cap screws, and this sprocket is driven from a small sprocket, which is cast with the pulley. A loose pulley is also provided so that the drum can be stopped without necessarily shutting off the power. This outfit is easily attached; always shipped separate from the machine. Complete with shaft, pulleys, sprocket and chain.

Every tool is absolutely guaranteed and we feel certain will give absolute satisfaction in every way. The chest is large and roomy and well finished, is exactly the same as furnished with our "Vulcan" outfit with the exception of the brass corners. We have sold this outfit largely for use in manual training schools, etc., and while low in price, is not a set of cheap tools, but one of which any man or boy could be proud.

2A-931, COMPLETE OUTFIT $12.55

ALADDIN PAINT PRODUCTS

All Aladdin Paint Products are sold with the full assurance that they will give complete satisfaction, both as to durability and finish.

Our prices are the lowest at which really dependable products can be made and sold, and are a result of our policy to ship direct from factory to user.

You are saved the higher costs necessitated by the countless expenses, incurred by traveling salesmen, jobbers, cartage, insurance, rent, clerk hire, etc., that must of course be added to paint sold at local retail stores.

Although sold at exceptionally low prices, the quality of Aladdin Paint Products is always the first consideration and under no circumstances is it ever cheapened to permit a lower price.

GUARANTEE OF DURABILITY AND SATISFACTION

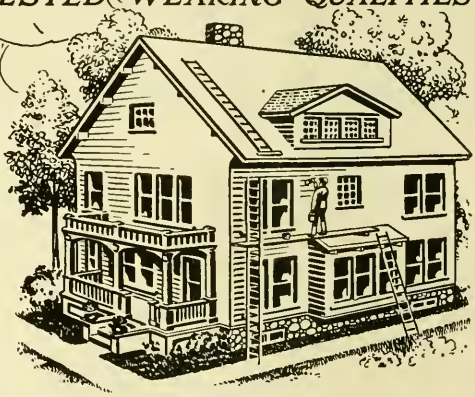
We guarantee Aladdin Ready Mixed House Paint to be composed of the highest grade ingredients; is a perfect preservative; contains nothing injurious; will cover 300 to 350 square feet of surface, two coats to each gallon and will not peel, blister, chalk or rub off when used according to our directions on the label.

We agree to furnish new paint free should our paint fail to come up to this guarantee.

THE ALADDIN COMPANY

ALADDIN Ready Mixed House Paint

A COMBINATION PAINT OF TESTED WEARING QUALITIES



A house paint of exceptional purity and lasting qualities. For real durability, spreading capacity, lustre, ease of brushing and fastness of color, we can truly state Aladdin House Paint to be unexcelled by any other coating.

The base is pure Sublimed Lead and Zinc Oxide ground in Linseed Oil, to which is added the necessary tinting and extending pigments. Every ingredient is carefully weighed and calculated so that each and every gallon is uniform in both color and consistency.

The formulas of the various colors of this paint have all been given protracted weather exposure tests, so when we guarantee its wearing qualities, we do so with a definite knowledge that it will give the service demanded of a high grade house coating.

The excellent covering capacity combined with the moderate prices, make Aladdin House Paint one of the best paint values on the market.

A color card showing the twenty-four desirable shades of this paint will be sent upon request.

AMOUNT OF PAINT REQUIRED

To determine the required quantity of paint, measure the length, width and height of the building. Add together the total number of lineal feet of the two sides and two ends. This will give you the total length of the surface. Then multiply this by the height of the building in feet, which will give the number of square feet to be painted. Divide total by 300 and you will then know the approximate amount of gallons required for two-coat work.

EXAMPLE

Front	22½	lin. feet
One side	30	" "
Rear	22½	" "
Other side	30	" "
Total	105	" "
Multiply by height	20	

300)2100(7 gal.

HY-VALU READY MIXED HOUSE PAINT

A Medium Quality Paint Sold at Exceptionally Moderate Prices

A ready mixed paint of excellent value for the prices quoted. Composed of pure Sublimed Lead, pure Zinc Oxide and in addition such other pigments as are required for the production of the Outside White, Inside White, and the various other colors that comprise this line.

For many purposes, particularly inside work, we recommend it quite as fully as we would our "Aladdin" grade. It possesses a good luster, spreads freely, covers well and is durable. It is guaranteed by the manufacturer to give full satisfaction as to its lasting qualities, and for those who feel that they can not afford "Aladdin" House Paint, we suggest this grade as a lower priced product.

Bear in mind that most paints sold at these prices are highly adulterated to such an extent that they are rarely ever backed by a real durability guarantee such as covers this paint.

Send for sample card of colors.

ALADDIN MINERAL BARN PAINT

Aladdin Mineral Barn Paint is made in two mineral colors that are noted for their permanency and durability. The basis of this paint is an Iron Oxide, over 35% pure iron, and Linseed Oil—a combination that cannot be equaled for real durability. We guarantee that neither of these colors will fade, peel, chalk or blister when applied according to our directions.

A barn, more than any other building on the farm, should be kept well painted, because it is large and prominent. Your neighbors and others all see it. A well painted barn is a sure sign of thrift and prosperity. Farmers judge each other by these appearances.

OUR GUARANTEE

Aladdin Mineral Barn Paint will make your barn look good and keep it so for a long, long time. So thoroughly are we persuaded that this paint cannot fail to meet the most exacting requirements, so sure are we that its use will make every purchaser its ardent advocate, that we unhesitatingly back it by what we believe to be the broadest guarantee ever put upon a barn paint.

Made in two mineral colors—Bright Red and Brown.

One gallon will cover 300 square feet of surface, two coats.

ALADDIN CREOSOTE WOOD PRESERVER

If you are going to lay any foundations for buildings, silos, and similar structures, or erect fence posts, or in fact, place any timber under or near the ground, be sure to give them a treatment with this preservative.

It will save you a good deal of money and inconvenience in years to come. Remember that rebuilding costs are always high. All timber work is sure to decay when exposed to moist earth, and is also attacked by the teredo and other boring insects. The preservative is made with a Creosote base which for many years has been used to prevent the tremendous loss entailed by rot and insects.

Aladdin Creosote Wood Preservative is a penetrating liquid which may be applied by either brushing, dipping, or the vacuum process, which is employed in large operations.

It is recommended for wooden fence posts, poles, sills, joists, wooden curbings and steps, trestle-work, bridges, railroad ties, water tanks, silos, wharves and docks, ships, barges, dams, plank walls, windmills, water towers and all other timber work exposed to moisture and insects.

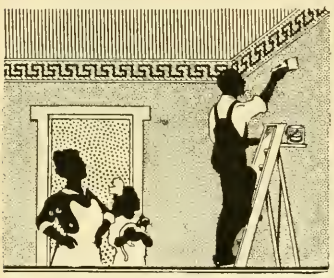
ALADDIN HYGIENIC FLAT WALL FINISH

The new wall finish. No more wall paper that splits, cracks, comes loose from the wall, fades, gets out-of-date and acts as an incubator for untold millions of disease germs.

No trouble to apply and **never wears out,** never rubs off on the clothes, as does whitewash and cold water paints. When you wish to clean your walls simply wipe them off with a sponge, soap and water, and they are as fresh and neat as when new, as it is strictly an oil finish.

It is non-poisonous, and produces a soft, velvety finish that is restful to the eyes and nerves.

By the addition of one-eighth part of Boiled Linseed Oil a semi-gloss finish can be produced.



It comes ready for use and a handsome sanitary finish can be had by following the explicit directions printed on the labels. It may be used on burlap, canvas or fibre board as well as ordinary wall and ceiling surfaces.

One gallon will cover about 400 square feet of surface, one coat.

Made in the following colors:

Sky Blue	**Cream**	**Sea Green**	**Monk Brown**
Pink	**Maroon**	**Olive Green**	**White**
Pearl Gray	**Canary Yellow**	**Tan Brown**	**Delft Blue**
			Gray

ALADDIN Interior Enamel

A high grade enamel made in several delicate and highly lustrous colors. It is particularly made to meet the "easy to apply" requirements of the novice, and flows easily under the brush, producing the same results as though the services of an expert were employed.

Steam, moisture and gases have no harmful effect upon it and the enamel may be repeatedly washed without impairing its lustre.

Use it on beds, dressers, tables and all kinds of furniture.

One quart will cover approximately 60 square feet of surface, one coat.

Send for sample card of colors.

No. 2B-2666 1 Gallon $2.50	No. 2B-2668 ½ Gallon $1.29	No. 2B-2670 Quart 66c

ALADDIN Architectural White

A pure white enamel of extra quality, for the better class of architectural finishing.

An exceptionally high grade enamel made in White only, for the better class of architectural work that demands the very best of finishes. Prepared of the choicest of materials with the idea of securing the best working, flowing and drying qualities, extreme whiteness and full lustre. It can be used indoors or outdoors and rubbed to a dull finish or a high polish if desired.

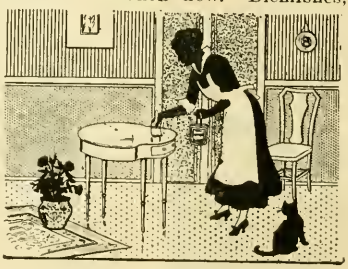
All new surfaces should first be coated with Aladdin Flat White Undercoating.

One quart will cover 60 square feet or surface, one coat.

No. 2B-2672 1 Gallon $3.70	No. 2B-2674 ½ Gallon $1.93	No. 2B-2676 Quart $1.00

ALADDIN-LAC A COMBINATION OF STAIN AND VARNISH

Aladdin-Lac is made in several handsome wood effects and dries with a varnish finish. Old, dingy, scratched and marred furniture can be made to appear as attractive as when new. Blemishes, scratches, and other imperfections are easily hidden and a can of it should always be kept in the house for touching up furniture that may be injured from time to time.



This stain is not affected by either hot or cold water, and may be repeatedly washed with soap and water without in any way harming the quality of the finish. The colors are all permanent and a lasting finish is certain because of this fact.

In addition to the stain effects it is also made in White, Flat Black and Ground color. Ground color is used as an undercoat when dark surfaces are to be finished over in lighter effects.

Made in the following colors: Mahogany, Light Oak, Cherry, Flat Black, Dark Oak, Rosewood, Walnut, White, Green Malachite, Ground.

One quart will cover approximately 60 square feet of surface, one coat.

Send for sample card of colors.

ALADDIN LINSEED-ASPHALT ROOF PAINT

A Protective Coating for Felt, Composition and Metal Roofs

A DAMP-PROOFING FOR FOUNDATION WORK STOPS LEAKS IN CISTERNS, TANKS AND VATS RUST PROOFS UNDER-GROUND METAL WORK

A coating composed of Trinidad, Utah and California Asphalts, all of which are blended in such proportions as to produce the greatest elasticity and toughness.

The remarkable wearing qualities of this paint make certain its durability under the severest of weather conditions. Conditions under which an ordinary coating would be useless. It is water-proof, alkali-proof, acid-proof and heat-proof. It is absolutely unaffected by any chemical or atmospheric influences.

PRICES	
No. 2B-2754 50-Gallon Barrel $17.90	No. 2B-2756 25-Gallon Barrel $10.00
No. 2B-2758 5-Gallon Kit $2.36	No. 2B-2760 1-Gallon Can 68c

It is adaptable to all kinds of roofs. Leaks or holes in roofs should be painted with this coating, then covered with a piece of muslin that has been dipped in it. For serious leaks use our Plasti-Kote.

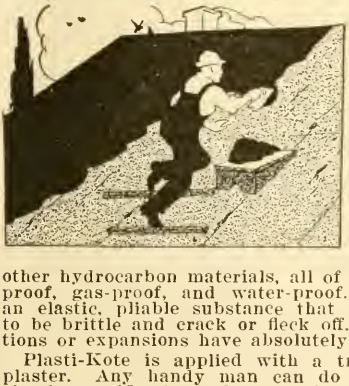
It also makes a splendid damp-proof coating for cement or brick work.

Guaranteed to be absolutely free from any kind of coal tar or tar of any description.

PLASTI-KOTE A PLASTIC ROOFING FABRIC

For making a Lasting, Inexpensive Roof in One Continuous Surface over Sheathing Boards, Metal, Felt and Concrete

Plasti-Kote is a paste-like compound that is spread in one solid, continuous, unbroken sheet, like a layer of plaster, without a single lap, seam, nail or joint in the entire roof. It may be used for either preparing new roofs over wooden sheathing and concrete, or for resurfacing over paper, felt, tin, iron or metal roofs.



The exceptional durability of Plasti-Kote is due largely to its containing over 50% long asbestos fibre. Asbestos practically resists all chemical influences, and is not affected by extremes of heat or cold. In making Plasti-Kote the asbestos fibre is thoroughly intermixed, interwoven and fabricated throughout with a mixture of asphaltum and other hydrocarbon materials, all of which are acid-proof, alkali-proof, gas-proof, and water-proof. The resultant mixture is an elastic, pliable substance that never becomes hard enough to be brittle and crack or fleck off. Climatic conditions, vibrations or expansions have absolutely no effect upon it.

Plasti-Kote is applied with a trowel the same as ordinary plaster. Any handy man can do the work by following the simple specifications that are furnished with every shipment.

Before applying to new roofs put on a priming coat of our Linseed-Asphalt Roof Paint.

25 to 35 pounds per 100 square feet is required for a covering 1/16 in. thick. The amount used varies according to condition of surface.

GUARANTEED TEN YEARS

No. 2B-2762 550-lb. Barrels $29.48	No. 2B-2764 300-lb. ½-Barrels $18.23	No. 2B-2766 100-lb. Kegs $7.00	No. 2B-2768 25-lb. Pail $2.05	No. 2B-2770 10-lb. Pail $1.00

ALADDIN CARBON ROOF PAINT

A LOW PRICED COATING FOR ROOF AND IRON WORK

This is a good, reliable, low priced coating for all kinds of roofs and all-around use on iron, cement and wood surfaces. We recommend it especially for coating smoke-stacks, and also for foundation work. Like our other roof paint it is unaffected by the action of either acids, alkalis, heat or cold or moisture. It is elastic, has a good body and will be found far more durable than the usual roof paints sold at a low price.

If conditions are such that you cannot use our other roof coatings, then order this paint with the understanding that it must give perfect satisfaction and to be just as we say it is.

It comes ready for immediate use and all that is required is that it be applied in heavy coats.

No. 2B-2774 50-Gallon Barrel $12.85	No. 2B-2776 25-Gallon ½-Barrel $7.15

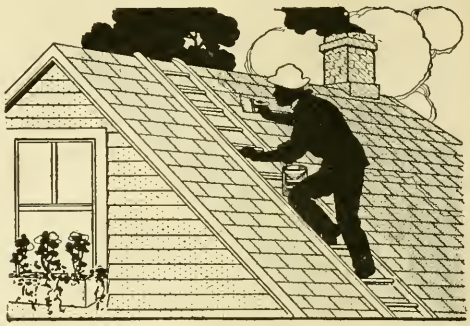
ALADDIN CREOSOTE SHINGLE STAIN



Aladdin Shingle Stain is a combination of pure strong colors, ground very fine in oil and thinned up with refined creosote and oils that best prevent the decay and deterioration of woods. They do not fade and will easily double the life of shingle roofs or siding.

It is poor economy to let a roof go to pieces when a small investment in shingle stain will save so many dollars a few years later. Every year shingles get higher in price and the cost of re-shingling a roof is now double what it was ten years ago—never before did a few gallons of shingle stain mean so many dollars saved in roof expense.

Shingle Stain is better than Paint for shingles as it does not clog the surface and leaves a clear, non-porous roof, off which the water will run quickly without striking in. The shingle should be dipped **all over** and the stain well stirred before drawing from original package, and while using. On shingles that are already fastened, the stain can be applied with a brush, like paint. Allow the water from several hard rains to run to waste before letting it run into cistern. 2½ gallons saturate 1,000 shingles at a dip or 100 square feet of roof, two coats, when used with a brush. Also for new clapboards and rough lumber siding to produce bungalow effects—cheaper of course, than paint and very effective for staining entire outside of bungalows, summer cottages, porches, bandstands, temporary structures, fences, etc.

Made in eight colors—send for shade card.

ALADDIN BUGGY & AUTO FINISH

Aladdin Buggy and Auto Paint is a very durable combination of chemically pure pigments and a kauri coach varnish. It is ready for use and if applied in accordance with directions will make a tip-top job of an automobile, buggy, carriage or wagon that needs refinishing.

No need to send for a high priced expert—this finish is made for just such people as you who have a little time and rather enjoy touching up things and giving them a fresh, natty, new look that marks them at once as the property of the man who cares. A quart will usually finish a buggy; for a good sized automobile two quarts may sometimes be required. This finish is made to cover in one coat; tho on raw wood it is necessary to use two coats. The durability is remarkable and the wear and tear, mud and water and general abuse that this finish will stand has been the wonder of many who have used it. Also suitable for lawn swings, porch furniture, iron fences, etc.

Made in the following colors:

CARMINE	BREWSTER GREEN	BLUE
BLACK	WINE	YELLOW
BATTLESHIP GRAY	VERMILION	GREEN

ALADDIN WAGON & IMPL. PAINT

It is a mistake to let wagons, plows, harrows, mowers, and other expensive farm tools go to pieces from rust and rot. A gallon of Aladdin Wagon Paint frequently will be enough to refinish most of the implements on a small farm and besides being good business policy from the viewpoint of preservation it gives a farm a clean, up-to-date, prosperous appearance that old rusty wagons and implements never can.

One half-gallon for a wagon is usually more than sufficient and leaves enough over for several small implements. We guarantee this paint to produce a handsome finish of great durability.

EXCEPTIONAL QUALITY AT MODERATE PRICES

AN extensive line of high grade Varnishes and Japans, all of which are thoroughly aged and clarified and warranted to give full satisfaction, both in respect to lasting qualities and finish.

In the manufacture of these goods there have been used only such materials as are best suited for the particular purpose that each varnish is intended to fulfil.

One gallon of varnish is required for approximately each 600 square feet of hard wood and 400 square feet of soft wood.

No. 1 EXTERIOR SPAR

Made of selected gums and the maximum amount of linseed and waterproof oils, to withstand the severe wear and tear, contraction and expansion of heat, cold, snow and rain, that an exterior varnish is subjected to. It contains no rosin and will not turn white under water.

EXTRA DURABLE FLOOR VARNISH

RESISTS ALL THE TEST OF A HIGH GRADE FLOOR FINISH

In this varnish are combined all the essential features that constitute a perfect floor finish—toughness—elasticity—hardness and high lustre. A varnish that is made to withstand the hard usage of being walked on and the daily scraping and moving of furniture.

Don't pay $3.00 to $4.00 a gallon for advertised varnishes that cannot in any way excel the fine wearing qualities of this finish—which is made of the best materials obtainable.

Use this varnish from first coat up and you will have a pleasing and durable result. Bear in mind that we guarantee it absolutely.

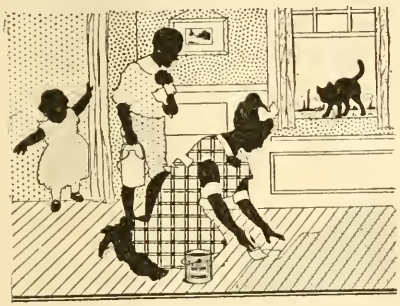
ALADDIN INSIDE FLOOR PAINT

A paint that will stand the pressure and grinding of nailed heels—scrubbing with soap and water, the rolling of furniture or moving of chairs. It is made for this purpose and will face the music.

Unless you have tried it you have no idea how neat and attractive, how sanitary and cleanly, how inviting and homelike an old floor or closet can be made by simply painting it one, or better yet, two coats, with this floor paint.



Painting doubles the life of the wood, keeps it from warping and will prevent splinters on old soft woods. Try it in the kitchen—once every year or so—put a coat over the old kitchen floor, and especially if it is a soft wood floor, a bit greasy or dirty, and you will notice the difference. Put a small rug or oil cloth where you stand in front of the sink and before the stove and your floor will be bright, new and clean for months.

Made in following colors:

LIGHT GRAY OLIVE LIGHT YELLOW VENETIAN
DARK GRAY TAN GREEN RED MAROON

Send for sample card of colors.
One quart will cover approximately 75 square feet of surface.

$1.74	94c	50c

ALADDIN PORCH FLOOR PAINT

Do not make the mistake of putting House Paint on the floors or porches—it does not dry hard enough. Our Porch Floor Paint is made purposely to stand rain, snow and ice on partially or entirely exposed porch floors. This is perhaps the hardest use a paint can be put to and it must also stand walking on and the hard usage of chairs, tables, etc., being moved over it.

Usually a single gallon will cover, in two coats, with a smooth, high gloss, about 200 square feet. Few porches contain more than this area, and therefore, for the trifling cost of a gallon you can not only completely change the appearance of your porch, in fact the entire house, but so protect the exposed planks that they will wear a great deal longer without costly repairs.

Made in the same colors as our Inside Floor Paint. Send for sample card of colors.

No. 2B-2728 Gallon Cans	No. 2B-2730 ½-Gallon Cans	No. 2B-2732 Quart Cans
$2.30	$1.20	61c

ALADDIN SCREEN & PIPE ENAMEL

Unexcelled for wire screens, stove pipes, registers, grates, water and gas pipes, furnaces, smoke stocks, garden tools, iron fences, brackets, coal scuttles, etc. Protect your stove pipes with a coat before you store them away in the damp cellar for the summer, and they will be in excellent shape when fall comes around again. **One coat will do the work** and leave a handsome black, glossy finish that will not clip or burn off.

Screen doors and windows can be protected against rust by the application of this paint once a season. A quart can is usually sufficient for coating all the screens of the average American home.

No. 2B-2734 Gallons	No. 2B-2736 ½-Gallons	No. 2B-2738 Quarts	No. 2B-2740 Pints
$1.35	74c	40c	22c

ALADDIN OIL WOOD STAINS

FOR BARE WOODWORK

These stains produce a handsome finish in natural wood effects. They will not raise the grain, thus overcoming a common fault of ordinary stains and saving the labor of sanding down the raised portions to produce a smooth surface. The stains should be applied to bare wood.

No. 2B-2746 Gallons	No. 2B-2748 Quarts	No. 2B-2750 Pints	No. 2B-2752 ½-Pints
$1.43	56c	30c	17c

ALADDIN FLOOR & POLISHING WAX

A POPULAR WOOD FINISH

ALADDIN TURPENTINE SUBSTITUTE

A Painting Economy

This is a splendid thinner for use in place of turpentine as a reducer for paints, enamels, varnishes, etc. Has a good gravity, white color, pleasant odor, and paints, etc., thinned with it will dry thoroughly and with a good lustre. In one respect it is superior to turpentine—it evaporates much slower and is therefore especially advantageous as a reducer when difficult brushing is experienced, as is so often the case with enamels, color varnishes, carriage finishes, etc.

ALADDIN CEDAR OIL POLISH

For Preparing and Renewing

OIL MOPS and POLISH CLOTHS

This compound is prepared especially for making and renewing Dustless Cloths and Mops. The Dustless Cloths can be made by simply saturating a piece of cheese cloth in water, removing the surplus water by passing through a wringer and then adding a small quantity of Cedar Oil Polish. All the germ-laden dust and dirt is collected and held in the cloth or mop and when through dusting the dust is shaken out, and it is again ready for use. It cleans as well as polishes all varnished, waxed and painted woodwork, furniture and floors.

Large Water Coil $4.00

A large Water Coil suitable for use with any of our furnaces. The use of this Coil is suggested where a large range boiler is used or in cases where a radiator for hot water heat is used in connection with a warm air furnace.

No. 3E-777—Large Water Coil $4.00

Small Water Coil $1.50

This Water Coil is the most popular one, as it is used in connection with a 30-gallon range boiler. Can be furnished with any furnace which we show. A sketch will be furnished showing the proper connection for attaching this to a range boiler.

No. 3E-779—Small Water Coil $1.50

HOMECRAFT ROCKERS

William and Mary Period Rocker made on beautiful lines after the furniture brought out during the above mentioned period. Solid Oak throughout with Auto Seat upholstered in Genuine imported tapestry. Finished Fumed or Early English.

4B-3911
As described **$8.45**

An extremely comfortable and pleasingly designed Rocker, made after the mission period type of furniture. Of solid Oak throughout. The extreme simplicity of this rocker, combined with the rich upholstering make a very expensive appearing piece of furniture. Genuine leather with loose cushion back as shown.

4B-3913
As described **$11.20**

A Mission period Rocker, very similar in construction to rocker 4B-3913, but without the loose cushion back and constructed on less massive lines. Made of Solid Oak throughout. Finished Fumed or Early English, upholstered in moleskin or Genuine Spanish leather.

4B-3915—Rocker Upholstered in Moleskin **$7.20**

4B-3917—Rocker Upholstered in Genuine Leather **$8.55**

A Mission period Rocker, Sturdy, Massive, Roomy and a rich appearing piece of furniture. So many rockers of this type have been offered at prices varying in price from $50.00 to $20.00 that it is hard to show, in a picture, the real value of this one. Sufficient to say that it would be impossible to buy a better rocker of this type, no matter what the price.

4B-3919—Rocker Upholstered in Moleskin **$7.95**

4B-3921—Rocker Upholstered in Genuine Leather **$8.95**

An inexpensive Mission period Rocker built on extremely simple lines, but in all a rich appearing, roomy and comfortable Rocker. Made throughout of Solid Oak, upholstered in Spanish Drill. This Rocker is truly a leader and we feel sure that anyone receiving one will be more than satisfied with the purchase.

4B-3923
As described **$5.50**

A Mission period Rocker, which has always been found a very popular number wherever offered. Is made of Solid Oak throughout. Has an Auto Seat, which is upholstered in Genuine Spanish leather. This Rocker has been sold by dealers all over the country at more than twice the price that we ask for it. Finished Fumed Oak or Early English.

4B-3925
As described **$8.75**

$26.75 FOR THIS FIVE PIECE MISSION PERIOD LIVING ROOM SUITE

MISSION PERIOD XVIII CENTURY AS REPRODUCED BY ALADDIN HOMECRAFT DESIGNERS

Never before has it been possible to buy a true period type living room suite for anywhere near the extremely low price at which we offer this. Think of it! Five large massive pieces of solid oak furniture upholstered in genuine leather for less than thirty-five dollars, about $7.00 each as an average price, and every piece of this furniture is guaranteed absolutely.

The Aladdaphone

$25.50

The New Aladdaphone which is now offered to the public is the most beautiful, perfect, scientifically constructed talking machine on the market selling for less than $50.00. Exquisite in design, perfect in workmanship, constructed upon the most scientific basis, it is not only a beautiful ornament in the home but a musical instrument of the highest quality. In no other instrument except those selling for $50.00 or more can be found the same exquisite quality of reproduction which the ALADDAPHONE so perfectly portrays. This instrument faithfully reproduces the bewildering and intoxicating ensemble of the loudest band as well as the softest, most beautiful and seductive tones of the great vocal artists. It is the first time the public has been able to command the opportunity of hearing music of the world's greatest artists. The high priced phonographs selling for one hundred and one hundred fifty dollars have represented an outlay of money which only the very rich felt able to afford, while the cheaper machines heretofore offered the public, some of which are mere tin toys, have been alike unsatisfactory; but this beautiful instrument, differing only in size from the higher priced machines, now brings within the reach of all the opportunity of enjoying and thrilling with the music of the world's greatest artists.

YOU CANNOT AFFORD TO BE WITHOUT IT. The charm and comforting influence of beautiful music in the home is thoroughly appreciated by all. This instrument will fill with complete satisfaction the dull hours of the long winter evenings and will alike amuse and entertain your friends and your family, when otherwise time would pass slowly. Music is educational as well as satisfying, and therefore a knowledge of it should be cultivated. You will find in this instrument, comfort and charm as well as a companionship and contentment which you have not known before.

The Aladdaphone is 35 inches high, 17½ inches deep and 15½ inches wide, has a ten inch turntable, plays Victor, Columbia, Edison, Pathe or any standard record, can be wound while playing. The cabinet is beautifully finished in mahogany and will hold a large number of records.

7 A-1002 Aladdaphone $25.50

We make this instrument in a small size as shown, being 13 inches wide, 13 inches deep and 8 inches high; has a ten inch turntable, plays anything up to 12 inch Victor or Columbia records. Finished in mahogany.

7 A-1000 Aladdaphone Junior $8.75

We will replace free of charge any broken parts for one year from date of purchase.
